

George Dugan and Bob Mest Say

# "We're Flabber-GAS-Ted!!"

NO FULL SIZE AMERICAN CAR SHOULD GET

# 29.1 Miles Per Gallon

AS THIS '59 CHEVROLET BISCANE 6 CYLINDER MODEL WITH STANDARD TRANSMISSION DID BUT YOU CAN'T ARGUE WITH FACTS!!

On Monday, December 15th Keith Sexton — one of our Service Salesmen — drove Don Kettler, Herald and News photographer, to Tulelake and back. First Bill Pickett filled the tank to the brim at the Pelican Mobil Service Station at 6th & Walnut Street.

All traffic laws were obeyed during the trip. Constant speeds of 55 to 60 were maintained on the open road. Here a photo is taken of Merrill's Main street as the Chevy travels to Tulelake.

The Chevy checks back in at the same pump at the Pelican Mobil Service Station at the conclusion of the run.

Total Elapsed Miles  
**58.3 Miles**

Total Consumed Gas  
**2 Gallons**

**AVERAGE MILEAGE**

# 29.1 MILES PER GALLON

Mrs. George Birtwhistle, CHEVROLADY OF THE MONTH, admires the car as it stops in front of her house in Tulelake.

This car was chosen at random from our stock. No special servicing or tuning was given it. We were astounded at its performance. It is our honest opinion that no Chevrolet owner should expect this kind of mileage, but it is absolute proof that economy can be enjoyed with luxurious comfort in this amazing Chevrolet for '59.

COME IN TODAY AND PLEASURE TEST THE NEW '59 CHEVROLET AND LET US PROVE THAT

GEORGE
