

POP CORN for the holidays is a must and Jolly Time Pop Corn just can't help popping. The new cans of Jolly Time contain volumized pop corn. Shown is a basket of candy-coated pop corn gracing the table along with holiday candies and shiny red apples.

PRETTY PLATE shown is Tomato Norway Sardine Falsisse, an ideal main dish course on a meatless menu. It is suggested that the poached eggs be thoroughly cooked.

Norway Sardines

Leave it to a gourmet to come up with a novel way to serve tangy and tasty sardines from the cold fjords of Norway. Our gourmet friend suggests this recipe for Tomato Norway Sardine Falsisse as an ideal main dish course on meatless menus.

- INGREDIENTS**
- 2 large tomatoes, chilled
 - 2 (3 1/2 oz.) cans Norway sardines
 - 6 chopped stuffed olives
 - 1/2 teaspoon salt
 - Few grains of cayenne pepper
 - 4 cold poached eggs
 - 1 cup mayonnaise

1-3 cup heavy cream
1 1/2 teaspoons horseradish
Lettuce leaves (garnish)
Method: Cover the tomatoes with boiling water for 1 minute. Drain. Carefully remove the skin. Chill. Cut in half crosswise. Place half a tomato on each plate. Drain and reserve 8 sardines for garnish. Mash the remaining sardines and blend with chopped olives. Spread over each tomato half. Season to taste. Place a cold poached egg over the sardine mixture; cover with combined mayonnaise, cream and horseradish. Arrange two whole Norway sardines on mayonnaise mixture and top with thin slice of stuffed olive. Serve on crisp lettuce leaves or a bed of chopped lettuce.

POP CORN

Candy's special when it's served as a dessert or refreshment.

But, have you tried it as an ingredient — a special taste treat that makes other foods even better?

Here, for instance, is a recipe that uses hard butterscotch candies to make some of the most delicious candy-coated popcorn or popcorn balls you ever tasted!

CANDY-COATED POPCORN

Melt 1 pound hard butterscotch candies and 1/2 cup butter in 1/2 cup water over low heat. Stir often. When the candy is melted, cook until syrup reaches light crack stage (280 to 290 degrees). Remove from heat and stir in 1/2 teaspoon vanilla. Drizzle the syrup over 4 quarts heated, salted popcorn. Stir gently until corn is coated. The popcorn can also be shaped into balls.

Keep candy on hand in a covered dish so you can experiment with it in decorating your frosted cakes and cookies, and as an ingredient in foods.

SHOWER IDEA

A shower any bride will enjoy is a recipe shower. Each guest might also be asked to bring a plain dish towel and the hostess provide colored embroidery cotton. Prizes might be given for the top design executed in a given length of time or each towel might carry the name of the donor.

PANCAKES

After a slumber party for your young son's friends, give them a whopping breakfast of pancakes. Aunt Jemima has some melt-in-your-mouth mixes and the new four-pound sack which has been recently advertised in the Herald and News is a convenient family size to keep on hand.

Unique Cream

An astounding new discovery by Helena Rubinstein, incorporated into her latest achievement, Ultra-Feminine Face Cream, proves once again that this indomitable beauty scientist can always improve on the best!

In her relentless search for perfection, she has succeeded — for the first time in cosmetic history — in combining the feminine hormone, progesterone, with estrogens in a single cream, Ultra-Feminine. Progesterone stimulates the production of natural skin oils, while estrogen enables cells to hold moisture. The first cream ever to contain both hormones, it helps the skin to look and act young. Ultra-Feminine is the most valuable preparation ever created by this cosmetic genius.

Ultra-Feminine has been exhaustively tested medically, and found so safe that no prescription is needed. More than a cream, it is a really beauty therapy!

Most creams supplement the natural oils and moisture of the skin externally, but Ultra-Feminine restores these precious ingredients of beauty from within. It actually reactivates tired cells — with the very hormones that make you feminine — to surging, youthful activity. Actually the structure of the cells does not change with age. It is just that their vitality fades with time, and they need "refueling." The merest fraction of an inch beneath your deepest wrinkle, the living cells that can restore radiant, velvet-smooth, youthful loveliness to your skin are waiting for Ultra-Feminine to reawaken them so that they may resume the functions for which they were created.

Of these living cells, those whose function is to hold moisture are of extreme importance. While there is plenty of moisture, the under layer of the skin is full and plump, and the surface, being so intimately connected with it, is smooth and unlined. But if there is a lack of moisture the whole structure shrivels, and the surface collapses into wrinkles. This, plus the dry and coarsened texture produced by a lack of oils, is what makes skin look old.

But Ultra-Feminine virtually turns time back! Its progesterone stimulates the oil glands to renewed activity, its estrogens bring fresh strength to the moisture-holding cells, and the skin responds to this "natural magic" as a flower to spring rain!

Tests for safety, scrupulously carried out, satisfied all medical requirements. Tests for efficacy proved conclusively that the new cream: Restores shrinking glands to youthful production of natural oils, firms skin cells with natural moisture, and improves skin tone.

LOVELY is the woman whose skin is soft and radiant, restored to ultra-feminine loveliness by a marvelous new hormone cream just announced by Helena Rubinstein and to be introduced right after the first of the year.

DESSERT SAUCE

Everyday fare becomes party fare with the right sauce. Here's a delicious hot fruit sauce combining pineapple and grapefruit juices to serve over squares of gingerbread or unfrosted cake: Combine 2 tablespoons cornstarch, dash of salt and 1/2 cup of sugar in a saucepan. Gradually stir in 1 1/2 cups of pineapple juice and 1 cup frozen grapefruit juice, diluted according to directions on can. Cook, stirring constantly over moderate heat until thickened. Allow to cook for a few more minutes. Remove from heat and stir in butter. Makes 2 1/2 cups of sauce. Serve hot over gingerbread or cake.

Guess the cost of one page
of advertising . . . in one copy
of the daily newspaper!

ANSWER: . . . JUST ABOUT A PENNY! In spite of greatly increased costs of production and moderate rate increases, you can still buy a big full-page newspaper ad, to run in every daily in the U.S., for about a penny a copy. And an advertiser can continue to plan future newspaper campaigns secure in the knowledge that any cost increase will be moderate and will not disrupt his budget. That's why so many use newspapers.
