DEMONSTRATION OF A NEW TYPE of brush cutter has been under way on the Glenn Irwin place three miles east of Fort Rock. To be in use until early in the new year, visitors may view it in operation or see the results, states W. O. Shoemaker of Bend, who is in charge of the machine. The Marden brush cutter has a record of 80 per cent kill on Texas mesquite, according to Shoemaker, who feels the new machine will revolutionize land clearing. Several sizes are made. This large 44,000 pound model is powered by a TD-18. Irwin is shown here with the outfit. — Photo by Parks
