Birthday Noted By Open House

MONTAGUE—Mrs. Lulu Martin of Little Shasta, was honored on the occasion of her 80th birthday, with an open house on Sunday afternoon, December 14, held at the home of a son and daughter-in-law, Mr. and Mrs. Elmer M. Martin in Montague, with hostess duties shared by Mrs. Annabelle Burket, her daughter.

Approximately 75 guests called throughout the afternoon, bringing the honoree many gifts and cards. "Lou," as she is more familiarly known to everyone, was born at Fall River Mills on December 14, 1878, one of 11 children born to Sarah and Clarence Dimmick, pioneers from Missouri. She has only one brother left of the family. He is Ralph Dimmick, 77, of Weed. She attended school in Little Shasta, and lived with her parents until her marriage to Henry Martin on August 8, 1903. Three of their four children are still living. Besides Annabelle and Elmer, is Henry Fleming Martin of

Klamath Falls. Mrs. Martin has five grandchildren and five great-grandchildren.

An early census in 1680 revealed that New Mexico had 24,000 inhabitants — 1,000 Spaniards and 23,000 Pueblo Indians. There also were plenty of Navajo and Apache Indians, but they were not included in the census because they would not slow down long enough to be counted.

BPW Club Hears Book Review

The Business and Professional Women's Club had a short and interesting business meeting Monday, January 5, at the Willard Hotel with Alice Gallup, president, in charge.

Johnnie Martin, president of the Edith Canning Book Club, was program chairman. May Phinney very ably gave a most interesting book report from memory. The title of the book was "Tidefall" written by Thomas H. Radall. The setting for the story was the rugged coastline of Scotland which Mae had visited. She said the story described it perfectly.

The next meeting will be Monday, January 19, with Isabelle Brixner, international relations chairman, in charge. She has asked Mrs. George Braham who has just returned from Iran where she visited for several months to tell the story and show slide pictures of Iran.

Hair, Like Hands, Needs Regular Care

With the coming of cold weather, women who had no hair problems before suddenly find that their hair refuses to curl, develops sticklike ends and flattens out to the head.

It is, in short, stubborn and hard to handle. A permanent helps even if you don't have one at any other time of year. But it also adds to the problem in a sense. It further dries out the hair and that is exactly what was wrong with it to start.

Just as your skin needs creaming in order not to be dry and crackly, so does your hair need creaming all winter long. But it doesn't need goosy lotions. It needs the precious oils restored gently.

One new lanolin-rich cream which comes in a tube will, the makers say, benefit the hair in one application. It's both a conditioner and a hairdressing. It will give best results if you brush it in thoroughly.

Robert College and the American College for Girls, both American educational institutions, are located near Istanbul, Turkey. Most of the students are Turkish, but they also have students of 15 other nationalities.
