

'Cattleman Of Year' Rites To Feature Red Bluff Sale

RED BLUFF—Ceremonies honoring "Cattleman of the Year" for 1958 selected by beef producers from the states of California, Oregon, Nevada and Washington will again be featured at the 18th national largest annual sale of quality beef bulls to be held here February 5 to 7, Don M. Smith, sale manager announced recently.

"At no other event in the west are these top cowmen who are chosen each year by cattlemen from their own state for their skill in beef cattle production and community leadership, recognized as a group," he said.

"Our sale committee is honored to entertain these outstanding beef cattle leaders and to present them to other cattle producers from all Western states who will gather here. Their success is an inspiration to the entire industry," Smith added.

"Cattlemen of the Year" expected to be on hand, according to Smith are Roger Jessup, Glendale, California's Livestock Man of the Year; Russell Weeks, "Cattleman of the Year" from Wells, Nevada; the Morrow Bros. of Madras, Oregon's top selection and Henry J. Schenley, of Ellensburg, Washington's 1958 leader.

Smith said that awards will be presented each before 600 Western states livestock leaders at a banquet to be staged during the bull sale on the evening of February 6 in the banquet hall at the Tehama County Fairgrounds near Red Bluff. The recognition ceremonies he said, will follow the judging and sale of 55 Shorthorn and 54 Angus bulls consigned by leading breeders throughout Western states and will precede the auction of 315 selected Hereford bulls scheduled for Saturday, February 7.

Hugh Baber, manager of the Llano Seco Rancho of Chico and a former California Livestock Man of the Year, as well as the past president of the California Cattlemen's and Woolgrowers' Associations, will officiate in making presentations to the Western cowmen.

Among Oregon cattlemen of the year honored at previous Red Bluff sales are Lawrence Horton, Klamath Falls; V. S. Kirby, Durkee; Everett Shibley, Estacada; Floyd Hill, Crane; Tom McElroy, Vale and Harry Stearns of Prineville.

Petaluma Girl Badly Hurt

PETALUMA (UPI)—A 4-year-old girl was critically injured Monday when the station wagon in which she was riding was crushed by a load of hay.

The victim was Maria Gonzalez, Nicasio, who was riding with two other small children in the station wagon driven by Mrs. Heloise Tomasi, 35.

Authorities said their vehicle was passing a hay truck coming in the opposite direction when the load of about 40 bales slipped. The load, weighing about four tons, crushed the top of the station wagon.

Mrs. Tomasi and the other two children suffered only minor injuries.

Highway Patrolmen said the truck driver, Edward M. Campigli, 19, Point Reyes, could not explain why the bales of hay slipped.

Gift Of An Ice Machine Inspires Foundation

SAN FRANCISCO (AP)—A gift of an ice machine to chill country club martinis inspired a community foundation that finances advanced study for public school teachers.

More than 500 school board members gave two hours of concentrated attention to a National School Boards Assn. section meeting Monday night to a how-to-do-it explanation of the Columbus, Ind., foundation idea.

The idea was born with Dr. W. L. Wissman, Columbus physician and school board member.

"I heard that a man in our town gave a 1,500 ice-making machine to the country club," Dr. Wissman explains.

"I figured if there were people around with that kind of money to give away why couldn't we get some of it together to support summer study opportunities for our teachers."

The Columbus foundation collected and donated its first private money in 1956. In three years it has awarded grants to 56 Columbus teachers for summer projects including a Spanish teacher's tour to Valencia, Spain.

Private gift support for faculty research work and advanced study is widespread in colleges and universities. The Columbus foundation apparently is a pioneer in doing this job for elementary and high school teachers.

"The effect on teacher morale has been notable," declared Clarence E. Robbins, school superintendent. "And we now find we have an important advantage in recruiting good new teachers."

Robbins said 60 per cent of the Columbus school system teachers hold master's degrees. No more than 10 per cent of the teachers in an average school system will have master's degrees.

The foundation, has budgeted \$12,000 for summer study projects this year.

About \$10,000 was spent last summer on such "faculty enrichment" as mathematics study at New York University; gifted children workshop study at Stanford University, counseling study at Denver University, Shakespeare institute study at Yale University, advanced science and mathematics study at the University of Virginia and study at the Bread Loaf Writing Workshop in Vermont.

Said Superintendent Robbins: "We've been able to do something for the people who have felt they must work at jobs on the outside—to maintain a standard of living they wanted for their families."

"People like this are usually the best people in teaching."

Up to now the Columbus foundation has been amply financed with a low pressure solicitation among industries, business firms and professional people. A city of 20,000 Columbus has three major local industries supporting the foundation.

The foundation board passes on study project ideas proposed by teachers. Strictly junket propositions don't get by, said Dr. Wissman.

Oakland Lad Slay Victim

OAKLAND (UPI)—David Eastly, 22, Oakland, was shot and fatally injured Monday night by his former roommate in what police described as a murder-suicide attempt.

Authorities identified the assailant as John Fauquembergue, 26, who was in critical condition at Highland Hospital with a self-inflicted bullet wound in his chest.

Eastly, who was shot once in the head and twice in the abdomen, died in surgery four hours after the incident.

Police said the shooting occurred in an apartment the two men had occupied on Nov. 1. They said Eastly recently moved out after an argument with Fauquembergue.

The victim returned to the apartment Monday and the argument resumed. Then the shooting occurred.

Authorities said Fauquembergue apparently made careful preparations for the shooting. He had packed all of his belongings except a few items of clothing, including a purple bed jacket.

Police found a note which read: "I, John Fauquembergue, killed David Eastly and myself tonight. All my personal possessions go to the Goodwill..."

Defense Gives Opening Talk

SAN FRANCISCO (UPI)—The defense presents its opening statement today in the sedition trial of three Americans charged with a campaign to destroy morale of captured U. S. troops during the Korean conflict.

A federal court jury of eight men and four women was chosen Monday to hear the government's case against John Powell, 39, his wife Sylvia, 38; and Julian Schuman, 38.

The Powells, of San Francisco, published the China Monthly Review in Shanghai during the Korean conflict. Schuman was their associate editor.

The government charged that through the magazine, the defendants circulated false reports that the Americans used germ warfare and that they attempted to cause disloyalty among the troops and to interfere in recruiting.

In his opening statement Monday, U. S. Attorney Robert Schnake charged that Powell "took over a highly respected magazine, put out by a highly respected man" and perverted it into "a Communist propaganda organ."

The magazine was formerly published by the defendant's father, John B. Powell. The elder Powell was imprisoned and tortured by the Japanese during World War II and died in 1946 as the result of his ill treatment.

\$500,000 Suit Filed By Woman

SAN FRANCISCO (UPI) — A Sacramento woman Monday filed a \$500,000 damage suit against Rick Helicopters for the death of her husband in a crash near Bayshore Freeway last June.

Mrs. Betty Shonkwiler charged that her husband, Paul, 22, was a "business invitee" when a Rick helicopter crashed, killing him and Paul E. Heinley, 37, Hayward, a Rick pilot.

Shonkwiler had applied for a job with Rick.

A coroner's jury was unable to determine which man was at the controls.
