

Top Scientists Predict Travel To Moon By 1969

WASHINGTON (AP)—Fifty top scientists peered into space today and saw a man on the moon—perhaps by 1969.

Or man may set foot on the moon in 1965 and zoom on to Mars and Venus three years later. That is assuming space projects get very high priority and a billion dollars a year, says Herbert F. York, the Pentagon's research chief.

The views of York and other space experts, including five from other free world countries, were issued in a report by the House Space Committee on "The Next 10 Years in Space."

The report asked, "Where does fantasy end and reality begin?" In their answers to committee questionnaires, the scientists were dead serious, even if they varied widely on the timing of seemingly fantastic events. Their outside time limit on trips to the moon and beyond was generally 20 years.

For other ventures—like development of a possible death ray weapon able to shatter objects from hundreds of miles in space—the time was indefinite.

A number felt that 1969 may be too early to count on having a man on the moon. Among them was T. Keith Glennan, head of U.S. civilian space work.

But Glennan figured there is a good chance that Americans will circle the moon without landing in the next decade. Army missileman Werner von Braun foresees a lunar landing a few years thereafter.

Glennan announced Tuesday night that 110 potential candidates for the first orbit flight around the earth already have been picked.

Some other predictions were enough to stagger the imagination.

Within 40 years, said Dr. Eugen Sanger, director of the Institute of Jet Propulsion Physics at the Technical University of Stuttgart, Germany, man may be traveling at 670 million miles an hour—almost the speed of light.

But long before the year 2000 rockets will deliver mail in minutes around the earth, forecast the founder of the Italian Rocket Assn. Dr. Glaucio Parrel.

James M. Gavin, former Army research chief, likewise saw mail becoming almost as swift as the telephone, and rockets otherwise used commonly for what air transports now do.

Frederick C. Durant III, former head of the International Astronautical Federation, predicted the Soviets will send man into orbit and back several times in 1959 and will otherwise shock Americans by "pressing their current advantageous lead" in spacecraft.

Brig. Gen. H. A. Boushey, the Air Force's technology director, foresees the building of a large space station piece by piece near the end of the next decade. This would be the refueling and jump-off point for trips further out.

Sanger spoke of a possible ultraviolet searchlight in space which, using high-energy beams, could shoot a death ray "destroying flying objects up to a distance of several hundreds of miles in a fraction of a second."

Atomic Energy Commission Chairman John A. McCone expressed confidence in the development of a powerful nuclear rocket engine within the next 10 years plus small atomic units for making electricity aboard spaceships.

Dow Chemical Co. scientists foresaw within the next decade nuclear engines allowing continuous flight for up to a year, either in the earth's atmosphere or beyond.

Peaceful benefits foreseen included worldwide TV, communications, and weather observation from satellites.

Of the 40 million Christmas trees now used in the United States, about 28 million come from U.S. forest lands and 12 million are imported from Canada.

"HOW THE HECK DID I KNOW YOUR OL' SUSPENDERS WOULDN'T EVEN PULL A WAGON?"

Brown Asks \$23 Million For Beaches And Parks

SACRAMENTO (UPI)—Gov. Edmund G. Brown asked the Legislature today to spend \$23,382,689 to operate and develop California's network of beaches and parks.

The governor submitted a budget which suggested spending \$7,338,750 for day to day bills and \$15,543,931 for site development at state parks during the fiscal year which will begin July 1.

Brown's spending request was \$4,301,335 less than state fiscal experts estimate will be spent on the program during the current budget year.

The daily support budget for administration of the park program showed an increase of \$515,988 or 7 per cent over the 1958-59 fiscal year. But the capital outlay proposal was \$4,817,323 less than the spending estimate for this year.

Most of the construction money was earmarked for further development for existing parks "so that the benefits from these expenditures may be realized as quickly as practicable," the budget document said.

Money to finance the beaches and parks program will come either from tidelands oil revenues or from the sale of bonds.

In addition to the beaches and parks budget, Brown proposed spending \$175,407 for small craft harbors and \$3,161,363 for operation of the California Olympic Commission which is preparing the Squaw Valley site for the 1960 Winter Games.

No money was budgeted for additional construction of roadside rest areas. A total of \$12,500 was asked for maintenance of the existing facilities.

Major property acquisitions contemplated in the 1959-60 fiscal year:

New state beaches: Benicia Beach, \$164,900; Francis-Dunes Beach, \$82,579; Pescadero Beach, \$72,500; Pomponio Beach, \$75,000; Royal Palms Beach, \$434,350; Salinas River Beach, \$100,000.

Additional land to be acquired for present beach park areas:

Carpenteria Beach, \$150,000; Dry Lagoon Beach, \$74,000; Manhattan Beach, \$169,886; Natural Bridges Beach, \$50,000; New Brighton Beach, \$39,000; Pacific Beach, \$200,000; Pismo Beach, \$100,000; Point Lobos Reserve State Park, \$150,000; Russian Galesh State Park (Sonoma County), \$90,000; San Simeon Beach, \$65,000; Santa Monica Beach, \$53,237; Seacrest Beach, \$160,000; Sonoma Coast State Park, \$200,000; Pines, \$71,888; Twin Lakes Beach, \$221,778.

New park areas: Benbow Lake, \$100,000; Folsom-Nimbus, \$195,216; Fort Humboldt State Historical Monument, \$146,000; Franks Tract, \$150,000; Imperial San Hills, \$75,000; Lake Elsinore, \$199,240; Woodson Bridge, \$50,000.

Additional land for present park areas:

Anza-Borrego, \$100,000; Big Basin Redwoods, \$400,000; Butano, \$50,000; Castle Crags, \$75,000; Clear Lake, \$177,447; Columbia Historic, \$176,127; Donner Memorial, \$15,000; Fort Ross State Historical Monument, \$174,000; Gold Discovery, \$81,000; Henry Cowell Redwoods, \$80,000; Humboldt Redwoods, \$300,000; Mt. San Jacinto, \$100,000; Palomar Mountain, \$73,400; Pfeiffer Big Sur, \$67,797; Prairie Creek Redwoods, \$35,000; Salton Sea, \$122,000; Shasta State Historical Monument, \$71,000.

Boards Discuss Shooting During Closed Meeting

Thursday afternoon's accidental shooting at Klamath Union High School provoked a two-hour, closed discussion at Monday night's regular meeting of the board of School District 2. Following the discussion, which dealt not only with the single incident, but with disciplinary problems in general, board members intimated they would pursue the subject further, possibly at a special meeting scheduled to deal with curriculum and staff problems for 1959-60, which was set for last evening.

The board reverted to open session at the conclusion of the discussion, and voted to suspend the 15-year-old principal in Thursday's incident from classes, "until further action of the board." This further action will presumably be taken when juvenile authorities have disposed of the case. The boy was shot in the hand by the accidental discharge of a pistol he was carrying in a notebook.

Meanwhile, at a meeting of the board of School District 1, protests from Conger School parents who had opposed an assignment change reducing staff at the school by one teacher were granted partial satisfaction. Instead of losing the services of one teacher as was originally proposed, Conger will give up only approximately half the time of one teacher, who will also handle classes at Riverside School. Moreover, the Conger principal, James Young, will instruct a fourth grade class for two class periods a morning, so that the two fourth grade classes will remain entirely distinct.

The changes had been originally proposed by the administration to compensate for low enrollment figures in two Conger classes. As was explained in an article published in Sunday's Herald and News, many Conger parents felt that special circumstances involved at that school justified the maintenance of better than standard pupil-teacher proportions there for the rest of this year.

In other actions, the board of District 1:

- Authorized further repairs at Riverside School, where those undertaken to bring the building into compliance with requirements set by the state fire marshal are now nearly complete. The further repairs include ceiling plaster work and linoleum laying.
- Authorized architect Howard Perrin to draw up designs and specifications for construction of a new fire escape at Riverside, in keeping with a recommendation of the fire marshal.
- Authorized use of Mills School auditorium by the Community Concerts Association in 1959-60, "provided such use does not interfere with school activities." President Andrew Loney, of the association, had informed the board that the Pelican Theater would not be available for concerts next year.
- Authorized the clerk of the board to negotiate with the county court in reference to eventual purchase of 10 county-owned lots which would form part of the proposed north site for a junior high school.
- Accepted the resignations of three teachers: Dorothy Ezell, Janice Oberst and Sherrill Boyd, the last "conditional upon finding a replacement."
- Decided to hold a meeting of the district's budget committee Thursday night at the high school, beginning at 7:30 o'clock.
- Board members of School District 2 were also told that work at Klamath Union High School to bring it into conformity with the requirements of the state fire marshal was now complete except for minor details.

Principal Charles T. Carlson presented the board with figures showing an enrollment for the new semester, as of Monday, of 1,684, only two less than that of a month before.

The board authorized the travel of Carlson and Paul Angstead to a winter meeting of high school principals, to be held in Eugene, and of Francis Scapple and Andrew Knudsen to an annual meeting with former KU students, held at the Oregon State College campus. The board also authorized travel of an estimated 16 students to a speech fraternity conference to be held at Southern Oregon College, by deferred action on a proposed trip by five journalism students to a meeting at the University of Washington. The board declined to grant Charles Woodhouse two days' absence from school in order to attend a professional conference in the radio and TV field in Arizona.

In other actions, the board:

- Granted use of Pelican Court to the Klamath Reservation Jaycees for their national invitational all-Indian basketball tournament, March 21.
- Granted the use of Wright Field to the Little League baseball organization, "on the same basis as last year."
- Created a committee, to which Chairman Edward Hickman appointed Dr. James Noel and Mrs. Earl Sheridan, to investigate conditions under which the cafeteria should be made available for banquets. This was taken in view of requests from the Klamath Falls Gospel Mission and the Wesleyan Service Guild for use of the school's facilities.
- Got into a discussion on mathematics offerings at the school, and of curriculum and staff problems, for the coming year, which were to be gone into at greater length at Tuesday night's special meeting, following a closed budget session of both districts with the teachers' representatives.
- Superintendent Arnold Gralapp told the two boards that a salary request from the school cooks had been received and was to be submitted at the open part of Tuesday night's budget meeting.

PTA NEWS

MILLS

Mills School PTA held a Fathers' Night meeting on January 14, in the school auditorium. Program chairman Barbara Kimes presented as guest speaker for the evening Gordon Kensler, whose topic "Why an Art Program," brought out many different ways art is used in daily living. The need for an art program in the schools was clearly defined.

Boy Scout Troop 4, under the leadership of Bill Green, led the flag salute. Mrs. Dorothy McKinie gave the inspirational opening. Shirley Eccles, Doris Moore and Marilyn Dunn were elected to serve on the nominating committee. Marilyn Dunn was appointed chairman of this committee by President Mary Britton. Refreshments were served in the cafeteria after the meeting by fourth grade mothers, assisted by Ruby Hanon, tea chairman.

There will be no PTA meeting in February. The next regular meeting will be held on March 10.
