 Eugene Elden Montgomery, drunk, \$25 or 12 1/2 days.  
 Owen M. Hodge, drunk, \$25 or 12 1/2 days.

H. O. JUCKELAND

**Sport Pilots Rename Aide**

H. O. Juckeland, member of the Klamath Falls Chapter Sportsmen Pilots of Oregon, has been named to serve for the second consecutive year as general chairman of the second annual Aviation Week, May 11-18, in the Klamath Basin. Ned Putnam will serve as vice chairman. Appointment of Juckeland and Putnam has been announced by Harold Cloake, president of the local Pilots.  
 Civilian participation in observance of Aviation Week will be in collaboration with the service personnel of the U.S. Air Force at Kingsley Field on Armed Forces Days, Saturday and Sunday, May 16-17.  
 Tentative plans as announced by Cloake are for a repetition of the 1958 successful program for distribution of films, speakers and prizes to schools and other groups during the week. The program will include models of aircraft, helicopters, airplanes to interested service clubs, plants, exhibits, fly-in breakfast, a banquet and participation by private flyers and commercial air companies.  
 Committee appointments in the near future will launch an all-out effort of the Pilots for promotion of the celebration.

**Social Security Tax Hike Is Only A Mild Sampling Of Additional Increases**

The January 1 hike in your social security taxes—from \$94.50 to \$120 (maximum)—is only a mild sampling of further social tax increases already scheduled over the next ten years, the chamber of commerce of the United States points out.  
 Between now and 1969, the chamber notes, these taxes will increase 80 per cent—even if no new social security benefits are added by Congress. Here is the tax-increase schedule in maximum figures:  
 For 1960-62, \$144; 1963-65, \$168; 1966-68, \$192; 1969, \$216.  
 Compare these figures with the provisions of the original law calling for a "top" of \$30 per year in 1937, rising to a maximum of \$40 in 1949, then leveling off.  
 One reason for the higher social taxes can be adduced by simple arithmetic. At present, about five out of ten aged are drawing social security benefits, while nine of ten employed persons are paying the necessary taxes. But in the next 15-20 years, nine of ten aged will be, or could be, drawing benefits, while the proportion of employed social taxpayers remains constant.

Further, if social security benefits are to be paid, as promised, the financial soundness of the system must be maintained. This will depend on the continued willingness of citizens to pay the necessary taxes. Constant additions to social security costs, in the hope that the taxpayers of 1969 and future years will be willing to carry the burden, is risky.  
 The chamber suggests these are points you may wish to keep in mind when the issue of new social security benefits comes before the 86th Congress.

Another reason for the new schedule of tax increases is the series of additional social security benefits which Congress has voted in every election year, starting in 1950. These include payments for dependent or surviving children and spouse; a lowering of the age at which women can collect benefits; payments for permanent and total disability. At first, the act provided benefits only to retired persons.  
 Proposals for still more benefits are certain to be made in the new Congress. "Free" hospital, surgical and nursing home care for the roughly 12 million aged now eligible for social security, is an example. This would cost you as much as \$24 per year—to start with—and much more if health benefits are increased, the chamber points out.  
 All of this is in sharp contrast to the intentions of the original Social Security Act, and, according to the chamber, raises problems which concern every citizen.  
 Social security, the chamber maintains, cannot, and was never intended to provide a complete retirement program for the individual. It was conceived and rightly

so, as a means of providing a "floor of protection" against want and destitution for the retired person. Beyond this "floor," individuals were expected to build their own retirement plans.  
 But as new benefits necessitate higher social taxes, which are, of course, in addition to all other taxes, the ability of the individual to provide for himself is diminished.

APPARENTLY NO BEARD  
 ZAMORA, Spain (UPI)—A passenger who tried to get off a train without presenting his ticket today told the conductor: "I don't need a ticket, I'm Fidel Castro. Though where I come from everyone thinks I'm Napoleon."  
 Police returned the man to the nearby Ciempozuelos Mental Hospital where he is listed as patient Juan Diez.
