Ike Sees Summit Meet As Definite Possibility

WASHINGTON (AP)—President Eisenhower apparently believes that a summit conference late this year is a definite possibility.

Such a meeting would bring him and other Western government heads face-to-face with Soviet Premier Nikita S. Khrushchev for a discussion of critical East-West issues. These undoubtedly would include questions of Germany and of disarmament.

Whether a conference is actually arranged probably will depend partly on whether East-West negotiations in the meantime ease Soviet pressures to get the United States, Britain and France out of West Berlin.

Eisenhower himself brought up the subject of a summit meeting Tuesday at his news conference in discussing a question about the effect of Secretary of State John Foster Dulles' illness on prospects for a foreign ministers meeting.

The President said he thought that Dulles' condition would not delay a foreign ministers conference.

Last Rites Set For Baroness

HILLSBORO (AP)—Funeral services will be held here today for Baroness Hermine deFine, who worked for years as a practical nurse in Hillsboro.

Relatives said Mrs. deFine, 82, had been born into a noble family in Austria.

Mrs. deFine came to the United States after marrying August Hilbert in Moscow, Russia, in 1902.

ence, but noted that there has been no agreement with the Soviets, yet on actually holding such a session. Then he added:

"I believe the Russians themselves... more concerned, Mr. Khrushchev is concerned, in a heads of government meeting, as he calls an informal and without-an-agenda type."

"Well, that would take a great deal of preparation."

Soviet spokesmen, including Khrushchev and Deputy Premier Anastas I. Mikoyan have repeatedly called for a heads of government conference. While he was in the United States last month, Mikoyan argued that it would be a conference held in a fairly free

wheeling manner without insistence on careful diplomatic work beforehand.

Despite the disagreement over the amount of advance preparation needed, informed officials say that a summit conference is indeed a possibility as things now stand.

Diplomats have reported that British Prime Minister Harold Macmillan is particularly interested in such a meeting. Macmillan faces the prospect of parliamentary elections within a year. Washington authorities say British political pressures were responsible for bringing about the summit conference at Geneva in 1955.

Meanwhile it was reported that a task force of U. S., British, French and German diplomats had completed the draft of a note to the Soviet Union suggesting a foreign ministers meeting on German problems in the spring, probably beginning late April or early May.

The note now must be checked with the NATO allies through the North Atlantic Council at Paris. It may be ready for delivery in Moscow next weekend or shortly thereafter.
