

School Named For Wilson

LEVITTOWN, Pa. (AP)—The school board for this commuters' community decided Thursday night that Woodrow Wilson would be a better name for its new high school than J. Robert Oppenheimer.

When the Bristol Township board decided last year to name the high school after the famed scientist, often called the "father of the atom bomb," the American Legion and the Veterans of Foreign Wars raised a hue and cry.

In 1954, the Atomic Energy Commission denied Dr. Oppenheimer security clearance, although affirming his loyalty to this country. The commission, during lengthy hearings, had asked him questions about alleged Communist associations in his younger days.

At a meeting attended by 400 people Thursday night, the board voted 4-2 to rename the school after the World War I president.

Dr. Oppenheimer, now director of the Institute for Advanced Studies at Princeton, N.J., declined comment on the decision.

When he first learned the school was to be named for him, he had said it was "a nice kind of honor."

Reds Seize Japan Ships

TOKYO (AP)—The Soviets reportedly seized two Japanese fishing boats and 32 crewmen Thursday between Japan's northernmost island, Hokkaido, and the Soviet-held Kurile Islands.

The Japanese coast guard said Soviet patrol boats arrested the Senso Maru and Koryo Maru about 13 miles off Shikotan Island, largest of the Kuriles.

The Soviet Union has now seized five Japanese vessels and 33 fishermen this year. Last year the Soviets captured 547 Japanese and 79 boats.

Moscow radio in a Japanese language broadcast warned that any fishing boat within 12 miles of a Soviet coastline would be captured.
