

EASTER EGG TREE and Mrs. Bluebird are novel decorations suggested by manufacturers of Easter egg decorating kits. The tree takes nearly two dozen eggs, blown and dyed, so why not have a scrambled egg luncheon and help in concocting the tree?

FROSTED WHITE TOUCH

Many of the spring fashions are spotlighted this year with a touch of frosted white at the neck. And what could be more flattering? White near the throat both illuminates and softens the face, and it brings a youthful glow to the complexion.

Crisp white collars, simulated blouses and dummies will add brightness to the new cropped jackets and slim sheaths right up until real summer fashions take over.

There are crisply pleated bibs, choir boy collars, and dummies with wide, scooped necklines. And they have all been designed with an eye to easy upkeep.

touches can be easily detached for washing. If they're snapped in rather than sewed on, they can be easily popped off for laundering.

White is unsightly when it is not clean and sparkling. But with a little foresight, your spring wardrobe can be a charming, immaculate frame for your face—as flattering as a facial!

RAW FOODS

Celery and apples are two examples of raw foods with great versatility. Celery may be eaten raw or cooked and in combination with other vegetables or in tossed or molded salads. The same is true of apples which have the added advantage of being a dessert feature as well.

Easter Decorations

Bustily concerned with house hunting, Mrs. Bluebird views the pretty topiary tree with mixed emotions. Gay and intriguing, the tree is made of brightly colored Easter Eggs and ribbon. Hardly suitable for nesting but then Mrs. Bluebird is made from an Easter Egg, too! The arrangement will make a festive decoration for you at Eastertime and, what's more, it's easy to do.

You will need:
About 24 eggs—blown and dyed
3 inches plastic foam ball
Pipe cleaners
Dye cement
Sequins
12 yds. green ribbon

WINDOW WASHING

Here's an easy way to wash the outside of ground floor windows this spring. Use a long-handled cotton string mop saturated with warm soap or detergent suds. Then rinse the windows with a garden hose. Pick a sunny day for the job, and they will dry sparkling clean.

CONVENIENCE

If you're traveling with baby, hang a cotton shoe bag on the back of the car's front seat. The bag will make an excellent storage place for food, clothing and toys on the trip.

Modeling clay
Just the egg shells are used — and these may be accumulated for several weeks before Easter. The raw egg is removed by piercing a small hole with a skewer or other sharp-pointed object in each end of the egg and blowing with the lips through one hole until the contents come out the other. Dye the shells in assorted colors with Easter Egg Dyes being sure to drain them well. Reserve one pretty blue egg for the bird.

BAKED APPLES
The gorgeous Snoboy apples on the market now are wonderful for eating out of hand or for cooking. To bake apples, wash and core apples and arrange in a baking dish. Fill the cavity with honey and top with 1/4 teaspoon butter. Add a little water to bottom of baking dish and bake at 350 degrees until apples are tender.

to drain them well. Reserve one pretty blue egg for the bird. The rest of the eggs are for the tree. Bend a pipe cleaner in half, cover the folded end with Ducto cement and insert in the hole in one end of the egg leaving about 1/4 inch remaining outside to attach the egg to the foam ball. Glue a sequin over the hole at the other end and put aside until thoroughly dry.

Then using tweezers, push the pipe cleaner stems on each egg into the ball spacing the eggs about 1 1/2 inches apart. Do not push the egg — it may break. Fill in the spaces between the eggs with green ribbon bows tied with pipe cleaners, again leaving about 1/4 inch for attaching each bow to the ball.

been filled with modeling clay. Tie a ribbon around the outside of the flower pot and add a touch of green Easter grass to cover the clay.

Use blue gummed crepe paper, shelf paper or light weight construction paper for Mrs. Bluebird's head, wings and tail — all cut double. Attach to the blue egg with Ducto cement. The legs are made from a pipe cleaner also cemented to the egg and then twisted around a twig or small branch and anchored into a small base of modeling clay or styrofoam. Add a touch of artificial flowers and ribbon. Egg decorating kits on sale at or finish in any way you wish. All the material needed to dye, live and ten cent stores.

TOOTH STAINS
