

Business Good; Profits Lousy

SEATTLE (AP) — Robert R. Williams' service station here did a brisk business Thursday night but his earnings were mighty low.

He was selling gasoline at a penny a gallon in his campaign against gas wars.

And with every five gallons purchased, Williams threw in a free quart of oil.

Cars were lined up for blocks and before he raised the price back to normal, about 28.9 a gallon for regular, his three-man crew had dispensed 900 gallons in an hour and a half.

U.S. Tallest Wading Birds Schedule Migratory Flight

AUSTWELL, Tex. (AP)—Down in the marshes of Blackjack Peninsula on the Gulf of Mexico one of America's tallest wading birds paused in its feeding from time to time, raised its head and trumpeted a whooping, haunting call that could be heard for miles.

Further down the peninsula a pair of whooping cranes engaged in a stately dance, circling, bowing and leaping from side to side.

Happy Days — LA Firemen To Burn Down Schoolhouse

LOS ANGELES (AP) — Fire! The school's on fire!

A cry to rip at a town's heart, to bring hysteria and heartbreak. Next month an old school building—a regular fire trap—will go up in flames while firemen stand by and watch. They'll put the torch to it themselves.

What happens then could save your child's life.

This will be one school fire that was planned ahead of time.

Flames will roar up drafty open stairways, through transoms. They'll lick through wooden floors in a three-story school considered a potential death trap—a school a lot like those still filling with youngsters five days a week in some places.

Fire experts from over the nation will be watching the unusual experiment. It was born after Chicago's tragic school fire last Dec. 2 killed 91 persons, mostly children.

The Los Angeles Fire Department wants to see just what happens when flames sweep through an old building. The firemen also want to try various ways of stopping the fire.

For that purpose, they're installing automatic sprinkler systems in some sections, also thicker transoms and doors in some classrooms.

Inspections this year, touched off by the Chicago fire, showed many fire hazards in Los Angeles private and public schools. Some were easily corrected; some have caused buildings to be condemned. The test building, Robert Louis Stevenson Junior High School, was abandoned because of foundation flaws. It is more than 30 years old.

"Operation school fire" starts April 11. At least 14 separate fires, sealed off from one another, are planned.

Fire officials feel it will take much of the guess work out of school safety precautions.

They think, too, it will help them save lives when somebody shouts: "The school's on fire!"

Hospital District Again Discussed

HAPPY CAMP — The proposed Klamath River Hospital District was one of the subjects brought before the Siskiyou County Supervisors at the last week's meeting. Mr. and Mrs. L. G. Hill and Dr. Richard Graun appeared before the supervisors with Assistant District Attorney Hennessy.

A motion that the final hearing for the hospital district be set for April 7 and that it be properly advertised for three weeks before the hearing, made by Supervisor Clinton Jackson, was passed by the board.
