Police Seek Abortionist In Death Of Young Bride

LOS ANGELES (UPI)—A pretty 16-year-old Beverly Hills bride who apparently mistakenly thought she was pregnant, died from an anesthetic believed administered by an abortionist, police reported today.

A 36-year-old Hollywood salesman, Edgar Schrater, was sought by police in connection with the death of Mrs. Brenda Emerson, whose body was found sprawled on the lawn of a hospital in nearby Burbank Saturday night.

Police said Schrater and convicted abortionist Mrs. Ruth Davidson, 42, had been operating a "floating" illegal surgery ring together. Mrs. Davidson was arrested Monday and booked on suspicion of murder.

She admitted making arrangements with Schrater for an illegal operation for Mrs. Emerson, police said. However, she denied being present when the anesthetic was administered.

County Coroner Theodore J. Curphey said the teen-age bride of nine months died from a too rapid injection of sodium pentothal, a local anesthetic said to be dangerous in the hands of someone unfamiliar with its use.

The coroner said Mrs. Emerson—who eloped over the objections of her wealthy parents, Mr. and Mrs. William Blonder—apparently thought she was pregnant and went to an abortionist.

But, Curphey, said, a thorough examination of her body showed she was not going to have a child.

Police revealed that the young victim's parents and husband, Steve, 20, played a painful role the first two days of the investigation by pretending they had refused to talk with officers in an effort to lure the abortionists into thinking police were making little headway.

Japan Flags Return Slated

PORTLAND (AP)—Several so-called sun flags, taken from Japanese soldiers in South Pacific fighting during World War II, will be returned to Japan next month.

The flags, captured by members of the 41st Infantry Division, were turned over Monday to Noboru Imajo, consul of Japan at Portland.

The flags bear the name and address of the original owner and messages from friends and relatives.

Imajo, who is leaving for Japan later this month, accepted the flags, saying: "The return of the sun flags will reunite the hearts of the deceased soldiers and their loved ones. I can assure you the families of the deceased soldiers will be most grateful."

The 41st Infantry Division Assn. has adopted as a project the return of the captured flags.

The deepest oil well drilled in 1900 was about 3,000 feet. In 1950 the deepest well went down more than 20,000 feet.

**SEXLESS TROUT**  
 TOKYO (UPI)—Prof. Tokyo Yamamoto of Nagoya University has developed a breed of "sexless" rainbow trout through the use of hormones, it was announced today.

Instead of expending energy pursuing the opposite sex, the sexless trout just grows indolent and fat and thus of greater commercial value, it was said.
