Young Aim At Self Improvement

ST. PAUL, Minn. (UPI)—Young men and women are more interested in activities which lead directly to self-improvement than to standard group activities such as dancing.

That was the result of a survey of 271 young Minnesotans by University of Minnesota sociologists Marvin Taves and Robert Pinches. Those surveyed were 18 to 30 years of age and were broken down according to marital status, age and residence.

The survey showed each subgroup giving the highest rating to "having a wholesome religious life" and "how to make money" when asked to rate 43 different discussion topics or activities.

Other activities rated highly were: selection of clothing, citizenship, home repair, personal grace and grooming, home entertaining, wise use of credit, and first aid. Among activities rated the lowest were: group planning, square dancing, plays and skits and needlework.

PORK FOR THE NERVES

CHICAGO (UPI)—Nervous people may need more pork in their diets, according to Carl F. Neumann, secretary-general manager of the National Live Stock and Meat Board. Neumann explained that pork is the major food source of thiamin, a B vitamin required by the nervous system.
