SHOCKS THAT CURE WHEN DOCTORS CAN'T

The above was the title of an article which appeared a few weeks ago in the "American Weekly," a newspaper magazine. The

article cites remarkable after-effects of lucky and sometimes tragic jolts that mysteriously restore to health the victims of seasickness, paralysis, amnesia, hicoughs, lost speech, and blindness, after medicine and surgery have failed. To the chiropractor these seemingly remarkable cures were merely due to the accidental adjustment of a vertebra in the spine which through some former injury had become subluxated (misaligned), interfering with the normal transmission of nervous energy to the affected part.

If these cases had come to the chiropractor first, he would have determined by means of X-Ray the exact position of the subluxated vertebra and from his finding adjusted it to normal position instead of leaving fate to adjust the vertebra accidentally, etc.

This is one of a series of Chiropractic educational advertisements appearing in this paper through the courtesy of Dr. C. W. Davis, D.C., N.D., 134 N. 3rd St., Klamath Falls, Oregon. TU 4-6033.

Shoes Cause Foot Trouble

DENVER — (UPI) — Modern shoe styles can lead to foot troubles, especially for teen-age girls, says an orthopedic surgeon.

To keep flats on their feet, teen-age girls wear shoes too short, Dr. Irvin Hendryson said.

The result — bunions that in some cases need surgery, he added.

The father of five children, Dr. Hendryson said he has as many misgivings about cowboy boots for boys. But he found a solution.

"When the kids watched TV and then demanded cowboy boots, I bought them, all right — and I made them wear them till their feet hurt so much that they were glad to get rid of them. I bought them a little bit short, by the way."

If a child's feet are a little flat, but he suffers no pain, let him alone, said the surgeon.

Parents worry more about flat feet than do doctors who saw 50,000 pairs of feet in their Army days and realize that most feet are flat by old standards, Dr. Hendryson said.

WARNS OF GOVT. CONTROL
HOLLYWOOD (UPI) — Producer Charles Schnee says any State Department attempt to influence movie exhibitors to show films imported from Russia under the U.S.-USSR exchange program is government control of the industry. "If once such a policy of so-called voluntary cooperation is initiated by our government, the gates will be wide open for others," he said. "Exhibitors should always be free to show whatever pictures they wish to show."
