India Warned By Commies

NEW DELHI (UPI)—Communist China admitted today the Tibetan revolution is still smoldering and warned foreign nations—chiefly India—against interfering in China's "internal affairs." The warning broadcast by Peiping Radio coincided with reports the Dalai Lama was nearing the Indian border and that he might seek asylum in India once India's position is clarified. The Chinese Communists were reported seeking to cut off the Dalai Lama in his flight to the border and unconfirmed reports

Buyers In Mexico Lottery Purchase Hope, Paper Says

MEXICO CITY (AP)—"When a woman feels blue, she buys a new hat. When a man feels low, down here he buys a lottery ticket." And, says a news editor of a leading newspaper, "you have no idea what a boost it gives you." "You immediately begin to dream of what you can do with that big prize you convince yourself you're going to win," he continued. "A poor man who doesn't know where his next meal is coming

from often buys a two-peso ticket just to get a lift. He's buying hope." The odds, naturally, are heavily against winning that first prize, but it often goes to a poor man—read about it all the time." The national lottery in Mexico is operated by the government. Profits go to such welfare institutions such as the Children's Hospital, the Tuberculosis Hospital, orphanages, the National School

for the Blind, maternity homes, and charity dining rooms. The lottery started in 1771. There are three drawings a week, with prizes ranging from 250,000 to one million pesos. On national holidays the first prize runs up to 15 million pesos (\$1,200,000). Mexico forbids such gambling as roulette, dice and blackjack. But the lottery is a vital part

of Mexican life. Tickets are sold on almost every street corner and in special booths. After each Monday, Wednesday and Friday night drawing, the winning numbers are telegraphed to every corner of the country. Payments are immediate and in cash, with small deductions for taxes. Well over half of the money taken in goes to prizes, about 15

to 20 per cent to welfare groups and the rest to over head and commissions to vendors. Experts say that only one of every 50 to 80 tickets win a prize exceeding the value of the ticket. A small percentage more than

double the investment. There's one chance in five of getting your money back.
