WILLIAMS
FARM COMMODITIES, Inc.

**You Get MORE PROFIT
PER ACRE with Phillips 66**

**ANHYDROUS
AMMONIA
FERTILIZER**

**82%
NITROGEN**

Higher Quality! Lower Cost!

Experts Agree . . .

This is the MOST economical form of nitrogen fertilizer the farmer can buy. Price includes delivery, and equipment furnished for injection application. You'll get MORE "grow-power" from Phillips 66 Agricultural Ammonia, the 82% nitrogen fertilizer. This 82% nitrogen will BOOST crop yields for MORE PROFIT per acre and LOWER production costs. And, remember, the 82% nitrogen gives you MORE nitrogen-per-pound than any other type of nitrogen fertilizer available.
