

Reds Offered A-Ban Plan

KANSAS CITY, Mo. (AP)—John A. McCone, chairman of the Atomic Energy Commission, says the United States has offered the Soviet Union a final plan for stopping atomic weapon tests.

"We said we will agree with the Soviets to stop tests in the atmosphere," McCone said Thursday night in a speech at Rockhurst College. "A simple detection system will be installed. This will stop adding radioactive debris to the atmosphere. Gradually, fallout will be reduced. The only tests will be made underground, fully contained and no effects will reach the surface."

McCone said the offer was made Monday by U.S. Ambassador Jeremiah Wadsworth at Geneva.

The AEC chairman said the United States also would propose to stop underground and high-altitude atomic tests when a system for detecting them is perfected.

COLOR FILM composition display won for Beverly Morstad, a Fairview School student, a chance to compete in the Northwest Science Exposition April 19 through 25 in Portland. Her display won first place in the physical science category of the regional Science Fair junior division featuring work by students in the seventh through the ninth grades.

Warden Took Challenge To Head State Penitentiary

DEER LODGE, Mont. (AP)—If red-haired Floyd Powell didn't like a challenge, he wouldn't have accepted an offer to head Montana's 90-year-old state penitentiary last August.

But Powell did, despite the warning of another candidate for the job: "Now that I've been here and seen the prison and the situation, I wouldn't take this job for \$100,000."

The 46-year-old Powell, a 200-pounder, proved Thursday he can meet a critical situation with calm and firmness. For nearly three hours rioting prisoners of the penitentiary here held him hostage at gunpoint after killing a deputy warden.

After telling the convicts their riot would fail, Powell walked to freedom with an inmate who stood up for the warden when he was threatened with death.

His penal career started in 1940 as a guard at the Wisconsin State Prison at Waupun. Eight years later he was appointed assistant to the deputy warden and later became administrative aide to the warden, resigning last summer.

As a youth Powell worked on a farm at La Valle, Wis., and later was a logger in lumber camps and was a general construction laborer. He worked 4½ years with the Civilian Conservation Corps before joining the Wisconsin prison staff.

Senate Okays Missile Plan

ROME (AP)—The Senate Thursday night endorsed the government's plan to install NATO missile bases in Italy, within striking range of the Soviet Union.

After two days of hot debate, the Senate voted 138-87 to defeat a Communist-Socialist protest against the government's decision to set up the bases. The required majority vote for the protest was 111.

The Senate approved a government motion saying acceptance of the missile bases is "a normal part of the nation's obligations under the Atlantic Pact and a legitimate action in defense of democratic liberty."

Nasser Says Arab Reds Plotted Breakup Of UAR

CAIRO (AP)—President Nasser says that Arab Communists plotted in Moscow to break up the United Arab Republic and make Baghdad the command post of a Red counter-revolution against Arab nationalism.

The President of the U.A.R. coupled his attack on Moscow with some sharp words directed at Britain and the United States and declared, "We Arab nationalists have no more allies."

Nasser was speaking in an interview with the editor of the Indian weekly news magazine Blitz. He held open the door for reviving his former friendship with the Soviets but said he was "not ready to sell our country for 700 million rubles of Soviet aid."

The Soviets have promised the U.A.R. 400 million rubles (100 million dollars) in economic and technical assistance on the construction of the Aswan high dam and are expected to help with later phases of the vast project. The Soviet bloc also has sold Nasser large quantities of arms in exchange for Egyptian cotton.

Nasser said Arab Communists worked out plans at the 21st congress of the Soviet Communist party in Moscow early this year to establish an "Arab Soviet" in the Middle East.

"Having secured an iron grip on Iraq," he said, "they set out to organize an all-Arab Communist underground for purposes of subversion and sabotage against neighboring Arab countries."

"Here was planned the master plot of the pan-Arab Communist underground to work for the breakup of the U.A.R. and the creation of the Red Fertile Crescent, with Baghdad as a command post of the Communist counter-revolution against Arab nationalism."

"Our minimum demand of Moscow, as indeed of Washington or London," Nasser said, "is that they understand Arab nationalism, appreciate its dignity and in- (than) subvert our stand on positive dependence, and support rather neutrality."
