Deportation Order Issued For Former Communist

SAN FRANCISCO (UPI)—The Immigration and Naturalization Service has issued a deportation order for William Heikkila, 53, old former Communist who was forcibly deported in 1958.

He was returned to this country as the result of public indignation over the way he was seized on a downtown street here and flown to Finland without even being permitted to inform his wife.

The late U.S. District Judge Edward P. Murphy said the deportation "smacked of the Gestapo, the rack and the thumbscrew" and ordered Heikkila's return on parole, pending a hearing.

The new deportation order was signed Monday by Monroe Kroll, a special hearing officer who conducted a series of hearings on the case.

Among other things, the order held that the one-armed Finnish-born draftsman left the U.S. under an alias in 1930 to attend the International Lenin School in the Soviet Union.

Heikkila denied the charge in the face of testimony by an ex-Communist who said they attended classes together in Russia.

Lloyd McMurray, Heikkila's attorney, said he would appeal Monday's deportation order "all the way" if necessary, so it was doubtful that Heikkila could be deported for at least two or three years.

Heikkila came to the country in 1929-30, but claimed he was only as an infant and has an American "depression Communist." His case has been pending since 1940 and was in the courts when the Communist party in Minnesota during he was forcibly deported in 1958.

Star Slated For Surgery

NEW YORK (UPI)—Arthur Godfrey will leave his CBS radio and television programs at the end of this week for an indefinite period to submit to further examination and treatment of a suspected chest tumor, it was announced Monday.

He told his television audience: "This old Irish ruin has got some ivy growing in the chest. Next weekend I'm going to a hospital and maybe get it trimmed out."

He said doctors had not yet determined whether the growth was malignant or benign. A spokesman said his physicians have not determined whether surgery will be necessary.

Godfrey flew his private plane to his Virginia home Monday night and will continue his broadcasts from there for the rest of the week. He will also film there his television show for next Tuesday, his last for an unpredictable time, the network said.

Godfrey, 55, said the growth had been discovered in X-rays after he complained of pains in his chest.

Winter Blasts Rip Rockies

By THE ASSOCIATED PRESS

Chilly air spread across broad areas in the eastern half of the country today as wintry weather continued in parts of the Rockies. Stormy weather erupted in southern and central sections during the night as cold air moving southward from Canada clashed with warm breezes.

Texas reported a variety of weather, mostly stormy, Monday night. Hail and heavy rain pelted central and southern areas. Snow fell in the upper Panhandle. Heavy fog kept 12 cargo ships off Galveston Bay. A tornado was sighted between Del Rio and Eagle Pass but was not believed to have touched ground.

More light snow fell along the eastern slopes of the Rockies in Wyoming, Colorado and New Mexico and in parts of the high plains region.

Grace and Rainier arrived here Saturday from Switzerland with their first born, Princess Caroline, who is two years and three months old. Little Prince Albert, born March 14, 1958, had stayed behind in Monaco.
