How the dollars we spend for telephone supplies benefit you

Pacific Telephone's purchases build sales for Oregon businesses

As we work to provide phone service for a growing Oregon, we buy an ever increasing volume of materials.

This year, for instance, we and our supply unit Western Electric, will purchase supplies and services of all kinds from hundreds of Oregon businesses — large and small. We'll spend an average of \$53,000 with them every work-

ing day. This money brings new income to merchants and manufacturers. Then it spreads out to the people they employ or trade with. From there, it circulates until it benefits nearly everybody in the State.

In this way, telephone purchases help build Oregon's prosperity. And that means a brighter future for you.
