

Low-Cost POWER with a Heavyweight Punch... That's the "440-C"

LOGGING LOGIC!!

FAST, EASY LOG LOADING

MODERN WOODSMEN CHOOSE THE "440-C" CRAWLER TRACTOR

Low initial cost, low operating and maintenance costs, dependability where service is not always quickly available, and highly pleasing daily work output are some of the reasons why John Deere Crawlers and equipment rank No. 1 in their power classification in the woods.

A TRULY GREAT TRACTOR
For Logging Jobs of all kinds

HANCOCK CARRYALL FOR HIRE OR FOR SALE

Completely self-loading. Moves up to 200 yds. per hour. Has controlled dump and spreader. Does the work of several pieces of equipment. Loads in any type of soil. Can be used for digging canals, drainage ditches, slush pits, trench silos, stock ponds, dams, for building roads, air strips, athletic fields, golf courses, and for working around parks and strip mines. TAKE YOUR PICK!

Here it is . . . trim and eager and out for timber—the tractor that's bound to win your nod of approval—the new John Deere "440-C" Crawler!

It is rugged in its modern construction . . . powerful in its let's-get-to-work styling . . . and it literally shouts economy at the moment of purchase and all the while that it is paying you back many times that amount in extra-low production costs. "Born" for logging, the "440-C" is built around the amazingly efficient John Deere engine—already famous for delivering so much, for so long, for so little cost. Its many construction features from top to bottom, from grille to drawbar—plus the optional new clutch-type direction reverser—give the "440-C" a rare combination of maneuverability, lugging power, and stamina that enable it to do more than its share of the day's rough work. Let us show and demonstrate the "440-C" to your own satisfaction at your earliest convenience.
