

Federal Power Funds Asked For Trinity River Project

WASHINGTON (UPI) — Sen. Claire Engle (D-Calif.) asked Congress Wednesday to appropriate \$2,500,000 for federal construction of the power facilities at California's Trinity River Project.

He told the House public works appropriations subcommittee that if the money is not made available Trinity energy will be "wasted."

Victory Seen By Unionist

NEW YORK (AP) — John F. Murray, Pittsburgh Steelworkers Union official, said today the union "is eventually going to win its demands even if we have to strike to do it."

Murray, director of the union's District 16, and a cousin of the union's late President Philip Murray, said the public and industry are underestimating the union's solidarity and determination to gain a sizeable wage boost and other concessions.

Murray's comments were made off - the - cuff to reporters as she headed a union bargaining team back into talks with Jones & Laughlin Steel Corp.

The J & L talks had broken up Wednesday on their opening day over a union demand that J & L put all its plants and subsidiaries under common contract terms.

Murray said there are too many varying J & L contracts now. J & L Industrial Relations Vice President George Flacus said the company seeks to continue separate contracts to fit local situations.

The J & L talks resumed this morning with this problem "unsolved and put aside for further discussion later."

Murray emphasized that the union is determined to win its demands even if it takes a strike to do it.

Both the industry and union have been trying to play down the possibility of a strike in talking with reporters during the preliminary steel bargaining.

As the negotiations entered their third day, they grew more tense — primarily because of Wednesday's disclosure the industry is already mapping strategy to deal with a possible July 1 industry walkout.
