

ARCHITECTS' MODEL of a new doctors' building at Sacramento on which bids will be invited about the end of June was made by Morrison & Howard, 203-05 Williams Building, Klamath Falls, architects for the project. Owners of the building are Arthur Herring, formerly of Lakeview, now living at Walnut Creek; Arthur Triebwasser, formerly of Klamath Falls, now an accountant at Sacramento (Mrs. Triebwasser is the former Jean Wisendanger of Klamath Falls), and Bill Toms of Sacramento. The building will provide space for 22 doctors and a 2,500 square foot X-ray laboratory. The building will cover 23,000 square feet of ground area and parking on two levels will accommodate 85 automobiles.

After 37 Years On Job, Bill Canton Quits Post

By TOM STIMMEL
Bill Canton retired yesterday from some 37 years of engineering work, the last eight as Klamath County engineer.

Bill had asked to retire as of last Friday, and the county court gave its permission, but the courthouse veteran lingered on "to get a few more things done."

These things included a trip to Lakeview Monday to talk with the boys there and get a last official look at the promising Winnemucca-to-the-Sea highway project, and a reconnaissance Tuesday to find a better route for a proposed road up the west side of Upper Klamath Lake.

As Bill's last official act, he proposed a route for the West Side road that he thinks could save county taxpayers \$100,000, "roughly speaking."

Bill just completed that presentation when County Commissioner Ed Gowen pulled an envelope out of his desk and made a little speech. The envelope, Gowen said, included results of a "little token of appreciation" from courthous personnel and road department workers.

Bill's two office girls, Olive Kimmark and Mary Kidwell, looked on in the informal but sincere ceremony.

"Now, what did you do that for?" Bill blurted out in a surprised but still voluble voice. "I sure didn't expect this at all."

"The girls instituted the thing," Gowen said.

Bill took the envelope, still unopened, and said a few things about having the "finest personnel any fellow could hope to have" and having been given "loyalty and support all these years."

The old man's voice wavered more than a little before he had finished his paragraph of remarks, and he started out the door.

Then, typically, he turned and asked Gowen and Commissioner Frank Ganong about a paper he had just presented. "You fellows will take care of that, won't you?" and he was assured his business would be completed.

Then, a little flustered still, Bill Canton walked out of the room and out of the courthouse where he has been known so well for so long.

Explosion Rips Tanker Truck

CLINTON, Tenn. (AP)—A dynamic explosion Tuesday night blew up a fuel tanker truck parked near a non-union coal mine. The same truck was struck twice by a hidden rifleman's bullets a few hours earlier.

There were no injuries either time. The incidents were among a series of harassing violence since the United Mine Workers Union began trying to organize non-union mines in the area.

The UMW says, however, that it has had nothing to do with violence.

George Price Shaw, U.S. Ambassador to Nicaragua, was born in Pittsburgh, Kan.

MEMORIAL DAY DECORATIONS were being told Thursday afternoon by Chilquin Horizon Girls in the Klamath Education Office, from 4 to 6 p.m. If flowers remain from the sale, they plan a booth Saturday morning, May 23. Proceeds from the sale of the crepe paper flowers and wreaths will go to the Camp Fire Girls Golden Jubilee expenses.
