

**SALAD IDEAS** are always welcome. These attractive creations are from the Wish-Bone Salad Dressing test kitchens. Wish-Bone has a dressing for every taste and for every combination. You don't have to be orthodox in your choice of dressing. If blue cheese dressing is your favorite, remember it "goes with" anything you want to serve it with. The same thing applies to Wish-Bone French, Italian and Russian dressings.

**White Lipstick To Be Used Wisely**

There is scarcely a female alive who can afford to wear white lipstick—just plain white. Only the youngest and most beautiful can even begin to overcome its stark, ghostly effect. And white lipstick applied over a darker tone creates a look almost as weird and chalky.

Helena Rubinstein, the first lady of the beauty world, does not wish to encourage this "ghostly" trend. That is why her new White Pearl lipstick was designed with something else in mind.

White Pearl is a multi-purpose beauty aid for those who want to look lovely. It provides an excellent base under other lipstick shades to produce a light, modern, pastel look. It contains moisturizing ingredients to condition lips, prevent them from cracking and peeling. White Pearl's soothing quality makes it perfect while sun bathing or at bedtime to lubricate dehydrated sun-and-wind-parched lips.

Furthermore, White Pearl brings white magic to your eyes. Use it under eye shadow to condition your lids while creating a soft, luminous glow, as well as to protect tender eye lids from the sun's rays. Or take a cue from theatrical make-up and use White Pearl to make your eyes appear larger. Simply pencil eye lines on upper lids about an eighth of an inch above the lashes. Fill in the space between lashes and pencil lines with White Pearl. It will brighten the whites of your eyes and create an illusion of size.

With hot weather just around the corner, and faces turning toward the sun, it is time to switch to lighter, more delicate lipstick shades to complement airy apparel and help beat the heat. Starting with White Pearl as base coat, here are a couple of lipstick tips for summer:

If you are a Susie-sit-in-the-shade who scorches sunshine and prefers a pale Parisienne look, there is delicious Doll Pink, a light pink for light skin—soft, young and cool.

beach-goer, active in summer sports and aiming at a tawny Riviera look, there is creamy Sunny Coral, a summery color just made for a tan. Both Doll Pink and Sunny Coral, applied over White Pearl, give dewy beauty transparency to your complexion. No need to look ghostly or ghostly, put White Pearl to use wisely.

**PEANUT BUTTER**

Peanut butter is a champion with youngsters from high chair to high school. It's an important part of the diet of healthy children from the time they are a year old.

The smooth, rich-tasting food is high in nutritive values, in essential vitamins and body building proteins. It's rated among the best food sources of the B-complex vitamins. It's inexpensive and kids love it.

For the small fry, peanut butter on whole wheat bread, with milk and fresh fruit, such as an orange or banana, is a nearly perfect lunch.

**COOL CRISP SALADS**

Serve a cool, cool salad and tempt those appetites weary of winter with a bowl full of Spring. Some of the earliest signs that Summer is really near are the Spring fruits and vegetables and they're so delicious served in a tempting salad.

For instance, chill your favorite Spring salad greens and tomatoes until salad time; then toss with light and lively Wish-Bone Italian. It's delicious and one of the simplest salads to fix.

Or discover this magnificent Caesar Salad. Mix two quarts chilled greens, six cut anchovies, one tablespoon Parmesan Cheese. Add 1/4 cup Wish-Bone Italian, two tablespoons Wish-Bone Cheese and 1/2 cup croutons, browned in two tablespoons Wish - Bone Italian.

Break egg, warmed one minute in boiling water, over salad. Toss until egg disappears. Serves four. For a Chef's Salad that will pick-up appetites fast, line salad bowls with crisp, perky salad greens. Arrange cold ham or chicken, cheese slices, tomato slices, pepper rings, hard-cook d eggs, stuffed olives. Just before serving, add hearty robust Wish-Bone Russian. Children adore its slightly sweet flavor! So will you!

Another Spring favorite is a simple peach and cottage cheese salad that becomes a triumph of French cuisine with wonderful Wish-Bone French Dressing. It's real French, the Continental kind, with the exciting herbs and spices that make French cuisine famous. And for meats and fish, just use

**JUNE BRIDES**

There will be about 180,000 more young and pretty cooks in the kitchen this June according to government figures. And won't the gals have fun serving up dishes "like mother used to make" with maybe a few new tricks of their own? Sometimes, though, new homemakers and even the more experienced ones need to review some of the basic kitchen "know-how." With every meal, here is a good rule to start:

A general rule to follow in buying meats is to allow about 1/4 pound of boneless cuts or ground

meat per serving and 1-3 to 1/2 shanks, hocks, etc.), allow 1/4 to one pound per serving. Plan on two or three servings for hearty appetites.
