Girl Crowned Orchid Of Ball

A Klamath Falls girl, Susan O'Hair, was named Orchid of Sigma Phi at the annual Orchid Ball in Wagner's Garden Room, Corvallis, May 23.

Susan, 20, a sophomore at Oregon State College where she is a member of Chi Omega and house manager, majoring in foods and nutrition in the School of Home Economics, is the daughter of Keith O'Hair.

She was crowned by the 1958 Orchid of Sigma Phi, Sharon Rose. Susan was selected from a court of five contestants, including Barbara Books, Carolyn Brown, Judy Wilson and Ann Minkler.

Susan plans to be employed during the summer vacation at Girl Scout Camp Wind Mountain near Stevenson, Washington, Portland Division as a Girl Scout counselor.

Michael O'Hair, brother, is a freshman at OSC. He will spend the summer in Klamath Falls.

State Submits Fraud Charge

A Klamath Falls man was arrested in Springfield Wednesday on a charge of obtaining a \$40 unemployment compensation check during a week when he was working.

The charge against Darwin C. Green, 24, 911 North Ninth Street, was filed by D. L. Baker, an investigator for the State Unemployment Compensation Commission in Salem.

Green specifically was charged with obtaining the check for the week ending May 31, 1958. The commission maintains that Green was working and made \$81 that week.

Green was jailed in Eugene but was released Friday on \$1,000 bond posted in district court here.

TRANSITE BUILDING SEWER PIPE

- Engineered to prevent root-clogging
- Designed for lasting Trouble-free Service

The clogging of pipe lines by tree roots is widely recognized as the number one problem in domestic sewage disposal. In the lines connecting house drains to street sewers or septic tanks, many thousands of such stoppages occur every year. As a result, lawns and driveways may be torn up and homeowners temporarily deprived of sanitary facilities.

TIGHTER JOINTS. Transite Building Sewer Pipe lines make effective use of rubber rings - a sealing method that proved itself in thousands of miles of municipal water and sewage line installations. The T-shaped rubber ring in the middle of the coupling eliminates jogs and pockets, providing for uninterrupted flow of sewage.

CORROSION-RESISTANT Transite is non-metallic, and cannot rust or rot.

PROTECTION AGAINST INFILTRATION with tighter joints and fewer of them.

PROTECTION FROM GROUND POLLUTION - and resulting health hazards.

EASY TO HANDLE One man can carry 10-foot length.

"A PLUMBER'S PIPE" Nothing complicated or time-consuming.

EASILY CONNECTED TO OTHER PIPES - with Transite adapters.

A FULL LINE OF FITTINGS For an all-Transite job from house to sewer or septic tank.

CHECK LIST OF ADVANTAGES:

Easy To Assemble With The New RING-TITE COUPLING
1. Lubricate by hand
2. Lock tight by hand
