

MARKETS and FINANCE

Stocks WALL STREET NEW YORK (AP) — The stock market closed lower today after a recovery drive reduced sharp early losses. Trading was active in final dealings. Volume for the day was estimated at 3,100,000 shares compared with 2,730,000 Monday. Pivotal issues were down from fractions to 2 points or more on a broad front. Bigger losses were taken by some electronics and the higher-priced issues. Wall Streeters saw the action as a continuation of profit taking and as a technical correction after the market touched a historic high Friday. Losses of more than 4 points were taken by Motorola, more than 3 by Zenith, 3 by DuPont and 4 by Allied Chemical. International Business Machines was down about 3. Losses of a point or more were taken by U.S. Steel, Jones & Laughlin, Chrysler, Goodrich, U.S. Rubber, General Dynamics, Anacosta, General Electric, Texasaco, Illinois Central and American Tobacco.

PATRICIA MARTIN, left, and Beth Marie Beckwith are valedictorian and salutatorian of the Yreka High School graduating class. They will speak at commencement Thursday.

'Fortune Beneath Hat' Theme For Yreka Rites

YREKA—Patricia Anne Martin, who has received only one grade below an A during her four years at Yreka High School, will present the valedictory address at commencement exercises for the 123 graduates Thursday at 8 p.m. in the new high school gymnasium. She will be eligible to compete for one of three scholarships to be honored at the University of Rochester in New York. The scholarships are worth a total of \$9,600. She also received a Bank of America Achievement Award worth \$100 in a mathematics and science category and a federal scholarship that will cover three weeks' expenses at a school this summer. The suggestion made by Supervisor W. A. Barr that the county use a building already constructed for the juvenile hall was discounted when it was pointed out that any savings accomplished by such action, would be used in hiring additional help, and that present plans are to include headquarters for the probation officer in the building. Sheriff A. B. Cottar appeared before the board to urge the passing of a boating ordinance. He told of improper handling of boats and drunkenness on Dwinell Lake, and pointed out that without an ordinance, the law was helpless to enforce proper boating practices. Harry A. Hammond and Charles E. Hurley had submitted applications for the office of public defender, which were tabled until the next meeting, because the resignation of H. A. Messner, present defender, had as yet not been received by the board. The board also, in other action, endorsed state bill 1407, which would make the state responsible for restoring county highways damaged by state equipment; gave authorization to the county surveyor, road commissioner, and district attorney to prepare recommendations for revisions to the county subdivision ordinance.

160-Acre Limit Harangue Poses Threat To Program

SACRAMENTO (UPI) — A controversy over the 160-acre limit and a public power preference clause posed a new threat today to Gov. Edmund G. Brown's water program. Behind a move to amend into the governor's water bill two provisions against "unjust enrichment" was a group of Assembly Democrats who have the backing of the AFL-CIO. Assemblyman Lloyd W. Lowrey (D-Rumsey) said that if and when the governor's water bill by Sen. Hugh M. Buras (D-Fresno) gets to the Assembly floor he will offer two amendments. One would provide that any surplus power generated by the Feather River Project would have to be made available first to public agencies — a proposal which always has been a sore spot with private power companies. The other amendment would substitute in place of the federal reclamation law's 160-acre limit on land holdings language to guarantee that only a "feasible economic farm unit" could benefit from FRP irrigation water. Both the 160-acre limit and public power preference amendments were offered in the Senate last week when the bill was up for action. The 160-acre limit was voted down 25-10 and the public power amendment was defeated 21-18. Both proposals were tested Tuesday in the Assembly Water Committee and again both were defeated.

Bid Letting For Hospital Given Okay

YREKA—Authorization for the letting of bids for a remodeling of the kitchen in the Siskiyou County General Hospital was given during Tuesday's session by the Siskiyou County Board of Supervisors. The project is not to be in excess of \$35,000. June 23 is the date set for the bid opening. Following a suggestion made by Robert Keeney, architect, the bids will be presented in such a way that all or any part of the work within the budget of \$35,000 may be accepted or rejected. The construction program has been prepared so that any preparation can be performed, without complete installation of new equipment, should the construction cost more than funds are available. Authorization was also given by the board to Jess Brewer, county probation officer, to consult with Keeney on a design or plan for the juvenile hall, after Brewer had told the supervisors that he required more specific plans before he could continue with the estimated costs. Brewer also suggested to the supervisors that in his experience construction with cement blocks was more economical, than the previous recommendation for a sheet metal building. The suggestion made by Supervisor W. A. Barr that the county use a building already constructed for the juvenile hall was discounted when it was pointed out that any savings accomplished by such action, would be used in hiring additional help, and that present plans are to include headquarters for the probation officer in the building. Sheriff A. B. Cottar appeared before the board to urge the passing of a boating ordinance. He told of improper handling of boats and drunkenness on Dwinell Lake, and pointed out that without an ordinance, the law was helpless to enforce proper boating practices. Harry A. Hammond and Charles E. Hurley had submitted applications for the office of public defender, which were tabled until the next meeting, because the resignation of H. A. Messner, present defender, had as yet not been received by the board. The board also, in other action, endorsed state bill 1407, which would make the state responsible for restoring county highways damaged by state equipment; gave authorization to the county surveyor, road commissioner, and district attorney to prepare recommendations for revisions to the county subdivision ordinance.

A MONUMENT on the grave of an early-day settler in Fort Rock Valley, Owen Berlin, is being studied by these three boys, from the left, Hower (Buck) McGee, Alan Parks and Walter McGee, when they helped their fathers clean the Fort Rock Cemetery recently. — Photo by Parks

Officers Of Burney Lions Installed At Civic Hall

BURNEY — New officers of the Burney Lions Club were installed Saturday night in ceremonies at Civic Hall. Installing officer was International Councilor Dave Jensen of the Redding club. Installed were Roy T. Premo, president; Donald Kerns, Donald Parker and Rex Vaughn, vice presidents; LeRoy Doan, secretary; Al Rider, treasurer; Walter Vaughn, talltwater; Col. James Long, greeter; Rawley Holcomb, lion tamer and Gerard Harris, Marion Adams and Jack Messinger, directors. Holdover directors are Orr T. Meeker and Everett Terry.

Toilers Mend Cemetery

FORT ROCK—Representing the Fort Rock Sunday School and Fort Rock Grange, workers rebuilt half the Fort Rock cemetery fence recently, removed remaining brush with a rototiller, marked graves and broadcast grass seed. Sprinklers from R. A. Long's adjacent field were extended to water the site. Trees were set out recently. Edwin Eskelin has been in charge of mapping the cemetery and with the assistance of present and former residents has identified all but one grave in the cemetery, used mostly during homestead days. Workers included Jerry and Owen Pitcher, Maurice Ward, Howard McGee, Bill Mattis, Jim Florian, Dick Brown, Bill White, Earl Lyman, Rube Long, Bud Parks and Eskelin. Workers noted the interest of many visitors to the rock, landmark which forms a backdrop for the cemetery. Mrs. Ward, Mrs. Long and Mrs. Parks served noon lunch to the workers.

Group Okays Power Probe Resolution

SACRAMENTO (UPI) — The Assembly Water Committee has approved a resolution asking the Department of Water Resources to investigate the possibility of state construction of two power projects planned by private utility on the McCloud and Pit rivers. The resolution, introduced by Assemblyman Lloyd W. Lowrey (D-Rumsey), touched off an argument between legislators who favored public power development and those who defended private enterprise. Both Pacific Gas and Electric Co. and the California-Oregon Power Co. have filed for licenses and water rights to construct projects on the rivers in Shasta and Siskiyou counties to generate up to 800,000 horsepower. Lowrey, joined by Assemblywoman Pauline Davis (D-Portland), suggested it might be better for the state to build the project and use the revenue to help finance the state water plan. Frederick T. Searls, PG&E attorney, said the 92 million dollar proposed project was solely for development of power and had no water conservation features.

School In Texas Graduates Lad

A Klamath Falls boy, Ronnie Leavitt, is one of 14 young men graduating from high school this week at Cal Farley's Boys Ranch near Amarillo, Texas. Leavitt has made his home at Boys Ranch for nearly three years. He lettered in football, wrestling and the Boys Ranch Rodeo, and was active in the Boys Ranch "B" Club whose members must have participated in three sports and lettered in two. He was also active in the chapel program at the ranch and assisted the chaplain in teaching young boys.

School Holds Ceremonies

ETNA—The closing day program of the Callahan Elementary School was presented on Friday evening under the direction of the teacher, Mrs. Mary Roff. Master of ceremonies for the affair was Sharon Woodley; prompter, Ann Burns; Kathryn Webster; and stage props, Hugh Webster and Jimmie Woodley. Words of welcome were spoken by Kathy Hayden; "Bobby Grumble" by Richard Hayden and Harvey Murphy; "Wise Bird" by Hugh Webster; "A Terrible Tragedy" by Anne Burns; "We Know Them Well," Sybil Murphy; "The World Is Filled With Sunshine," Elise Bouvier; "A Shadow," Lynette Hayden; "Our Schoolhouse Flag" by several children; "How Glad We Are," Creed Botts, Bonnie Hayden, Jimmie Woodley, and O'Leone Botts; "To Say Goodbye" by Sharon Woodley. Three square dances were performed by the school children and a tap dance by Lynette Hayden, Kathryn Webster and O'Leone Botts. Songs were sung by the school children. Following the closing speech given by Creed Botts, awards for perfect attendance and spelling were presented by the teacher. Receiving perfect attendance awards were Kathryn Webster, Lynette Hayden, Hugh Webster and Belinda Hobson. Spelling award recipients were Kathryn Webster, Sharon Woodley, Anne Burns, Sybil Murphy, Hugh Webster and Lynette Hayden. Refreshments of cake, coffee and punch were served to a large crowd after the program.

Rules Covering Land Fires Now In Effect, Says Ranger

YREKA — Fire Control Officer Ralph A. James announced last week that Regulation T-1, covering the use of fire on lands of the Klamath National Forest has gone into effect as of June 1. Fire danger began early this year with the first fire of this year occurring on March 20. Since that time, eight more man-caused fires and 15 lightning fires have occurred. This is the largest number of fires in both causes to have occurred prior to June 1 in more than 15 years. Scott Valley has had the least precipitation of any area within or adjacent to the Klamath National Forest. Only 1.34 inches of moisture have fallen at the Fort Jones station and 1.32 inches at Callahan. Other areas are also deficient in precipitation but not quite such a degree. The sections of Regulation T-1, paragraphs E, H, and L, which are now in effect are as follows: Paragraph E provides that a valid campfire permit must first be obtained before building a campfire on national forest land. Campfire permits are issued at any forest service station and by designated agents who display "Campfire Permits Issued Here" signs. There is no charge for this campfire permit. The permittee, however, agrees to comply with the requirements of the permit as to methods of building fires, of putting them out, or properly disposing of refuse, and observing the State Fish and Game Laws. The permittee further agrees to be responsible that all in his party know and abide by the campfire permit regulations. Paragraph H specifies conditions under which smoking will be allowed within the national forest. Smoking will be allowed at places of habitation, camp grounds and in cars when traveling. When hiking through the forest, smoking is prohibited unless the smoker stops and clears a circle three feet in diameter to mineral soil and extinguishes all ashes and embers in the cleared space. The same applies when walking on a forest road; the traveler must stop to have a smoke, though no clearing is necessary. Persons riding motorcycles or in the back of trucks or pickups, or riding horseback, may not smoke unless they stop and follow the same rules as the foot traveler. Paragraph L prohibits the throwing or placing of a cigarette, cigar, match, pipeheel, firecracker, or any ignited material in any place where it may start a fire; and the discharging of any kind of fire works on any portion of a national forest is also prohibited. Careful adherence to these requirements will make it possible for a protection force of the forest service to keep losses from fire to a minimum.

Siskiyou County Artists Set Deadline For Exhibit

YREKA—Siskiyou County artists are being reminded this week that all mediums of art work they may wish to exhibit at the coming second annual art show to be presented by the Siskiyou Artists Association, will be received on this Saturday and Sunday at the Yreka Inn. The second annual exhibit has been scheduled for June 12, 13 and 14, in the Melody Room of the Yreka Inn. Artists wishing to enter their art work may present their entries from 10 a.m. to 6 p.m. on June 8, or from 1 to 4 p.m. on Sunday, June 7. A receiving committee has been designated to receive work and assist artists in any way possible with their entries. The exhibit is open to all artists in Siskiyou County. Mediums of art to be shown may include oils, watercolors, caseins, pastels, charcoal, pen and pencil, sculpture and other crafts, such as jewelry, ceramics or woodcarving. Entry fees have been set up as follows: for members of the association, \$1 for two entries, 50 cents for each additional entry; non-members will be charged \$2 for two entries, and \$1 for each additional entry. Junior artists are also being encouraged to enter their work, and may enter two pieces of art for 50 cents, with a 25-cent charge for each additional entry. Prizes to be given out will include cash awards from the Crocker Anglo Bank and the Bank of America; merchandise orders from Janson's Stationery and Siskiyou Paint and Wallpaper, both of Yreka, as well as ribbon awards for all classifications, by the artists' association. There will also be a popular vote award.

Relief From Hemorrhoids Possible Without Surgery!

Persons suffering from hemorrhoids (piles) need no longer resort to painful hospital surgery, thanks to a relatively new electronic method of treating rectal and colon disorders, practiced by the Dean Clinic in Portland, Oregon. Information without obligation may be obtained by writing the Dean Clinic, Chiropractic Physicians, 2026 N. E. Sandy Blvd., Portland 12, Oregon. The Dean Clinic treatment is proving more effective than surgery in many cases and requires no hospitalization or confinement. Uncomplicated cases are often corrected in as little as 10 days. Since the method involves no cutting, there is practically no discomfort during treatment, and none of the common after effects of surgery.
