

Art Gallery Work Noted

Drawings and specifications for the new Klamath Art Gallery are being completed, and will be ready for bidding within a few weeks.

The building will enclose about a thousand square feet of floor area, most of which is given to gallery-exhibition space, with a small area used for storage, lavatories and kitchenette. The gallery room will have a fireplace, built-in seating, and electric baseboard heat.

The building will be located in Maple Park, the former Rufus Moore estate, and is planned to take full advantage of the natural surroundings. The gallery room will have direct access to the park, and large windows will face the secluded terrace garden, with the building acting as a privacy buffer from traffic noise.

A future sculpture garden and outdoor exhibition area is planned. Parking will be provided on the grounds for about 12 cars, with entry approach to the gallery through the garden.

Enough funds have been received to enable the start on the building, but more contributions will be needed to make the building entirely usable, it was reported. Donors may mail checks to The Klamath Art Association, P. O. Box 955. Unit now several partial lists of donors have been published in the Herald and News. The following is a complete list of donors to date:

PUBLICITY CHAIRMAN

Jack Henry, Southern Oregon College Junior from Klamath Falls, has been appointed student publicity chairman for the coming year, according to Hugh G. Simpson, director of information. Henry's parents, Mr. and Mrs. Jack Henry, reside at 803 Francis Street. According to Bob Mead, recently installed student body president, this position is one of the most vital posts on campus and will entail extensive coordinative efforts between the student council, school newspaper, college news bureau, and the various organizations.

IT'S HARD TO TELL from this picture whether this mail deposit box is coming or going. And that's exactly what bothers the post office. The office had many requests to install a box on South Sixth Street. So it asked the State Highway Department, got a tentative okay, and installed the box. Five days later the highway department says it can't accept the box (across from the First National Bank branch) until a final permit has been approved in Salem. Nobody knows when that might be. So postal employes Stan Huber and Byron Diskin pulled it out while everybody waits.

Senate Okays Nominations

WASHINGTON (AP)—President Eisenhower's nomination of Ogden R. Reid as ambassador to Israel and George M. Johnson as a member of the Civil Rights Commission have been confirmed by the Senate.

Both won approval Thursday on voice votes, with little of the opposition that had been forecast.

The nomination of Thomas S. Gates Jr. to be deputy secretary of defense also was approved. There had been no controversy over the naming of Gates, former secretary of the Navy, to succeed the late Donald A. Quarles.

Reid, 33, formerly was president and editor of the New York Herald Tribune. He had been recommended for confirmation by a 10-4 vote of the Foreign Relations Committee over the opposition of the committee chairman, Sen. J. William Fulbright (D-Ark).

Fulbright told the Senate Thursday the nomination was "improvident and irresponsible" and said he didn't know "why the President should have selected Mr. Reid for this extremely challenging, highly sensitive job."

Among those supporting Reid was Sen. Wayne Morse (D-Ore), who fought the nomination of Mrs. Clare Boothe Luce to be ambassador to Brazil. Morse said Reid "meets the test and is entitled to confirmation."

Johnson, 58, is a Negro lawyer and educator. He succeeds the late J. Ernest Wilkins, also a Negro. Johnson, whose home is at Berkeley, Calif., was dean of the Howard University Law School here until last year.

President May Ask Solons To Boost Bond Interest

WASHINGTON (AP)—President Eisenhower says the government will be in trouble if it can't compete for money with realistic interest rates.

His comments added fuel to speculation that he soon may ask Congress for an increase in the interest rate ceiling on government bonds.

Fatter interest rates would make U.S. bonds more attractive in the tight money market.

In an extemporaneous talk Thursday to members of the Society of Business Magazine Editors, the President said:

"In this time of great prosperity, every kind of economic activity is seeking new money."

"American—the federal government—has to compete in the market place on selling our bonds which have to be sound."

He added: "If the United States government is not to be in a position to compete with every business and every worthwhile economic activity for money in managing our 285 billion dollar debt, we are going to be in trouble, particularly if we are denied the right to bid on a business basis—that is at realistic interest rates."

The present interest limit of 4 1/4 per cent on government bonds was set in 1918. No hints have been given on what new limit might be asked — if one is asked at all.

There has been considerable speculation that the administration soon would ask higher interest rates on U.S. bonds and a higher ceiling on the national debt. Eisenhower said Wednesday at his news conference that no decision had been reached on either possibility.

A higher debt ceiling would cover foreseeable Treasury borrowings this fall when tax collections lag.

The President in his talk renewed his appeal for debt reduction saying "that debt is important because we are today taking more than eight billion dollars out of your pockets for interest payments alone, with no reduction of the debt itself."

CHEVY BESTS

(COUNT 'EM) 7 7

Independent experts and official figures prove Chevrolet's ahead of its field in seven big ways

BEST BRAKES . . . In direct competitive tests of repeated stops from highway speeds, conducted by NASCAR, Chevy out-stopped both the other leading low-priced cars—and why not: Chevy brakes are far larger, built with bonded linings for up to 66% longer life.

BEST TRADE-IN . . . Check the figures in any official N.A.D.A.† Guide Book. You'll find that Chevy used car prices last year averaged up to \$128 higher than comparable models of the "other two."

BEST STYLE . . . Popular Science magazine sums it up: "The fact is, in its price class the Chevy establishes a new high in daring styling . . . It's the only low-priced car that's unmistakably modern in every line."

BEST ECONOMY . . . No doubt about this: two Chevrolet Sixes won their class in the famous Mobilgas Economy Run, got the best mileage of any full-size car.

BEST ROOM . . . Official dimensions reported to A.M.A.† make this clear. For example, Chevy front seat hip room is up to 5.9 inches wider than comparable cars.

BEST ENGINE . . . Every motor magazine has given Chevy's standard and Corvette V8's unstinted praise. As Sports Cars Illustrated puts it: "Indeed, this device is surely the most wonderfully responsive engine available today at any price."

BEST RIDE . . . You'll be able to tell this yourself, instantly. But Motor Trend magazine expresses it this way: ". . . the smoothest, most quiet, softest riding car in its price class."

No wonder more people are buying Chevrolets in 1959 than any other car!
