Everybody gets a better buy with three new Chevrons

you pay only for the octanes you need!

It makes good sense: Three grades give you a wider octane choice than two. Now—whatever car you drive —you can get full performance. And you don't have to buy higher octane gasoline than you can use.

If you need extra high octane, new Chevron Custom Supreme is a grade above today's best premium gasolines —far, far ahead of any other in octane and actual road performance. At the white pump.

If you're a premium-user now, new Chevron Supreme gasoline has all the octanes needed for smooth going anywhere. No need to pay extra for octanes you can't use. At the blue pump.

If you want an economy regular, new Chevron Gasoline delivers new high octane—better performance for most cars on the road—at the regular price. Get the octanes you need without paying a premium! At the red pump.

All three Chevrons are clean-burning, of course! And all have carburetor-cleaning Detergent-Action along with other important fuel qualities to give full driving satisfaction. You get these extras plus the friendly service rated "best in the West" in every independent survey.
