

MARKETS and FINANCE

Stocks WALL STREET NEW YORK (AP) — The stock market closed sharply lower today in heavy trading accompanied by a late ticker tape. Final prices were above the day's lows as a recovery drive got underway. Volume for the day was estimated at 3,200,000 shares compared with 2,970,000 Monday. Leading stocks fell from fractions to about 2 points. An early rebound from Monday's setback, the sharpest in half a year, faded into irregularity which turned gradually into a lower market. Reynolds Metals leaped about 1 on word of its boost in output. Alcoa was up more than 2 and Kaiser Aluminum more than a point. Atlantic Coast Line, General Electric and American Tobacco lost about 2 apiece. Ford fell more than 2. Goodyear declined more than a point. Union Carbide, Radio Corp. Du Pont and U.S. Rubber dropped about a point each. Stocks with fractional gains were U.S. Steel, United Aircraft, Zenith, Texas Instrument, Westinghouse Electric, Santa Fe, New York Central and Texaco. Liggett & Myers was ahead more than a point. American Telephone, Commonwealth Edison and Consolidated Edison were among fractional losers. U.S. government bonds continued to improve.

Livestock KLAMATH FALLS LIVESTOCK AUCTION MARKET June 8, 1959 Receipts: Cattle 495 Hogs 222 Sheep 3. Compared last Monday fed heifers strong on moderate supply; fed steers steady; cows steady; stockers and feeders steady; hogs steady. Fed Steers: Good, 25.90-26.25; Holsteins, 24.50-27.40. Red, Girl Friend Request Asylum BORGHOLM, Sweden (AP) — A Soviet officer and his Polish girl friend arrived here together Monday night and asked for political asylum, police reported today. A Soviet sailor took them across the Baltic Sea from Poland to Sweden. Police said it is not clear whether the sailor ferried the refugees over voluntarily or at pistol point, but he seemed to want to go back to Poland. Police withheld names.

Development Of Shasta Hindered By Water Lack

By PEGGY WALSH MOUNT SHASTA—The lack of water is the greatest deterrent to further development of Mt. Shasta by the U. S. Forest Service, John Watt, district ranger from the Sacramento District of the Shasta-Trinity National Forest, said today. Watt said there has already been 110,000 visitors to the Mt. Shasta Ski Bowl since the Everett Memorial Highway was completed last fall and the fact that there are few established water supplies on the mountain is hampering plans for more camping, picnicking and other forest recreational facilities. "Runoff from winter snows and glaciers on the mountain sink into the lava formation of the mountain and do not provide surface water in the form of springs and streams on the mountain. Watt explained, as it normally does on less porous mountains. The Panther Meadows camping area on the mountain will be expanded to 50 units this summer and managed by the Ski Bowl corporation. Expansion is also slated for the Castle Creek camp ground west of Castella. Pollard Flat, Castle Creek, Mott and McBride Springs camp grounds are open now, Watt said, with use of Castle Lake and Panther Meadows camp grounds dependent upon the recession of the winter snow pack. Bob Marshall has been assigned to camp ground improvement, road and trail maintenance, Watt said. Fire suppression will be a major concern this summer, Watt said. Ten lightning fires on the district during the last week have given warning of a maximum hazard year due to the light winter precipitation. Most of the fires were confined to stumps or small areas, the largest burning about one-half acre southwest of Mount Shasta. Paul Dryden, fire control assistant, will supervise the work of a 10-man suppression crew housed at the forest service dormitory at Mount Shasta. These men went on duty June 1 and man two tank trucks. Pearl Cowan and Mary LaGrande are already on the lookouts at Mt. Bradley and Girard ridge, Watt said, with other lookouts to go on duty at Black Butte and Sims next week. Timber activities of the district are currently focused on Boulder Creek in the Sacramento canyon and Parks Creek, west of the Shasta valley. The Boulder Creek cut will be concluded in July, Watt said, and timber evaluation of the Parks Creek area is in progress with the sale slated this fall or winter of about eight million feet of timber. The timber work is headed by Jim Shiro, assistant district ranger. The Devil's Pocket area on the south fork of the Sacramento River is being cruised and marked also, Watt stated. The Sacramento District of the Shasta-Trinity National Forest will support about 730 head of cattle later in the summer, Watt commented, with grazing in about six designated areas. Planning and supervising construction and maintenance of forest service roads is a new district responsibility, Watt said. He feels local planning will result in more needs of the area being met and says the increased responsibility has also meant an increased budget. Most of the road work will be on contract basis, Watt says, and his only problem is fitting the planning into the multiple activities of the district staff.

TOM SEED, a junior at Dunsuir High School and the daughter of Mr. and Mrs. J. R. Seed, will leave June 16 for a summer in England. He has been chosen by the American Field Service as a "junior ambassador" and will spend the summer with the family of Angus James Watt-Smith in Sheffield. He will have two foster sisters, ages 15 and 10. He will leave by charter plane with other AFS students from Oakland on June 17 and will return to New York City on September 5. —Photo by Peggy Walsh

HANDICAPPED PHOENIX, Ariz. — A 29-year-old Phoenix laborer awoke to find a burglar in his home. But Phoenix Carr told police he was unable to chase the fleeing thief. The burglar had stolen Carr's pants.

2 Engineers End Survey

FORT ROCK — With 68 permits on file with State Engineer Lewis A. Stanley, well over 8,000 acres are included in proposals for pump irrigation in the Fort Rock Basin. Myron Bish, field engineer and Bob DeBow, from the state engineer's office, recently completed final survey proof on about 25 wells in the valley, with close to 2,500 acres involved. Both well permits and the final survey are required by Oregon law. Bish and DeBow compute the acreage by survey, making a map of the field, and tie in with public survey corners. The men are one of three survey crews working from the state engineer's office. Most development here by pump irrigation has taken place since the extending of Midstate Electric's line from LaPine to serve the area. Some final survey proofs were completed prior to those now completed by Bish and DeBow, however.

Weather Aide Views Station

FORT ROCK—Sidney Howick of Portland, U.S. Weather Bureau field aide, hydrology-climatology, made the annual inspection of weather stations at The Poplars and Fremont here Thursday. Howick, who recently joined the Portland office staff, was on a two weeks inspection tour in which he visited weather stations to calibrate recording rain gauge devices and to check the accuracy of maximum and minimum thermometers. D. E. O'Connor, cooperative observer at Paisley since June 1, 1955, made his retirement effective June 4 after 24 years of service. Howick stated. The weather station was moved Thursday to the Highway Maintenance Shop where Clyde Bramlette is the new observer. Howick set up four additional weather stations on this trip. They are at Brothers, Juniper Lake and Andrews on the eastern side of the Steens Mountains and Roaring Springs Ranch on the west of the mountains, south of Frenchglen. These new stations will make the network more complete. It is customary to locate weather stations not over one per 25 square miles.

Key Assembly Group Okays Water Program

SACRAMENTO (UPI) — Governor Edmund G. Brown's water program rolled toward passage today in the Legislature. The \$1,750,000,000 bill cleared the Assembly Water Committee Tuesday 11-9 and administration leaders in the lower house jubilantly predicted it was on its way to the governor's desk for his certain signature. The measure earlier passed the Senate 25-12. If it is not changed in the Assembly, it does not have to go back to the northern-dominated Senate for ratification of Assembly amendments. But Committee Chairman Carley V. Porter (D-Compton), who will sponsor the governor's bill in the Assembly, warned that if any amendments were adopted which would weaken the north's guarantee the bill would be in jeopardy in the Senate. The amendments were voted down. Wrestling matches were one of the features of the Greek public games. MRS. ELLA WETZEL of McCloud —Photo by Don Kettler

By ROY KITE McCloud — Mrs. Ella Wetzel, who holds down a full time job in the office of the McCloud River Lumber Company, also finds the time to be active in community affairs. She is a native of San Francisco but has lived in McCloud since 1941. Her daughter, Beverly Mosher, is employed by the California Division of Highways, and her son, Harry Mosher, graduated this month from Chico State College. Mrs. Wetzel was a hard worker in the Community Church Sunday School for 14 years. She also lent her time and energy to the Girl Scouts as a leader for a comparable length of time. A Junior Women's Club member, Mrs. Wetzel spends a lot of time in helping to produce the club's variety shows. At the present time, she is worthy matron of the McCloud Chapter No. 381, Order of Eastern Star. Mrs. Wetzel accompanied an uncle to Germany by air in 1956, where she visited with relatives. A month of that time was spent in Kiel, where she became acquainted with her relatives there. One of her favorite pastimes is recalling the good times and different customs from her European trip.
