Stocks

WALL STREET

NEW YORK (AP) — The stock market closed mixed today after wiping out most gains in a vigorous early rally.

Volume for the day was estimated at 3,200,000 shares compared with 3,310,000 Wednesday.

Leading issues were up from fractions to well over a point.

Wider moves were made by an assortment of stocks. Texas Instrument and Du Pont were up about 3 apiece while Polaroid added around 4.

Republic Steel gained about 2 and Lukens more than that. Gains of more than a point were posted for U. S. Steel and Jones & Laughlin. Bethlehem was a point ahead.

Thiokol and Union Carbide were 1-point gainers. American Cyanamid, Allied Chemical and Eastman Kodak were ahead moderately.

Alcoa was off about a point and Kaiser Aluminum well beyond that. Reynolds Metals and Aluminium Ltd. were fractional losers.

Airlines were up solidly with gains of more than a point posted for Eastern Air Lines and United Air Lines.

U. S. government bonds drifted slight fractions lower.

Chemult Club Holds Meeting

CHEMULT—The June meeting of the Chemult Civic Club used "Down Memory Lane, 1859-1959" as its theme and featured the members dressed in Centennial gowns. Members also brought family heirlooms which they displayed and described.

The refreshments were carried out in the Centennial theme and were served in oldtime dishes.

The club made plans for the Centennial Buckaroo Breakfast which will be the only Centennial celebration as a whole town. The breakfast will be held at the clubhouse grounds. A bazooka band, featuring kitchen instruments played by children, will be a feature of the breakfast.

The clubhouse will be painted a barn red and any enlarging will be postponed until next year.

Mrs. William Taylor is president of the club.

"When I go out with Billy, I can't make up my mind whether he's thrifty or just plain stingy!"

Construction For TV Set

YREKA—Construction for Nor-Sis TV Corporation will proceed immediately upon receiving permission from the Federal Communications Commission, which will take approximately two months following filing for applications.

Following a final survey made by Robert Myers, engineer for Industrial Television, in the company of several members of the board of directors of the Nor-Sis organization, and James M. Dow, technical engineer, contracts were signed for the purchase of the translator equipment, which will be installed on Antelope Mountain, 5,760 feet elevation. The site lies south of Yreka; south southwest of Grenada and southwest of Montague, and northeast of Weed, and will assure Class B coverage for those areas.

Members of the board signing the contract, who had been appointed and given authorization to do so by the entire board of directors, were Roy Bengard, Yreka director; John Voy, Gazelle; and Doug Silva, who is director and assistant treasurer for the Weed area.

Installation when completed will consist of three Adler translators at a cost of $9,075, or $3,025 each; using three Adler unitized transmitting antennas, costing $6,930, or $2,310 each, which will transmit 213 watts effective radiated power.

Other officials of the corporation present during the final negotiations included James B. McAdams of Montague, president; Harry Hammond of Yreka, attorney; Harry Meek of Yreka, treasurer; and James Dow, who has already contacted television stations KBES-TV, Channel 5, Medford; KVIP-TV, Channel 7, Redding; and KHSL-TV, Channel 12, Chico, for permission to retransmit their respective programs.

Other materials and equipment to bring the installation to its final stages of completion will cost over $20,000, and campaigning to collect the remainder of the necessary funds must continue, it is being stressed by McAdams.

Since the construction will include buildings to house the translator system, as well as construction of roads and running of power lines to the site, campaigners must call on all pledge signers and obtain many additional signers.

Young Scientists Nabbed By Police

PORTLAND (AP)—Police here took into custody Thursday two teen-age boys who set off a rocket that rocked their neighborhood.

The missile soared 300 feet into the air, then came crashing back to earth. It scorched a six-foot circle in the grassy field where it landed.

The boys, 17 and 14, were taken into custody as they prepared to launch a second rocket.

SECOND PLACE WINNER

DUNSMUIR—Raymond Decker, son of Mr. and Mrs. Dan Decker of Dunsmuir, was the recent winner of second place award in the 1959 Collegiate Advertising Art Contest sponsored by the Advertising Association of the West and Zellerbach Corporation. Decker received a check for $50 and an engraved certifica . Students in a 15 state area participated in the contest. Decker is currently enrolled at the College of Arts and Crafts in San Francisco. He is a graduate of Dunsmuir High School.

JULIE TOWNLEY

Denmark Trip Set By Girl

MONTAGUE—Julie Townley, 17, daughter of Mr. and Mrs. Roy Townley, a senior at Yreka High School next fall, has been chosen by the American Field Service to represent this area in Denmark.

Julie's foster parents will be Dr. and Mrs. Ottos Fensbo, who have a large home at Mariaigar Fjiord, Hansund, Denmark, population, 4,000. The Fensbo family consists of four children besides the parents, two boys and two girls, ranging in ages from 17 to 23.

The Roy Townleys' with Julie and other members of the family left June 10 for Berkeley, where they attended the graduation exercises at the University of California, when their elder daughter, Mary, graduated. Immediately following the exercise the family went to Portland where Julie boarded a train on Friday for New York. From there, she will embark on her first ocean voyage for Denmark.

Eastern Oregon — Fair through Saturday with little change in temperature. Low tonight 45-50 high Saturday 80-90.

Western Oregon — Partly cloudy through Saturday with chance of few showers in the north Saturday. Little change in temperature. Low tonight 50-60; high Saturday 65-75 except 80-90 in southern interior. Southerly to southwesterly coastal winds 5-15 miles an hour.

Northern Oregon Beaches — Mostly cloudy through Saturday with occasional showers. Temperature range 52-68. Southerly to southwesterly beach winds 10-20 miles an hour.

Grants Pass and Vicinity — Fair tonight and Saturday. Low tonight 50-55; high Saturday 70-75.

Baker and Vicinity — Mostly fair through Saturday with chance of isolated afternoon or evening thunderstorms. Low tonight 47-55; high Saturday 80-90.

Lou Gehrig hit a home run with the bases loaded 23 times, a major league baseball record that still stands today.

Solons A Roll Call Away From Passing Aqua Slate

By JAMES C. ANDERSON

SACRAMENTO (UPI)—The Legislature was one roll call away today from voting final approval to a $1,750,000,000 water program.

The Assembly Ways and Means Committee, next to last legislative hurdle in the path of Gov. Edmund G. Brown's water proposal, Thursday voted 15-6 to send it to the Assembly with a "do pass" recommendation.

The Assembly probably will vote Monday. If, as administration leaders confidently predict, the lower house adopts the bill, it will clear the way for submission of the entire program to voters in the 1960 elections.

The water bill, SB1106 introduced at the governor's request by Sen. Hugh M. Burns (D-Fresno), came under heavy attack in Ways and Means from two legislators — one Democrat, one Republican — who critized the principle of financing the massive water plan through a bond issue.

Assemblyman Bruce F. Allen (R-Los Gatos) said the interest rate on the bond issue, figured at 4 per cent over a 50-year period, would be $3,500,000,000.

"In other words, for every $1 you spend on construction, the taxpayers will have to repay $3 in interest," he said.

Allen, joined by Assemblyman S. C. Masterson (D-El Sobrante), argued that the water program should be financed the same way as the state builds its highways—through A "pay as you go" program financed by direct taxes.

Allen tried to amend the bill to provide that the Legislature would have the right to approve each expenditure during construction of the statewide project.

His amendment lost 8-11.

Assemblyman Jesse M. Unruh (D-Los Angeles), one of Democrat Brown's loyal supporters and chairman of Ways and Means, staved off another controversy when he refused to permit amendments to be introduced which would restrict northern water rights.

Unruh ruled the committee could deal only with the fiscal effect of the bill and would not permit Frank Lanterman (R-La Canada) to introduce his amendments.

On the roll call in committee, four Republicans and three Democrats voted against the bill.

In favor of the bill were nine southern assemblymen and six northerners. The opposition votes came from five northerners and Lanterman.

In its present form, SB1106 proposes to spend the bond issue to finance the Feather River Project to provide supplementary water to the Bay Area, Central Coast, San Joaquin Valley, and Southern California.

It gives flood control protection to the Feather River area below Oroville, provides 130 million dollars for local projects and earmarks an unspecified amount of the bonds to add water for the San Joaquin-Sacramento Delta by developing North Coast streams such as the Eel, Klamath, Mad and Van Duzen. It also provides for five small reservoirs in Plumas County.

Other developments in the Legislature:

Welfare: Brown said nine million dollars will be voted by the Legislature this session as additional benefits for the aged, the needy and the blind, but said it could have been more had not the "selfish oil industry" killed his severance tax bill.

Taxes: On the Senate floor and ready for a vote in the next few days were four of the governor's tax bills which would raise about 41 million dollars in new revenue. The Senate Finance Committee approved the measures Thursday which would increase taxes on banks, corporations, beer, horse racing and heirs.

Billboards: A group of housewives, encouraged by Sen. John F. McCarthy (R-San Rafael), said they will try to get an initiative on the 1960 ballot to control billboards. McCarthy introduced a bill this year to regulate the industry but the measure was dumped.

Board Okays Fund Switch

YREKA—During a half day session early this week, the Siskiyou County Board of Supervisors gave its approval to transfer $14,040 within the county road department for the first payment on a radio-telephone communications system costing $43,000 for road department use.

The road department has been renting a communications system through the facilities of the Pacific Telephone and Telegraph Company.

According to County Administrator Jess O'Roke, the state civil defense may contribute 50 per cent toward the total cost of the system.

In other action of the board, they accepted a final map of the planned Bel Air Terraces subdivision at Weed near the College of the Siskiyous.

Action for abandonment of the old Simas road at Moffett Creek was also deterred for two weeks. This followed a protest registered from Joseph Deas of Scott Valley, who stated that he felt an intersection on a new road nearby is not safe because of poor visibility. The board promised to attempt to have the intersection widened.

The board also announced receiving acknowledgement from U.S. Senator Thomas H. Kuchel to a resolution passed by the board on May 5, endorsing a chrome subsidy program. In his acknowledgement, Kuchel warned that chance of the bill being passed is slim because of heavy curtailment being made in the federal budget.

REPORTS

WEED—Richard L. House reported at the U.S. Naval Air Station at Alameda this week after spending a short furlough at the home of his parents, Mr. and Mrs. Byron House of Weed. House satisfactorily completed the 10-week course of aviation structural mechanic (hydraulics) course (class-A) at the Naval Air Technical Training Center at Memphis, Tennessee. He is a Weed High School graduate of 1958 and received boot training at San Diego.

Etnan Writes West Tales

By BERNITA TICKNER

ETNA—Ralph Cummins has devoted 35 years to writing westerns, novels, mysteries and forest service stories, plus feature articles for sporting magazines and newspapers.

He contributes becoming an established author to spending a period of time recuperating after ill health in 1924. During this time he began 15 years of serious writing, after 10 years in the technical department of the motion picture industry.

In the late 1920s and early 1930s, he was under contract and had earned the reputation of writing and selling over a million words a year. He was also one of the top 10 western writers during that period. A number of his stories and novels have been sold to motion pictures, with his latest piece being the "Fence Corner Rustlers."

Cummins is married and has two sons, Neil, a civil engineer and Varre, a Presbyterian minister. He and his wife plan to enjoy their retirement years vacationing.

Video 'Sheriff' To Play Host

MONTAGUE "Sheriff" Bill Winters from KVIP-TV, Redding, who is to be one of the feature attractions at the coming eighth annual Junior Rodeo and Barbecue to be held in Montague on Sunday, June 21, will be host on his television program to the five junior queen contestants on Saturday afternoon, June 13, at 2 p.m., over Channel 7, KVIP-TV at Redding.

The girls, vying for the junior queen crown, are Diane Fehlman, Montague;; Bertine Zimmerlee, Yreka; Lula Belle Whitten, Hornbrook; Elaine Hammond, Edgewood, and Annette Hayden, Quartz Valley. Sheriff Bill invited Mrs. Betty Dow, publicity chairman for the rodeo event to bring the girls down, for interviews, and he will interview Mrs. Dow on rodeo activities and events. He will also talk with Mrs. George Flock, junior queen chairman.

ROSES' JEWELS STOLEN

LONDON (UPI) — American-born film producer David Rose was burglarized of jewelry worth $56,000 from his apartment, police reported today. Police believed a skeleton key was used to enter the apartment and pilfer the gems from a bedroom.

DEMONSTRATING Ernest Hayden's lumbersaw-chain attachment.

California Weather

United Press International

San Francisco Bay Area: Fair through Sunday except high fog near ocean extending inland in early morning; high today San Francisco 60, Oakland 67, San Mateo 7; San Rafael 75; low tonight 51-56; normal westerly winds.

Mt. Shasta-Siskiyou area: Partly cloudy and cooler through Saturday.

Sierra Nevada: Fair through Sunday; cooler in north today.

Sacramento Valley: Fair through Sunday; high today and Saturday 80-90; low tonight 55-65; southerly winds 12-24 m.p.h.

Northwestern California: Partly cloudy through Saturday with high coastal-fog extending inland mornings; cooler inland; high today and low tonight Ukiah 80-52, Santa Rosa 76-48, Napa 78-50; coastal winds northwest 10-20 m.p.h. but locally 30 m.p.h. afternoons.

Mending Nixed On Schoolrooms

DUNSMUIR—Renovation of the condemned frame building, which has been used by the Dunsmuir Elementary School as classrooms and offices, was denied at an emergency session of the elementary board on Thursday morning.

Roger Ellis, principal, was instructed to plan double shifts for the first graders to alleviate the crowded conditions.

The decision against the renovation was because of inability to comply with the Field Act, the state regulation on school construction standards.

Inventor Seeks Patent

ETNA—Ernest Hayden, livelong Callahan resident, applied recently for a patent for a lumber saw chain attachment, which he says permits the precise and accurate sawing of lumber of any dimension with an ordinary chain saw. Lumber is sawed without moving the log or tree trunk from where it is felled.

The device also may be used for sawing posts, squaring logs for log cabins and sawing mine timbers, railroad ties and bride timbers for long lengths.

Wood hobbyists will find it handy for sawing boards to the thickness and length needed, Hayden said. The large motor units provide a sawing speed of 15 board feet per minute for boards of one and one-half inches in thickness. It is lightweight, can be carried by one man and can be assembled in minutes.

Hayden, a former miner, timber faller and Siskiyou County supervisor, has also invented the chainsaw brush mower, chain saw bar stop, filing gauge, chain saw snap-on-bar stop and bolding claws for chain saws. He is co-inventor of the chain saw bar roller and has manufactured and sold these articles since 1948.

LOW COST FULLY AUTOMATIC
OLD CACTUS INSECTICIDE APPLICATOR
KILL Grubs (wolves warbles) Lice, Ticks, Mange Mites, Flies, and other costly stock pests.

Automatic insecticide control. Cattle treat themselves. The special washer and cable rubbing element is armored with special steel scratchers to clean out dead hair and dirt and put the insecticide deep into animal's hair and hide. Old cactus is built to take a beating, cattle can't tear them up. Attaches to any Post, anywhere. A small investment in an Old Cactus gives you pest free, healthy and contented cattle which means more and better beef and increased milk production. Be prepared for the Stock Pest season. See your dealer Now!!
