

# Air War Control Center Nears Completion In Reich

By VERN HAUGLAND  
Associated Press Aviation Writer  
KAISERSLAUTERN, Germany (AP)—An air war control center, as nearly immune from atomic attack as a structure can be, is nearing completion deep inside a mountain not far from this West German town.  
Known as the Combat Operation Center of the Advance Echelon

Headquarters of the U.S. Air Force in Europe, the complex of tunnels was inspected by a party of U.S. newsmen touring NATO installations in Europe.  
Col. Edward S. F. Newbury of Bakersfield, Calif., director of the center, said the German contractor will turn over the completed project to the U.S. command in about three weeks. The underground headquarters is already in operation.  
The center maintains an air defense screen over the central part of Europe and might to protect the Atlantic Alliance from sneak attack.  
Manned by a staff of 125, the center constantly plots by radar all air movements within its area of responsibility on both sides of the Iron Curtain. It can dispatch tactical air weapons at a moment's notice.  
As newsmen watched, more than 30 unidentified aircraft were being tracked on the far side of the Iron Curtain in Czechoslovakia and East Germany.  
"It is a beautiful, clear day and the Communists are doing a lot more flying around than usual,"

Newbury said.  
The center is housed in three parallel corridors, 450 feet long, tunneled horizontally into the mountain. Sixty-seven long, narrow rooms are air conditioned with equipment designed to filter out radioactive material.

German engineers drilled three tunnels at the site from 1937 to 1950 for ammunition storage. The German west front command occupied the tunnels from 1944 until the end of World War II, after which the French used them as an ammunition depot.

The American Air Force started using the tunnels as a combat operations center in 1954.

IT'S DAYTIME TO THEM BALTIMORE (P)—The business meeting was scheduled for the unlikely hour of 3 a.m. but drew the best crowd in the organization's history. It was a meeting of bartenders. Taverns close at 2 a.m.
