PEACHY JELL-O

For dessert. Prepare Jell-O as directed on the package, but use the juice from a No. 2 can of sliced peaches for part of the liquid. Chill until slightly thickened, then add the peaches. Chill in a pretty mold until firm. Top with a dab of whipped topping.

For salad. Follow the above recipe, adding 2 teaspoons vinegar with the peach juice. Garnish with cottage cheese balls and mayonnaise.

Don't let this week go by without
