

Experts Hope For Error, But Still Say 350 To Die

CHICAGO (AP)—The National Safety Council is one group of experts which hopes its predictions are 100 per cent wrong. Among its tasks in the field of safety, the 47-year-old organization includes estimating the na-

tion's traffic death toll on major holidays.

For the July 4 weekend the council estimates 350 persons will die in traffic accidents and 13,000 others will suffer disabling injuries.

"But our goal is no accidents at all," says an NSC spokesman. "All we are doing is telling people there is extra traffic, extra danger and therefore, extra accidents, and we are asking them to be extra careful."

Using mass communication media—newspapers, radio, television—the council pounds at the populace urging them to be careful.

Has it been successful? The council spokesman said definitely yes. "Who can say what the toll would be if this were not done?" he asked.

Still, the final tolls usually come close to NSC estimates. Holiday estimates are based on a complicated formula applied to previous records for these holidays, current traffic volume trends, current toll trends, nature and length of the holiday and finally, the weather.

The council was formed in Milwaukee in 1912 at a safety session of a steel industry convention. Now its Chicago headquarters has a staff of 350 statisticians, writers, artists and traffic and industrial engineers. More than 300 other councils are affiliated in some way.

Actually, the traffic safety problem accounts for no more than a third of the council function of gathering and distributing information about the causes and ways to prevent accidents.

The NSC divides its work into four principal classes: work, home, motor vehicle and public accidents, the latter including accidents at play, such as drownings.

The council operates on a \$4-million-dollar budget, nine tenths of it supplied from membership fees paid by industrial concerns and from the sale of its posters, films, data sheets and technical information.

The council also publishes 13 national magazines with a circulation totaling more than 1 1/4 million.

The rest of its money comes from contributions. The organization's president is Howard Pyle, former governor of Arizona and former presidential aide.

Administering the staff activities is Gen. George C. Stewart, executive vice president.

At Rockefeller's request, the Legislature, meeting in special session, passed a bill substituting a three-man agency for Monaghan's one-man rule.

Less than an hour after the session adjourned, Rockefeller signed the measure into law. The changeover must be made by Sept. 1.

The lawmakers also voted to end the multimillion-dollar state subsidy for harness-track expansion, a program that Monaghan administered, and elected a speaker of the Assembly to succeed the late Oswald D. Heck.

Rickshaws Facing Ban

BANGKOK, Thailand (AP)—The end is in sight for Bangkok's bicycle rickshaws—the cheapest, most popular and most prolific form of transportation in Thailand.

The government has decreed that the colorful but hazardous "samloers" must be off the streets by the end of the year.

They choke traffic and are an undignified way for a Siamese to earn a living, says the government.

There are approximately 10,000 gaily painted, chrome-trimmed samloers.

The ban has stirred controversy. Motorists hail the decision gleefully, Romantics contend the samloers are a tradition that must go on. The samloer drivers are grumbling.

The government has not made clear what it intends to do about the resulting unemployment. Many of the drivers, who drifted to Bangkok from the countryside, are expected to return to their villages.

Racing Czar Job Available

ALBANY, N.Y. (AP)—Gov. Nelson A. Rockefeller begins a search today for three commissioners to replace George P. Monaghan, ousted as New York state's "czar" of racing.

Monaghan, appointed by Thomas E. Dewey five years ago to clean up the then gangster-ridden sport, was voted out of office Wednesday amid a scandal that hurt his own reputation.

At Rockefeller's request, the Legislature, meeting in special session, passed a bill substituting a three-man agency for Monaghan's one-man rule.

Less than an hour after the session adjourned, Rockefeller signed the measure into law. The changeover must be made by Sept. 1.

The lawmakers also voted to end the multimillion-dollar state subsidy for harness-track expansion, a program that Monaghan administered, and elected a speaker of the Assembly to succeed the late Oswald D. Heck.

Lawyers Seek New Trial

BEAUFORT, S.C. (AP)—Defense attorneys for two young men convicted without recommendation for mercy in separate interracial rape cases argue new trial motions today.

The defendants, both of whom face mandatory death sentences, are Marine Pvt. Fred Davis, 24, who is white, and Israel Sharpe, 19, a Negro.

Davis, a native of Atlanta, was convicted Monday of raping a 47-year-old Negro woman.

Sharpe, a Beaufort resident, was convicted Tuesday of attempting to rape a young white woman in her home. Attempted rape—like rape—is a capital offense in South Carolina.

The Houston district has 170,000 pupils.

Mystery Killer Slays Woman

DETROIT, Mich. (AP)—A young woman was stabbed to death on a city street Wednesday night, second slaying of its kind within six weeks.

Police identified the victim as Lorraine Sharon Smentowski, 20. She was found dying on a lawn with 16 stab wounds in her chest, back and arms.

The killing was in the same general area where Mrs. Patricia Cioffi, 27, was stabbed May 21. A 15-year-old boy has admitted killing Mrs. Cioffi. He is being held.

Police said they had not determined whether Mrs. Smentowski had been raped.

Bus Union, Firm Parleys

SAN FRANCISCO (UPI)—Negotiations between Greyhound and union officials were set for today, following a threat by auto mechanics Wednesday night that would tie up commute lines serving more than 10,000 workers in the San Francisco Bay Area.

Automotive Machinists Lodge 1305 set 7:30 a.m. Tuesday as its strike deadline against Western Greyhound Lines' main system shops in San Francisco.

John P. Andersen, union business representative, reported that union members rejected Greyhound's offer of a 16 1/2 cent hourly raise by a vote of 175-55. Mechanics, who now receive \$116.20 per week, asked for a 10 per cent raise.

A strike would halt local service between San Francisco, Marin, the East Bay and Peninsula points, but would not interfere with long line runs unless the union picketed bus depots.

Infirm Pair Are Parents

ROCHESTER, N.Y. (AP)—A couple confined to wheelchairs by an incurable disease have become the parents of a baby girl.

Doctors said the couple will have to decide whether to try to keep their daughter with them or to place her in a foster home.

Alexander Quadrozzi, 34, has had to use a wheelchair for the past two years; his wife Janice, 21, for eight years.

They both have muscular dystrophy, a progressive weakening of the muscles.

Doctors said the chances that the baby, born last Monday, will have the disease are greatly increased by the fact that both her parents have it.

Both mother and daughter were reported doing fine.

Attorneys Slow, Judge Reports

ASHEVILLE, N.C. (AP)—U.S. Atty. Gen. William P. Rogers says the great weakness of the legal profession is that it is chronically slow.

In an address Wednesday, Rogers said, "The public can't understand why it takes so long to get a case tried."

He chided lawyers for having done what he called a bad job on the picture they have given the public of the administration of justice.

Dr. John W. McFarland, superintendent of schools, said Connally's order represents "nothing new or alarming or unexpected."

"The board attorney and I will have a conference about the matter next week," McFarland said. "Then he will submit to Judge Connally the report that was asked for."

The Houston district has 170,000 pupils.
