

MARKETS and FINANCE

Stocks WALL STREET NEW YORK (AP) — The stock market closed at a record high today. Prices improved in heavy final trading. The ticker tape was late. Volume for the day was estimated at 3,500,000 shares compared with 3,150,000 Wednesday. Gains of key stocks were from fractions to 2 points or better. The market was higher from the start, paced by blue chips. Electronics and other fast-moving issues took a back seat. Steels, rails, chemicals, rubbers, drugs and selected issues were well ahead. Up around 2 points or better were Goodyear, Union Carbide, Youngstown Sheet, Air Reduction, Baltimore & Ohio and U.S. Gypsum. Ahead more than a point were U.S. Steel, Republic Steel, Jones & Laughlin, International Nickel and American Tobacco. The market's breakout Wednesday to record highs in the Dow Jones industrial average and Standard & Poor's 500-stock index looked like confirmation of the summer rally to many brokers. Losers included Kennecott, Raytheon, Santa Fe, Lorillard and Phelps Dodge. U.S. government bonds slid lower.

Livestock PORTLAND (AP) — (USDA)—Cattle salable 50; no fed steers or heifers offered; small lots 1237 lb utility Holstein slaughter steers 21.50; limited action fudder cows and few bulls; few high yielding utility cows 17.00-18.50; canners and cutters 13.50-15.00; few light cutter bulls 19.00-22.00. ETNA 4-H'ERS, above, proudly display their blue ribbon baked goods to Mrs. Charles E. Hovenden, Etna, who was one of the judges of the food display. Mike Cassidy, center, holds a plate full of cookies for the close scrutiny of Jim Maplesden, left, who is holding a plate of blue ribbon biscuits. Mrs. Hovenden, right center, and Fred Miles, right, holding a custard pie he baked. The foods display was part of completed project work held in conjunction with the Dress Revue held recently by leaders and members of the Etna 4-H Club.

PONDEROSA PINE SEEDLINGS, grown as part of his 4-H forestry project, are displayed by Fred Miles, Etna 4-H member. The flat of seedlings was part of a display of completed project work held recently in connection with the 4-H Dress Revue in the Etna High School.

RR Tunnel Bids To Be Opened

SACRAMENTO (UPI) — Bids will be opened July 29 on an \$8,700,000 job to build two tunnels of the Western Pacific Railroad relocation around Oroville dam site. The Department of Water Resources announced the bid opening today. It was the first call for bids under funds appropriated by the 1959 Legislature. Tunnels two and three will be located just north of the proposed combination highway-railroad bridge over the west branch of Feather River. The department said bids on the bridge job will be advertised later this year.

Fire Imperils Sierra Town

SIERRAVILLE (UPI) — A forest fire which started Thursday afternoon raged out of control along a five-mile front south of this Sierra County town today. The fire had burned an estimated 2,000 acres and forced closure of U. S. 89 between here and Truckee, 20 miles south, during the afternoon and evening. The Highway Patrol began escorting vehicles along the highway in limited numbers Thursday night when the fire headed northeast toward Loyalton and away from the highway. About 500 men were manning the fire lines today but reinforcements were rushed to the scene. Officials said it might take three or four days to bring the fire under control. The blaze was reported in a spot where the highway climbs over Little Truckee Summit.

THIEVES TAKE BEST LONDON (UPI) — Discriminating thieves robbed a Mayfair shop of \$45,000 worth of furs Wednesday. Police said they spent three hours in the shop, separating the mink from the squirrel and leaving the less valuable furs behind.

Women's Club Meeting Held

FORT JONES — The District Executive Board of the California Federated Women's Clubs, which met here recently for the annual Summer Conference School of Instruction announced that a newly established \$300 scholarship is to be presented to Leah Thompson, a Shasta College student. The next executive meeting will be held in Paradise, September 24. Over 75 delegates, representing the 30 women's clubs in the district, heard Mrs. W. H. Harness, Willows, district president, call the meeting to order. Mrs. L. L. Lukes, Fort Jones, acted as chairman of the conference. Mrs. Harness reported on the state and national conventions held earlier this year in Southern California and said that the state president would attend local meetings celebrating anniversaries in time permits. The district chairman of agenda reported that state speakers are available, and asked that requests for these speakers be made as early as possible. The Josephine Seaman Award for outstanding work done by a local women's club went to Butte Valley Women's Club. The Federated Extension Award went to the Monday Club, Oroville, for the largest net increase of membership in the district. Dunsuir Women's Club won the Motion Picture Award and Mrs. Antone Avila, Shasta District safety chairman, won a citation for her report to the state convention. A special award was given to the entire district for work done in safety during the year. A similar course is cosponsored by the California Congress and the University of California at Davis. Each course offers two units of college credit.

Woman Hiker Sought In Yosemite

YOSEMITE (UPI) — Rangers and volunteers planned to make a close search through the main area of Yosemite Park's Mariposa Grove today in search of a woman hiker missing since Wednesday afternoon. The missing woman, Mrs. Drea Lip, 33, Byron, was last seen at a trail junction behind the Big Trees Lodge. She had been on a family outing with her husband, Otto; her mother, Mrs. Petronella Karsten, Stockton, and the Lips' three daughters, Nellie, 10, Regina, 8, and Katrina, 6. The Josephine Seaman Award for outstanding work done by a local women's club went to Butte Valley Women's Club. The Federated Extension Award went to the Monday Club, Oroville, for the largest net increase of membership in the district. Dunsuir Women's Club won the Motion Picture Award and Mrs. Antone Avila, Shasta District safety chairman, won a citation for her report to the state convention. A special award was given to the entire district for work done in safety during the year. A similar course is cosponsored by the California Congress and the University of California at Davis. Each course offers two units of college credit.

Vallejo Man Wounded By Lad

VALLEJO (UPI) — An 18-year-old youth attempting to defend his mother shot and critically wounded her common-law husband in a Vallejo subdivision home Thursday night. Ed Thomas, 27, was wounded five times by a .22 rifle fired by Wilbert Alexander Jr. The youth told police Thomas was drunk and beating Mrs. Aclaudia Alexander, 33. No charges were placed against Alexander.

FBI Arrests Car Thieves

YREKA — The FBI took custody Wednesday of two youths who admitted stealing nine or 10 cars in the past three weeks. The youths, Gilbert Richardson, 18, Fort Ord, and Robert Bruce Owens, 20, Abbott, New Mexico, also face charges of burglary and passing bad checks. The California Highway Patrol said the youths, with two hitchhikers, were arrested on a tip from the Yreka inspection station. An official at the inspection station became suspicious when Richardson was unable to open the trunk of the car he was driving. The official radioed ahead to the patrol. Richardson fled when the patrol stopped his car but was arrested soon afterward near Sheriff Allen Carter's home. Two of the four youths in the car were hitchhikers and were released after questioning. Investigation revealed that Richardson was AWOL from Fort Ord and was wanted for passing bad checks in both Oregon and Washington. Prosecution will be conducted by the FBI, the patrol said.

School Board Plans Appeal

DUNSMUIR — The Dunsuir Elementary School Board will appeal to the Siskiyou County Board of Education for a special financial assistance to purchase a school bus. Roger Ellis, school principal, and Harold Baughman, chairman of the board, plan to attend the county board meeting in Yreka on July 23 to explain the plight of the Dunsuir Elementary School. Ellis told board members at a special breakfast session Monday morning that the Dunsuir Elementary School preliminary budget indicates the school will be about \$20,000 short of basic needs for the 1959-60 school year. He said a raise in the average daily attendance allocation and the recent re-assessment of the district might alleviate the situation somewhat, but there was no way for the board to budget a new school bus without a special grant. The second bus is also a necessity, Ellis told the board. Crowding of the school has created double shifts for the first graders. One bus cannot distribute the kindergarten children at 11:30, and make a second run at noon to take the morning first grade classes home and pick up afternoon students. Without a second bus, first graders enrolled in the afternoon session would not get home till after 5 o'clock, Ellis said. In other business, the board re-elected Baughman chairman of the board and H. A. Meredith, clerk. Members voted to pay the California School Board Association dues.

Woman Enrolls In Workshop

ALTURAS — Mrs. Charles F. Demick, parent education chairman of the Alturas elementary PTA, is enrolled in the seventh annual family life education workshop at the College of the Pacific in Stockton, California. The workshop, sponsored by the California Congress of Parents and Teachers, has attracted enrollment from all parts of California. This year's session has for its theme, "Aging and the Family Life Cycle." College of the Pacific staff includes Mrs. Fay Goleman, associate professor of education and sociology; Edna Gehlken, professor of home economics and Dr. Howard C. Busching, minister and marriage counselor for the First Methodist Church, Reno. Mrs. Robert Kleinhammer of Albany, member of the Board of Managers of the California Congress, will address the class during its closing session.

DMV Insists On Penalty For Drunks

SACRAMENTO (UPI) — The Department of Motor Vehicles insisted today it has the legal right to suspend licenses of drunk drivers for six months — and it intends to do it. Some judges and district attorneys, including those in Merced County, questioned the right of the department to take away from the courts the power to decide whether the license of a drunken driver should be revoked or suspended. But Tom M. Bright, deputy director of the department, said he has extensive legal opinions upholding the department's right to take action under Section 306 of the Vehicle Code. That section reads: "The department may revoke a license upon any of the grounds which authorize the refusal to issue a license and may also suspend or revoke a license upon a conviction of the licensee of operating a motor vehicle on a highway while under the influence of intoxicating liquor." In Section 307, however, the language would indicate that the courts have the discretion to suspend the license or even recommend no suspension. But Bright said if a court suspended a license on a first conviction for only 90 days "we'll add another 90 days on to it." And, he added, if a court recommended that no suspension be given "we intend to go ahead as long as we have a legal abstract of the conviction and suspend the license for a full six months." Robert I. McCarthy, director of the Department of Motor Vehicles, announced last Monday that as of July 1 every person arrested and convicted of drunk driving will have his license suspended for at least six months. The penalty, McCarthy said, would apply to first offenders who in the past "have been escaping with light suspensions or none at all."

Shasta Rainfall Way Below Norm

MOUNT SHASTA — Precipitation in this area for the past three months is 23 per cent below normal, according to John C. Watt, Mount Shasta District forest ranger. He stresses extreme caution for any visitor to forest areas, and stated that an outbreak of fires would probably lead to the closure of national forests to all visitors not actually conducting business. The low rainfall, Watt states, is likely to result in a higher mortality of young pines on the reforestation areas than has been experienced during the past few years.

Board To Ask Station Bids

YREKA — During Tuesday morning's session, the Siskiyou County Board of Supervisors reached an agreement to advertise for bids for the construction of a county central auto service station, for which, \$15,000, estimated cost of construction, has been budgeted. The Siskiyou County Road Department will be in charge of the service station, and all county vehicles and equipment will be serviced, except in the case of major overhauling jobs. County Administrator Jess O'Roke estimated a conservative savings of \$5,000 a year, with the installation of the station, stating that two cents a gallon on gasoline alone would be realized on county vehicles, which currently consume approximately 70,000 gallons a year. Chairman of the board, William Ealy, was not completely in agreement with the remainder of the board, stating he did not believe in the county going into private business, while the remainder of the board felt it was a good idea. Following the agreement to advertise for bids for the project, July 28 was the date set for the opening of bids. All members, with the exception of Ealy, gave a yes vote, with Ealy vacating his chair to cast a no vote. Another action taken by the board during Tuesday's session, was to vote to enter an agreement for construction of a new bridge on Oberlin Road, advertisement for bids to be made within 20 days. The estimated cost of the bridge, \$34,700, to be underwritten with \$18,407 of Federal Aid Secondary road funds; \$7,325 of State Highway matching funds, and \$8,968 of county monies. The supervisors heard a letter from the State Fish and Game Department, announcing a public hearing in Alturas, relative to a proposed antelope hunt, has been set for July 10, at 1:30 p.m. The hunt would give authorization for the harvesting of 250 bucks, between August 29 and September 6. The board does not have authority to act on such a letter, because the hunting of antelope does not come under the Busch bill, but they expressed unanimous disapproval of taking such animals in Siskiyou County. In other business, the supervisors received a request from Louie Sbarbaro for the oiling of about 1,000 feet of private road, by the county, at his expense. According to Al Powers, county road commissioner, he had explained to Sbarbaro that the A & S Paving Company of Yreka, were now qualified to perform such work, and that the road department should not accept the work, because the current work load is too heavy. Further business action taken by the supervisors included giving their approval for the abandonment of an alley at Mount Hebron, in order that the forest service could use the property; accepted into the county road system an access road to the College of the Siskiyou; and sold the Dorris jail lot, under the county surplus property provisions for \$50 to E. R. Potter.

DMV Insists On Penalty For Drunks

SACRAMENTO (UPI) — The Department of Motor Vehicles insisted today it has the legal right to suspend licenses of drunk drivers for six months — and it intends to do it. Some judges and district attorneys, including those in Merced County, questioned the right of the department to take away from the courts the power to decide whether the license of a drunken driver should be revoked or suspended. But Tom M. Bright, deputy director of the department, said he has extensive legal opinions upholding the department's right to take action under Section 306 of the Vehicle Code. That section reads: "The department may revoke a license upon any of the grounds which authorize the refusal to issue a license and may also suspend or revoke a license upon a conviction of the licensee of operating a motor vehicle on a highway while under the influence of intoxicating liquor." In Section 307, however, the language would indicate that the courts have the discretion to suspend the license or even recommend no suspension. But Bright said if a court suspended a license on a first conviction for only 90 days "we'll add another 90 days on to it." And, he added, if a court recommended that no suspension be given "we intend to go ahead as long as we have a legal abstract of the conviction and suspend the license for a full six months." Robert I. McCarthy, director of the Department of Motor Vehicles, announced last Monday that as of July 1 every person arrested and convicted of drunk driving will have his license suspended for at least six months. The penalty, McCarthy said, would apply to first offenders who in the past "have been escaping with light suspensions or none at all."

Deficit Noted In Budget

YREKA — According to County School Superintendent W. E. Roberts, a preliminary study of budgets, as submitted by the county's school districts, disclosed there was an \$83,731 deficit, and at the meeting of the Siskiyou County Board of Education last week, the board voted to aid the Tulelake Union High School and the Macdoel Elementary School districts, who are lacking in funds. Money to be derived from U.S. timber sales will enable the Tulelake District to receive \$10,282 for the purchase of two new buses, and the Macdoel Elementary District will receive an emergency \$1,118 to meet the deficit in their budget. Roberts stated that less tentative figures will be available as soon as reports on assessed valuations are received. In the meantime, several districts will be notified to balance their budgets, some of whom will have a difficult time. Approval was given by the board for life diplomas for Robert Dais, Yreka, elementary administrative grade; Gino G. Michelon, Weed, special secondary life in industrial arts education grade; and Margaret K. Dunham, Yreka, general elementary grade. Audiovisual contracts were signed by the board with the Hornbrook elementary and Klamath River Union districts. The board accepted an allocation of \$540 from Modoc National Forest timber sales for 18 Modoc children who attend the Tulelake Elementary School and \$4,320 was accepted in Modoc Forest funds for 43 high school students attending Tulelake High School. Next meeting of the board is set for July 23, 8 p.m. at Yreka.
