

### Sponsoring Groups Mull Deer Herd Research Plans

LAKEVIEW—Methods and procedures to be used in the Silver Lake Deer Herd research project were discussed June 29 and 30 at Silver Lake. The project is being carried out by joint efforts of the Pacific Northwest Forest and Range Experiment Station, Oregon State Game Department, Fremont National Forest and the Bureau of Land Management.

The purpose of the study is to determine effects of deer and domestic stock use on the vegetation. Also the relative amount of use in the area both by domestic stock and by deer. Information

obtained will assist game managers in properly allotting forage to deer and domestic stock in proportions to reap the greatest benefit without damaging the soil and forage resource.

The game department will make studies on harvesting methods, trend in deer populations as well as rumen analysis to determine what plants are eaten by the deer and their nutritive value. Results of the studies will be used to help manage herds in similar circumstances throughout Oregon.

Richard S. Driscoll is in charge of the vegetation phase of the project for the experiment station. Edward Dealy is in direct charge of this field work and will be camped at McCall Spring in the heart of the Silver Lake deer herd this summer with his crew.

Those attending the meeting were Richard Driscoll and Ed Dealy of the experiment station; Cliff Windle, Bill Sendt and Bill Little of the Fremont forest; Oz Beedon and Henry DeBruin of the Deschutes forest; W. C. Burgess and Bill Leavell of the Bureau of Land Management.

### Plane Lands With Wheels Up

DALLAS, Tex. (AP) — Three crewmen tried vainly for 3 1/2 hours to lower a jammed nose gear in a Navy patrol bomber, finally made an emergency landing and stepped out unharmed Friday night.

Their two-engine PTV3F, a propeller-driven craft, scooted into Hensley Field so smoothly on a protective sea of foam that "we didn't even feel a jolt," they told officers at the naval air station here.

### Queen 'Kayoes' Chicago; Resumes Tour Of Canada

CHICAGO (AP)—"It has been an unforgettable day."

Openly thrilled, with a smile like a sunburst, Queen Elizabeth said goodbye to Chicago Monday night after 13 exciting hours amid the roar of cheering millions and one of the triumphs of her life.

She is resuming her tour of Canada with Prince Philip today, heading north aboard the royal yacht Britannia for Sault Ste. Marie, Ontario.

They will be on the yacht until noon Wednesday.

The echoes of Chicago will not soon die away.

The city gave her a warm, generous, typically American reception.

It was a case of mutual admiration. Elizabeth quickly caught the spirit of the crowds. She smiled. She began to wave with genuine feeling. She kept turning to Philip, chatting and laughing, as the thunder of the applause pursued them through the streets.

"We shall carry with us on the next stage of our journey, and for many years to come, a memory of the generous hospitality of Chicago which will long warm our hearts," she said.

These were her words as she rose to speak to 1,400 guests at Mayor Richard Daley's banquet in her honor, the last event on her long program. She was a glittering figure in white with a diamond and emerald tiara in her chestnut hair.

"My husband and I thank you most sincerely for the touching welcome you have given us," she said.

Her voice, usually high-pitched and girlish, glowed with feeling. Once again an explosion of applause rose around the Queen.

Commissioner of Police Timothy J. O'Connor calculated 2,000,000 persons saw Elizabeth during the day. They massed around Buckingham Fountain Land in Grant Park, where she stepped ashore, even before the Britannia was in sight outside the breakwater.

They stood for hours in the streets during the day. They were still waiting late Monday night to see her, escorted by 40 Medinah Shriners troopers riding black horses, as she came and left the hotel where the banquet was held.

They held children on their shoulders as her cortege passed. Those in the rear turned their backs and lifted mirrors—periscope-style—to look at her.

Everything went according to schedule in the tightly meshed arrangements. Two unexpected events were added.

First, Elizabeth lost a filling in one of her back teeth. She spent a quick 20 minutes in the dentist's chair while Dr. Norman R. Olson fitted a temporary filling.

Next, a police bomb squad scurried to the Museum of Science and Industry after an anonymous telephone call said the building would be blown up while the Queen and Philip were inside.

"A phony," said commissioner O'Connor. "Somebody just decided to make a telephone call."

The Queen's tour, basically, is a public relations assignment.

She has been traveling across Canada, appearing in small towns as well as the major cities, visiting industrial plants, schools, hospitals, decorating regiments.

Through it all, she has sounded the same theme—unity in the Commonwealth.

Her appearance in Chicago, the only major visit to an American city, was for the same purpose, to strengthen the bonds between the Commonwealth and the United States.

It was a brilliant success.

Admiring comments came from people as she passed. "Isn't she lovely?" "She certainly looks like a queen." "It was a thrill that comes once in a lifetime."

Chicago newspapers were even more extravagant. They reported she had captured the city, and called her visit "a day-long love affair."

The Queen returned the compliment in a graceful set of remarks.

"In this city of Chicago," she said, "in this state of Illinois, in this central area of the Middle West, and throughout these great and United States of America, the reality of your friendship has

been proved in our common endeavors, and still gives meaning to our hopes for the future.

"The close relationship between the United States and the Commonwealth strengthens the framework of the free world."

It was a great day for Chicago and unforgettable for the Queen.

### Dennis' Dad Marries For Second Time

CARMEL, Calif. (AP) — The wedding of cartoonist Hank Ketcham, who draws "Dennis the Menace," to the former Jo Anne Stevens of Tacoma, Wash., was announced at their Carmel Valley ranch Monday.

They were married at the Carson City, Nev., Methodist Church last Wednesday by the Rev. Clyde Teel. It was the second marriage for both.

Mrs. Ketcham, born in Detroit in 1928, moved to Tacoma as a child with her parents, Mr. and Mrs. William G. Stevens. She was divorced in 1955 from Paul D. Olson, a Tacoma lumberman. They had no children.

She formerly was an airline hostess and, several years ago, was one of three United Air Lines hostesses selected to accompany President Eisenhower and Vice President Nixon on a campaign tour. Recently she has been working as a travel agent in New York and on the Pacific Coast.

Ketcham was divorced last March. His former wife, Alice, died suddenly last month of a cerebral hemorrhage while on a motor trip to the Northwest. Ketcham has one son, Dennis, attending school in Southern California.

### Local Soldier In Polar Probe

Army Pfc Wayne R. Anderson of Klamath Falls is participating in "Operation Lead Dog," an 1,800-mile polar expedition across the Greenland ice cap. The operation is scheduled for completion late in August.

The expedition's purpose is to find and mark safe over-snow routes, to study weather conditions and to determine simplified methods of polar navigation and transportation.

Anderson, 23, entered the Army in 1958. He attended Klamath Union High School. His mother, Mrs. Frances Anderson, lives at 2033 Main Street, Klamath Falls. His wife, Yvonda, lives at 5370 Harlan Drive.

### ABOARD DESTROYER

Gerald T. Stewart, sonarman seaman, son of Mr. and Mrs. James Maguire of 103 Washington Street, is serving aboard the destroyer Maddox, operating with the U.S. Pacific Fleet out of Long Beach.

### "DENNIS THE MENACE"

### Red China Won't Risk War, American Officials Believe

WASHINGTON (AP) — Despite occasional clashes, U. S. officials believe that Red China is unwilling to risk a major military venture at this time.

They voiced that view today in the wake of a weekend air battle over Formosa Strait during which Chinese Nationalists claimed that four Nationalist Sabrejets shot down five of 12 attacking Communist MIGs. Peiping Radio conceded the loss of only one plane.

The officials noted that Red China has not renounced its intention to use force in attaining its objectives, nor has it shown any lessening of its ability to create tension when it wants to do so.

Nevertheless, U. S. officials are inclined to consider the jet clash an isolated event and not the prelude to any invasion effort of the Nationalist-held Quemoy and Matsu islands or of Formosa itself.

At the same time it is recognized here that the Communist Chinese technique is to probe for weak spots. There is need for adequate preparations all along the perimeter of Communist China, officials said.

By diplomatic and economic measures, the United States is hastening to bolster weaker nations which might be vulnerable to a Chinese Communist surge to the south.

The 37 million dollar offer of economic aid to Burma, announced Monday, is one step in this process. The strengthening of U. S. diplomatic relations with the tiny Himalayan kingdom of Nepal is another.

Economic aid to Pakistan and India in substantial amounts also appears to be assured of congressional support.

The United States has announced the opening of a new embassy at Katmandu, capital of Nepal, in the near future. In the past the U. S. ambassador to India has also served as envoy to Nepal.

In addition Nepal's King Mahendra is visiting President Eisenhower next spring on an official call.

First aid volunteers were impressed by the organization and high caliber of the college participants, stating it was the most outstanding in the many years the local Red Cross has provided a first aid team to man the station at local rodeo performances.

Mrs. Suber, Jim Baker of the OTI Fire Department acted as coordinator for the first aid project.

Seven participants in the Fourth of July Rodeo at the fairgrounds required assistance from first aid volunteers of the local Red Cross Chapter, reported Mrs. Dorothy Suber, who was in charge of the first aid station at the performance.

Members of the first aid team included Dick Suber, Mr. and Mrs. Dave Lovelace, Francis Smith Jr., Mrs. Natalia Reichenberg and Mrs. Irene McClintock. Three victims were treated at emergency wards of local hospitals and four minor injuries were given first aid at the building located in the arena area.

### Fire Stations Open Earlier Because Of Greater Danger

LAKEVIEW—The Warner Range District of the Fremont National Forest, because of high fire danger, manned the fire stations earlier in June this year than usual.

Nelson B. Higgs of Eugene is completing a thesis in Nevada for his doctor's degree in geology. He took up his duties on Drake Peak Lookout July 3. Mrs. Patricia L. Higgs, formerly from St. Cloud, Minnesota is manning the station now and will serve as alternate lookout.

Gerald W. Lilje from Eugene, a former Minneapolis resident, is stationed at Crane Mountain Lookout. Mrs. Pauline M. Lilje from Standish, Michigan, will serve as alternate. Lilje worked on the Fremont during the 1958 season.

Albert Rim Lookout is manned by Mike Brot, a psychology student from the University of Oregon. He originally came from North Platte, Nebraska. This is his second season on the forest.

District headquarters firemen are William Overton and Glenn Mautz. Overton mans a jeep water tanker and pumper unit. This is his third season with the district. Mautz is a biology student at the University of Oregon and is also putting in his third season on the forest. He mans a 300 gallon water tanker and pump.

Eugene Madison and his family are stationed at Willow Creek Guard Station. He is a second season man.

The following district personnel will assist, train and supervise the above crew in fire prevention and suppression: District ranger, Clyde E. Peacock; assistant district ranger, William R. Rines; district assistant, Harold F. Her-

rin; timber management assistant, Gene Pierson; forestry aid, Glenn Turner and fire control aid, James A. Bracken.

Edwin J. Kudrna is project crew foreman of an eight man crew at the Warner Work Center 14 miles east of Lakeview. The crew is divided into three man smokechaser crews for small fires, but may work as a unit on larger fires. The crew is made up of Robert D. House from Klamath Falls; Ray Jones, Gresham; Pat E. Haines, Enid, Oklahoma; Norman O. Kinney, a physical education student from Fort Worth; Stanley A. Carpenter, a forestry student from Mayfield, Oklahoma; William L. Byerly, Oklahoma City, is studying physics and Robert C. Carico, a chemistry student, is from Ponca City, Oklahoma. Mike Lacey, Enid, will report for duty in the next few days.

Mrs. Merle Rice of Lakeview does her part in the fire organization by keeping the crew well fed.

The new maximum interest rate of five and one fourth per cent on GI loans became effective July 2, it was announced recently by R. J. Novotny, manager of the Veterans Administration Regional Office.

Novotny also said that the increased rate may be charged on VA guaranteed loans closed after July 2 unless the lender makes a firm commitment to the veteran to make the loan at four and three fourths per cent. At this time the regional office is awaiting detailed instruction from the central office concerning the applicability of the increased rate to loans now in process.

The increase in interest rate does not affect GI loans previously closed.
