Two-Week Tour Of Russia Planned By Richard Nixon

WASHINGTON (AP) — Vice President Richard M. Nixon is reported planning to extend his tour of the Soviet Union to cover nine cities, including areas rarely opened to foreigners. His visit, starting July 23, may last two weeks.

He is understood to be willing to stay longer than the single week originally arranged — provided Kremlin authorities allow him to see more than the usual tourist attractions.

This became known today after more than a month of U.S. negotiations between the State Department and the Soviet foreign office. But details still are vague.

Neither side wants to talk about it as a three-day stay in Moscow, ostensibly to open the American Exhibition, and follow-up visits in a Soviet airliner to Leningrad, Kiev and six other cities now being talked about as additional stopping points.

Three of these are Novosibirsk, the deepest Nixon will penetrate into Siberia, and the industrial cities of Magnitogorsk and Sverdlovsk in the southern Urals.

Soviet authorities are understood to have agreed to allow Nixon to speak to the Soviet people on television at the windup of his stay. Kozlov was given a similar hour-long appearance on

American television at a combination speech and news conference last Thursday.

would you CUT YOUR PAYCHECK?

Not intentionally, of course. But remember, forest fires do just that. Not only do they cut the lumber industry payrolls, but forest fires can endanger the paycheck of every worker in the Basin. Be careful of fire in the woods. Do your part to keep Klamath green . . . and prosperous!
