

Announce Way To Help Drain All 8 Sinus Cavities Without Discomfort

New decongestant tablet for sinus congestion sufferers
acts both to drain clogged sinus cavities
and relieve distressing head pain

New York, N. Y. (Special) Announcement has been made of a new tablet development which has the remarkable ability to help drain clogged sinus cavities and thus relieve congestion and pressure. The headaches, pressure pains, stuffed-up head, nasal drip, clogged breathing—all the unrelenting symptoms the sinus sufferer knows so well—are attacked directly by improving drainage of the sinus areas.

Most remarkable of all is the fact that this is accomplished with extraordinary speed and without discomfort of any kind. This new tablet does its remarkable work internally, through the blood stream. It deposits into every drop of blood plasma a new medication which is carried to the sinus area, where it

shrinks the swollen doors to the sinus cavities and helps drain away the pain-causing pressure and congestion.

The shrinking substance in this new tablet has been so successful topically in promoting drainage of the sinus cavities that it is now prescribed more widely by doctors than any material for this purpose. This new medication is now available at drug counters without the need for a prescription under the name, Dristan® Decongestant Tablets. Dristan Tablets cost only 98¢ for a bottle of 24 tablets. Buy and use Dristan Tablets with the absolute guarantee that they will drain away pain-causing pressure and congestion of the sinus cavities, relieve the pain and distress, or purchase price will be refunded.

**Listerine stops
bad breath
4 times better
than
tooth paste!**

Tooth paste is for your teeth—Listerine is for your breath. Germs in the mouth cause most bad breath, and you need an antiseptic to kill germs.

Always reach for Listerine after you brush your teeth. No tooth paste is antiseptic, so no tooth paste kills germs the way Listerine Antiseptic does... on contact, by millions.

Listerine stops bad breath four times better than toothpaste—nothing stops bad breath as effectively as the Listerine way.

Let's Brand Apples

Theodore J. Kleinhans

Have you ever had your initials on a tie clip or a shirt? Maybe so. But I'll bet you've never grown them on an apple! Or have you? For you children who live in the country, it's as easy as frying an egg. Take some ordinary adhesive tape or masking tape and cut out your initials. In July or August pick out a green apple that you can reach from the ground and stick the letters on it. As the apple ripens, the skin will turn red, but under the tape initials the apple will stay green. You can also use this trick on the dark side of a watermelon. That way, if anyone raids your patch, you can prove whose melon is whose. Yours is branded!

Let's Draw a Giraffe

Ann Davidow

This creature is so great in height,
He's almost higher than a kite.

For no one else has even half
So long a neck as the giraffe!

Because he is so tall and slim,
I wonder who's been stretching him?

Tractor and Trailer Race

Ransom Ross

A group of boys can have fun with this race. Line up in two rows, so one player is directly in front of the one behind. The front boys are the tractors, and the back ones are the trailers.

At a signal the boy in front drops to his hands and knees. The one behind grabs the first boy's legs, lifts them off the ground, and they start to "run" in this position—tractor and trailer—to the truck depot goal 30 feet from the starting line.

The first pair to reach it without a coupler breakdown wins!
