

Party Slated For KF Pair

A farewell party for two Klamath Falls residents, Vic and Daisy Douglas, is being planned by the Moose Lodge.

They will be honored on Saturday, July 18, with a dance at 9 p.m. and a midnight buffet at the Moose Temple. Both have been active in the Moose organization for many years.

The Douglases are moving to Phoenix, where he will hold a position with the Water Engineering Company.

He has been governor of the lodge, vice president of the state association and has held offices in the Legion of Moose. Recently he was awarded the honorary fellowship degree by the Supreme Lodge for his outstanding service. Mrs. Douglas has also been active and served in various offices in the Women of the Moose.

Dunsmuir SP Names Chief

Samuel B. Burton has been named the new superintendent of Southern Pacific's Shasta Division, with headquarters at Dunsmuir, the railroad announced recently.

Burton, formerly assistant superintendent of SP's Coast Division at San Francisco, replaces Robert R. Robinson, who is becoming superintendent of the San Joaquin Division, at Bakersfield.

Burton joined Southern Pacific in 1940, on its Salt Lake Division. In 1949, he was promoted to trainmaster, and moved to Portland the same year. He transferred to Sacramento in 1953, and in 1954 became assistant superintendent of the Sacramento Division. He became assistant superintendent of the Coast Division last year.

Eggplant is said to have originated in Burma or India.

Sentencing Set For Actress

LOS ANGELES (AP)—Actress Liz Renay goes back to court today for sentencing on a perjury charge.

The onetime companion of ex-gambler Mickey Cohen pleaded guilty to perjury Wednesday in a surprise move. She admitted making erroneous statements to a grand jury investigating the financial dealings of Cohen, who once went to prison for income tax violations.

She appeared again before a federal grand jury Thursday and this time, she said, she told the truth. But she did not divulge what she said.

Over the GARDEN GATE

MT. LAKE GARDEN CLUB

Several honors have been won recently by members of the Mt. Lake Garden Club. Mrs. Crystal Cheyne has been chosen state horticulturist by the Oregon Federation of Garden Clubs for her outstanding work with gladioli, and Mrs. Will Blackman won second prize for her horticulture essay on dahlias.

The next regular meeting will be on Monday, July 20, at the home of Mrs. Blackman. After lunch Mrs. Henzel, president, introduced Mrs. Emmett Barke, a new member. Then Mrs. Robert Bryson, cookie chairman for the District Flower Show, asked that two dozen cookies be brought to her home by each member on Friday, July 31.

Mrs. George Houck sent word that the district wildflower tour was held July 9, and Mrs. Albert Roenicke, ways and means chairman, suggested ways to increase funds. It was decided to have a no-kosher food sale in the near future.

At the close of the meeting, members toured Mrs. Molschenbacher's garden.

Goldfine Alters Pleading; Puts Self On Court Mercy

WASHINGTON (AP)—Bernard Goldfine has left himself open to a sentence of up to one year in jail and a \$1,000 fine by placing himself at the mercy of the court on a contempt of Congress indictment.

The Boston industrialist Thursday withdrew his earlier plea innocent and entered a plea of no contest.

U.S. Dist. Judge James W. Morris referred the case to the probation office for presentence investigation.

The judge indicated he intends to be lenient. He commented the no-contest plea "implies the existence of mitigating circumstances in punishment."

The judge could suspend any jail sentence.

Asst. U.S. Atty. William Hitz objected to the new plea.

Goldfine's favors to political figures, including former presidential assistant Sherman Adams, were investigated last year by the House subcommittee on legislative oversight. The 48-year-old industrialist was indicted for refusing to answer questions about the financial affairs of the Boston Port Development Co.

He said they were not relevant to the inquiry into operations of government regulatory agencies.

Some of his companies had been in difficulty with some of the agencies.

Goldfine already is under a three-month contempt of court sentence in Boston for failing to produce records sought by the Internal Revenue Service. His secretary Mildred Paperman received a 10-day sentence in the same proceedings.

Production Hits Record

WASHINGTON (AP)—The nation's industrial production boomed to a record high in June.

The Federal Reserve Board reported the total output from mines, mills and factories was 153 per cent of the 1947-49 average. This was 2 points above the revised figure for May.

The recession low was 126 in April 1958, the prerecession high was 146 in February 1957.

Retail sales remained at a record high, 3 per cent higher in the second quarter of the year than in the first quarter and 10 per cent above a year earlier.

The board's monthly report said the output of autos, household durable goods and most types of business equipment continued to expand.

Steel production dropped to 90 per cent of capacity—3 points below the May rate—as operations were affected by the approaching end of the steelworkers' contract. Most of the industry is now being struck by the United Steelworkers.

ACE TV TIPS We had to shake our heads while reading an article in the last issue of ELECTRONIC TECHNICIAN magazine. The manufacturers of some TV sets using PRINTED CIRCUITS are beginning to realize customers are getting wise to the fact they are expensive to service and were built for one main purpose; CHEAP to manufacture with subsequent HIGH PROFITS to them. Anyway, the article written by S. R. Mihalic of the G.E. TV Department really came out with an odd suggestion. "Let's stop calling the printed circuit board a PRINTED CIRCUIT" he says, "It should be called 'laminated wiring'". It is of course, no coincidence that all General Electric TV sets use PRINTED CIRCUITS, as well as Admiral, Airline, Emerson, Hotpoint, Philco, RCA, Silvertone and Westinghouse, of the big boys. This is a lot like telling us to call all politicians STATESMEN, because the word "politician" is getting a strong odor. A goat by ANY name smells the same. As three separate 1959 issues of CONSUMERS REPORTS will show, Zenith is No. 1 on the list of BEST BUYS in TV. It would be logical to point out that Zenith does NOT use the PRINTED CIRCUIT. We take our hats off also to HOFFMAN, MAGNAVOX, MOTOROLA and PACKARD-BELL for giving up HIGH PROFITS rather than HIGH QUALITY in TV set manufacture. These sets also, do not use the PRINTED CIRCUIT. We have a complete line of Zenith quality sets, including the new 17" slim-line, less than 12 inches deep. — AND — FOR THE FINEST IN RADIO AND TV SERVICING ITS ACE TV 1140 Riverside Drive Ph. J-M Plants Hit Record

Added production from eight new plants, plus addition of a new line of fiber glass products and economies effected in costs of doing business so far in 1959 have given Johns-Manville and its employees the best six-month business record in the company's 101-year history, according to W. H. Graham, local J-M spokesman.

"As a result," he said, "wages, earnings and dividends paid to stockholders, many of whom are employees, have all attained substantially higher levels. Sales for the first six months reached \$176,314,000 with earnings of eight and one-half cents in each sales dollar, compared with \$150,691,000 sales in the first half of 1958 with earnings five and eight-tenths cents in each dollar.

"Payrolls so far this year have reached \$70,900,000, up some \$7,252,000 from the \$63,728,000 paid employees during the first six months of 1958," Graham reported.

"In the past six months all segments of Johns-Manville did well but the performance of our fiber glass business acquired at the end of 1958 was outstanding," Graham said. "Our business should continue strong during the remainder of the year."

Singer Gets OK On New Contract

LOS ANGELES (AP)—Singer Dottie Stevens, 13, won court approval Thursday for her new five-year contract with Dot Records, Inc.

Judge Ray P. Brockman ordered the young singer, whose "Pink Shoe Laces" is a current juke box favorite, to purchase a \$100 Savings Bond monthly from her \$500 monthly minimum. The contract also contains provisions for royalties.

Oscar Winner, Mate Separate

HOLLYWOOD (AP)—Actor David Niven and his wife Jorjdis, former Swedish model, have separated after 11 years of marriage.

British-born Niven issued a statement Thursday saying: "We have been living apart for several weeks. No divorce is contemplated. We are trying to work out our very personal problem as quietly and privately as possible."

Niven left immediately for Honolulu with his sons David, 16, and Jamie, 13. He said he would return in August to begin a picture.
