

# Bitter Battle Shapes Up Over Labor Bill Adoption

WASHINGTON (AP)—A bitter, unpredictable battle on the floor of the House was all but assured today over adoption of a labor-management controls bill.

The House Labor Committee, at a late night session, virtually completed action on a bill denounced by a Republican spokesman as Teamsters President James R. Hoffa's greatest victory. Faction-split Democrats disagreed on various provisions and on the bill's overall effectiveness.

In many objections, the bill met some basic objections of organized labor and represented a substan-

tial revision of the Senate-passed version.

Rep. Carroll D. Kearns of Pennsylvania, senior committee Republican, told reporters "Jimmy Hoffa has won his greatest victory."

The bill tentatively agreed on by the House Labor Committee fails to correct the racketeering that has been revealed by the Senate Labor-Management Committee investigation of the Teamsters and other labor unions, Kearns said.

"In fact," he said, "it exempts nearly 70 per cent of the nation's unions from even reporting their activities."

Resentment was reported among some committee members over strong efforts of AFL-CIO representatives to influence them in favor of labor-backed amendments. AFL-CIO spokesmen met twice in the past two days with committee members in what was reported as "or else" sessions in support of labor's views.

Still ahead are the drafting of some of the measure's provisions and of a report to accompany it.

The committee Wednesday removed from the Senate-passed labor "bill of rights" provisions for criminal sanctions against browbeating members for exercising

their rights. It substituted civil court injunctions as a remedy against reprisals after offended members had exhausted their union-allowed remedies.

Thursday the committee approved a revised version of the

Senate's ban on organizational or "blackmail" picketing, and a ban on secondary boycotts subject to the qualifying provision that union members cannot be fired for crossing picket lines of a primary employer.

It approved a prehire amendment to the Taft-Hartley labor relations law, desired both by management and labor, which would permit building contractors to enter into agreements with the building trades unions without first go-

ing through a representation election.

In a major action, the committee also voted to enlarge the National Labor Relations Board from five to seven members and revise some of its practices.

It moved to eliminate the "no-

man's land" area of labor disputes—those cases in which neither the board nor state agencies take jurisdiction—with an assertion that the board must assume jurisdiction over all labor dispute cases.

FLORENCE (AP) — The body of Albert Straight, 76, who vanished after setting out to pick berries June 25, was found in thick brush near this coastal town Wednesday afternoon.

Police said Straight's body was found by his son-in-law, Charles Panschow, who kept on looking after the organized search was called off.

More than 100 men had searched the brushy hills around the nearby Canary district after Straight disappeared from his home there.
