

THESE ENTERPRISING GIRLS of Bly Brownie Troop 24 and Intermediate Girl Scout Troop 94 netted \$21.81 from their recent rummage sale. The money will help Judy and Janice Hague go to Girl Scout Camp this summer. The Hague girls earned all but \$13 of their expenses, funds from the rummage sale will supply the balance. Front row, left to right, are Judy Ashford, Frances Hague, Dorothy Nelson. In the back row are Glenda Ashford and Judy Hague.

BASIN BRIEFS

In Service — Army Pvt. E. L. Simmons, son of Mr. and Mrs. Enoch L. Simmons, Dunsuir, completed the food service course July 3 at Fort Ord, California.

Dunsuir — Pvt. Douglas L. Nelson, 18, son of Mr. and Mrs. Austin L. Nelson, 1137 South Highway

89, Dunsuir, completed the eight-week basic Army administration course July 3 at Fort Ord.

Patluck Supper — was recently held by the Nazarene Foreign Mission Society of the Yreka Church of the Nazarene. Attending were 43 people. Mrs. Mike Shults was elected the new president of the society during the business session. The program was on Africa and the work of the church there.

Beauty Queen Raps Officials

LONG BEACH (UPI) — A Roman Catholic beauty said Monday night she quit the Miss Universe Contest because pageant officials restricted her more than the archbishop she defied by parading in a bathing suit.

Sue Ingersoll, 20-year-old Miss New Mexico, told a news conference:

"I was not allowed to make phone calls, and people were not allowed to call me."

She said this was a "much worse restriction" than the ban of Archbishop Edwin V. Byrne of New Mexico who had warned that she and her family would be denied the sacraments if she paraded publicly in a bathing suit.

Pageant director Oscar Meinhardt said Miss Ingersoll's charges were "ridiculous."

"It is part of the policy that we have learned down through the years to keep the girls away from certain people," he said. "As for Sue Ingersoll herself, she was given every chance to talk whenever she wanted."

Meinhardt immediately named a new Miss New Mexico, Carol Jones, 23, an Albuquerque secretary and Sunday school teacher.

She was expected to arrive today for competition for the title of Miss U.S.A. which gets underway tonight with 15 semifinalists to be chosen from among 46 contestants.

When it is 12 noon, Standard Time, in New York City, it is 7 p.m. in Ankara, Belgrade, Cairo, Istanbul, Jerusalem and Tel Aviv.

Picnic — Members of Cascade Crest Chapter and Chilquinn Masonic Lodge are reminded of the annual picnic Sunday, July 26, 1 p.m. at Collier Park. Please bring your own table service and a hot meat dish, salad or dessert.

Predator — Marion F. Southard of Happy Camp killed a female mountain lion recently near Clear Creek. He applied for the \$50 county and \$60 state bounties on the animal.

Recent Guests — of Mrs. Abbie Wagner and Mrs. Eunice Pitman, Etna, were Mr. and Mrs. Norman LeDoux, Sacramento; Mr. and Mrs. Arthur Sorensen, San Francisco; Mr. and Mrs. Robert Wagner, Mount Shasta; and Mr. and Mrs. Herbert Young and daughters, Sacramento.

Home — Elliott House has returned to Langell Valley after visiting his brother and sister-in-law, Mr. and Mrs. Irwin House, Medford, for a few days.

Weekend — Mr. and Mrs. Jimmy Dye and sons spent the weekend at Central Point. Their son, Warren Dye, has returned to Bonanza after a month at Hermiston.

Visitors — Mrs. Estel Hitson, Taft, and her daughter Hazel who was recently graduated from Harvard, and her friend, Daphne Whitman, a Fellowship student at Harvard from Burma are visiting friends in Langell Valley and Bonanza. They will visit John D. Hitson and family, Tulelake, while here.

Ronaida Gayle — is the name chosen by Mr. and Mrs. Martin Gift for their daughter born July 10. Maternal grandparents are Mr. and Mrs. Percy Dixon, Henley, and paternal grandparents are Mr. and Mrs. Lloyd Gift, Langell Valley.

Mrs. Dixon is in Langell Valley for a week with her daughter and family.

Butte Falls Visitor — Dick Pepple of Butte Falls visited in Bonanza with his parents, Mr. and Mrs. Owen Pepple, and their house guests, Mr. and Mrs. Joe Zich, San Francisco. He brought his aunt, Georgia Sealoff, Seattle, and daughter Michelle to stay a few days in Bonanza.

summer at Bly working for the Yancey Cattle Company. He is the son of the George Fernlunds.

Moving — Tommy Nelson, Sparks, has moved to Bonanza to make his home. He will move his wife and children here August 1.

Improving — Ed Simmons, Bonanza, who has been ill, is reported better at Hillside Hospital.

Home — Mrs. Frank Worden has returned to her home near Bonanza after spending several weeks in Kansas with relatives and friends.

Wave Marie Raymond — has returned to her base at Alameda after spending two weeks in Bonanza with her sister, Mrs. Jack McFall.

To Medford — Mr. and Mrs. George Fernlund and children, Langell Valley, spent the weekend at Medford with her father, Earl Schebble.

From Willows — Dr. and Mrs. Don Thomas, Willows, are visiting in Bonanza at the home of her brother-in-law and sister, Mr. and Mrs. Ronald Ketchum, and family.

Klamath Falls — Mr. and Mrs. Claude Becholdt, Bonanza, spent a week in Klamath Falls and took care of their two grandchildren while the children's parents, Mr. and Mrs. Delbert Becholdt went on a trip.

To Salem — Mr. and Mrs. John Tafell of Bonanza spent last week at Salem.

Returned — Mr. and Mrs. Virgil

Schmoe have moved back to Bonanza to live. They sold their property at George, Washington. Their daughter, Mrs. Herbert Woods, and her daughter of Roseburg are spending some time with them.

Verla Gibney — arrived in Bonanza July 19 to spend a week with her parents, Mr. and Mrs. Clarence Gibney and other relatives.

Langell Valley — visitors last week were Mrs. Fred Battis and children, Mrs. Joyce Felt and Mrs. Mike Eltrem and Mike Jr. of Klamath Falls, at the Bill Burnett home. Fred Battis is visiting at Lynn, Massachusetts, with his grandmother, Mrs. E. Battis, who is 104 years old.

To Florida — Spending a few days with relatives in Langell Valley and Klamath Falls, was Mrs. Nova Noble who has been at Salem and is now on her way to Florida for a vacation trip with friends.

Bonanza — Mrs. Merrill Stewart entertained the Altar Guild of St. Barnabas Church at her home July 16. Members present were Mrs. Cecil Haley, Mrs. Enos Bland and Mrs. Roy Whitlach. Guests were Mrs. Homer Holt and Mrs. Fred Fernlund. The guild will give a dinner on August 27, for the district convention of the Rebekah Lodge.

Scientists Probe Mystery Of What's Inside Earth

Editor's Note—One of the most ambitious scientific undertakings of our time is the Mohole project: an attempt to find out what's inside the earth. The only scientist writer accompanying ocean research vessels on a preliminary exploration describes the expedition in this first in a four-part series written exclusively for The Associated Press.

By LEONARD ENGEL
Copyright, 1959

ABOARD RESEARCH VESSEL VEMA (AP)—Four United States research vessels have just completed the first survey for what promises to be one of the great science adventures of the century.

A hundred and fifty miles off in the Atlantic north of Puerto Rico, they have been looking for a place to drill a hole through the earth's crust.

The hole is expected to answer such age-old questions as what the inside of the earth is really made of. It will go all the way down to the mantle, the thick band of rock surrounding the earth's molten inner core.

The drilling scheme has been dubbed the Mohole project because the hole is to pierce a layer within the earth called the Moho. The Mohole will be bored beneath the sea since the earth's crust is thinner below the ocean than on land.

Still, the hole will have to be several miles deep. And it will have to be drilled beneath miles-deep water—a feat never attempted before.

For several weeks, I have been aboard the "flagship" of the survey flotilla, the Columbia University research ship Vema. The Mohole survey was directed by Vema's chief scientist, Dr. John E. Nafe. The other research ships were Gibbs, from Hudson Laboratories; a Navy laboratory operated by Columbia; Bear, from the Woods Hole Oceanographic Institution in Massachusetts; and Hidalgo, from Texas A&M College.

The survey covered an area of the Atlantic known as the outer ridge, where the water is 3½ miles deep and the earth's crust is nearly three miles thick. A possible drilling site in the Pacific off the West Coast is also being surveyed. A final decision on just where the Mohole will be drilled will be made after a six-month study of data.

I found ocean research fascinating—and no game for the seasick-prone, or anyone afraid to wet his hands on deck.

Oceanographers work chiefly

from small, rough-riding vessels; big ships cost too much. Quarters are cramped. Heavy gear must be put over the side and retrieved, and high explosives handled on pitching, tossing, slippery decks in all sorts of weather at any hour of the day or night.

Since there is never a moment when data is not being gathered, everyone on board ocean research vessels works, even visitors. I stood a regular daily watch in Vema's instrument lab, monitoring the depth recorder and other instruments. I helped move ammunition and manned a hydrophone or recorded shots during seismic shooting.

Vema, a 202-foot, three-masted iron auxiliary schooner, carries a party of 11 to 15 scientists and technicians plus a crew of 19.

For entertainment the ship has "sailor's TV" — watching cloud shapes drift across the sky sunset. Good food is Vema's only creature comfort.

The big difficulty for the scientist is making his instruments work.

"Unfortunately, the sea is a bitter enemy of electronic gear," says Dr. Nafe. "It takes a day-and-night struggle to keep ocean research equipment functioning."

But the knowledge to be won is of commanding importance. The oceans are a key factor in weather and climate. Geologists say that they are also a major arena for the forces that create continents, raise mountains and stir up volcanoes and earthquakes.

The sea is home to countless forms of life, past and present, not found on land. Oil and many other minerals were formed in or below the sea, and minerals abound in the sea today—both in the water itself and on and below the ocean bottom. Further, stagnant ocean waters—if any exist—have been proposed as a solution for a pressing atomic age problem—a resting place for radioactive atomic power plant wastes.

CHP Officer Said 'Fair'

CONCORD (UPI) — A highway patrolman was reported in "fair condition" at Community Hospital here today after spending 22 hours pinned under his motorcycle in a brushy canyon off Oakland's Skyline Blvd.

Patrolman George Kallemeyn, 29, Concord, was found by two fellow officers Monday. He had been the object of an intensive search after he failed to report when his shift ended Sunday.

Kallemeyn was found by William Jory of the Contra Costa office and David Windecker of the Bay Bridge unit after 100 searchers had covered 300 miles of roads in the area. Kallemeyn suffered shock, two broken ribs, and possible spinal and leg injuries.

Capt. Russell Magill of the patrol said Kallemeyn had plunged off a steep trail that is used by East Bay cyclists to test their machines. Magill said he planned to find out what Kallemeyn was doing there.

Eleven Injured At Disneyland

ANAHEIM, Calif. (UPI) — Eleven persons, including six children, suffered minor injuries Monday at Disneyland when the four-horse team of a stagecoach bolted.

The injured were the driver and 10 of the 12 passengers in the stagecoach at the famed amusement park. Several were thrown to the ground when the stagecoach collapsed after its undercarriage was torn off by the wild horses. A Disneyland spokesman said the horses became frightened at the sound of the park's train whistle.

BEST ENGINES!

one of 7 Big Bests Chevy gives you over any car in its field

You've got more to go on than our say-so: *Every* motor magazine has given Chevy's standard passenger car and Corvette V8's unstinted praise. **SPORTS CARS ILLUSTRATED** says it this way: "... surely the most wonderfully responsive engine available today at any price." And if you want the thrift of a six, you still get the best of it in a Chevy.

BEST ECONOMY
No doubt about this: a pair of Chevy sizes with Powerglide came in first and second in their class in this year's Mobilgas Economy Run—getting the best mileage of any full-size car, 22.38 miles per gallon.

BEST BRAKES
Not only bigger, but built with bonded linings for up to 66% longer life. Just to prove what's what, Chevy out-stopped both of the "other two" in a NASCAR*-conducted test of repeated stops from highway speeds.

BEST RIDE
A few minutes behind the wheel will leave no doubt about this. **MOTOR TREND** magazine sums it up this way: "... the smoothest, most quiet, softest riding car in its price class."

BEST TRADE-IN
Check the figures in any N.A.D.A.* Guide Book. You'll find that Chevy used car prices last year averaged up to \$128 higher than comparable models of the "other two."

BEST ROOM
Official dimensions reported to the Automobile Manufacturers Association make it clear. Chevy's front seat hip room, for example, is up to 5.9 inches wider than comparable cars.

BEST STYLE
It's the only car of the leading low-priced 3 that's unmistakably modern in every line. "In its price class," says **POPULAR SCIENCE** magazine, "a new high in daring styling."
