Dentist From California Tells Of Quake Experience

BOZEMAN, Mont. (AP) — The mountain fell first—and then the water came. That's the account of a California dentist and his friends who survived the Madison Canyon earthquake and avalanche below Hebgen Dam Monday night.

Dr. Reed Quesnell of Arcadia, Calif., gave the account when questioned concerning a theory that water spilling over the dam raced through the canyon and swept some campers away before the mountain collapsed.

No Charges To Be Filed

VAN NUYS, Calif. (AP) — A doctor and a nurse involved in a scuffle with TV Western actor Peter Breck and his brother say they won't prosecute the pair.

The Brecks were hooked on suspicion of assault with a deadly weapon—cowboy boots—but were freed on a writ Tuesday. Both sides said it was all a misunderstanding.

Dr. Thomas Nelson and the nurse had accused the actor and his brother, George, 25, of attacking them in a hospital ward early Monday. Breck, 30, star of the "Black Saddle" series, had brought night club dancer Diane Bourne to the hospital for treatment. He objected to the doctor's questions and tried to take her away. He said he was attacked by the doctor.

Miss Bourne, 27, was identified as the actor's fiancée.

New York Power Outage Created Cooperation

NEW YORK (AP)—Manhattan's million people without power for 13 hours was not completely clear. Peak loads caused by sweltering weather and the increased use of cooling devices, burned out the cables. That was the power company's first explanation. An official of the company—Consolidated Edison—said later, however, that a dozen other things, such as rats gnawing on the cables, might have been involved.

Slay Warrant To Be Issued For Suspect

DOWNIEVILLE, Calif. (UPI)—Authorities said today they will issue a warrant for the arrest of Larry Lord Motherwell on murder charges despite the fact they consider it "pretty hopeless" to determine the cause of a Washington, D.C., widow's death.

The statement followed an investigation of the site where the bones of Mrs. Pearl Putney, 72, were found Sunday by a woman looking for pine cones.

In Sacramento, criminologist Roger Greene said he will conduct further tests to determine the cause of Mrs. Putney's death. However, Greene was skeptical because of the poor condition of the bones, which were identified from dental charts.

Sierra County Sheriff Dewey Johnson said that although no new findings were discovered Wednesday, the circumstances of the case warranted the arrest.

The area in which the bones were found is 90 miles from Marysville, Calif., where Mrs. Putney was last seen leaving a hotel with Motherwell a year ago.

Motherwell, 42, once suspected, but cleared, of killing his mentally retarded infant daughter; told police in Las Vegas Jan. 18 that he drove Mrs. Putney from Marysville to Las Vegas, Aug. 16, 1958, and left her there to marry another man. He said he never saw her again.

It was believed that Mrs. Putney had close to \$20,000 in cash and \$30,000 in securities when she disappeared a year ago on an auto trip with Motherwell.

Police conducted a nationwide search for the pair last fall when Mrs. Putney's worried relatives could not locate her. Officers reconstructed their transcontinental journey through picture postcards sent by Mrs. Putney to her brother.

The postcard trail came to an end on Aug. 16, 1958, when the brother received a telegram from San Francisco International Airport. It said:

"By the time you read this, I will be married...We flying to Mexico for the ceremony."

Police Commissioner Stephen P. Kennedy said the police helped to prevent trouble, "but the main reason why the unlighted streets were not turned into a dark and steaming jungle was the reaction of the community."

"The people of the area faced a difficult challenge and rose above it," he said. "In the vast majority of cases the emergency was faced with a spirit of understanding and cooperation. In an area with a serious crime problem, the rate of crime actually decreased radically."

"It is indeed ironical," he added, "that it took a major crisis such as this to bring out the best instincts of the community. In the dark all men were the same color."

WITH FAIR TIME hovering just around the corner, business is stirring at the Tulelake fairgrounds in preparation for setting up booths in the big exhibit building, putting on finishing coats of paint and freshening lawns and livestock barns. The Lava Bed Aggies, 4-H Club booth committee girls, were drafting plans for their booth this week with the help of Hornby, the collie, who has no English accent. Left to right in front of the booth they will use are Diane Dingler, junior club leader, Sharon Baghott, and Juanita Padilla. Ray Oehlerich is senior club leader.

Union Leaders Demo Chiefs Nurse Bruises After House Floor Battle

EVERYVILLE (UPI) — Two union leaders, Richard Groulx, 34, and David Arca, 43, have been charged with battery as a result of their roughing up of a pair of San Francisco attorneys Wednesday.

The lawyers, Charles E. Hanger, 34, and James K. Parker, came out second best in a fist fight as they entered the Pabco Products Inc. plant here.

Police said the attorneys, members of the firm of Brobeck, Phleger & Harrison, San Francisco, were entering the company's fiberoptic plant when the incident occurred. The plant has been closed since July 31 in a labor dispute with the Machinists Union Local 1304. None of the plant's 600 employees are represented by the picketing union.

Hanger, University of California basketball captain in 1943, said he was stopped at the entrance, and at the same time saw someone swinging on Parker. He then went to his aid.

Hanger said he suffered two broken front teeth and a bloody mouth in the scarp.

Union officials made no comment on the incident at the time. Groulx is assistant secretary for the Alameda County Central Labor Council and Arca is a shop steward for the Machinists Local 1304.

Democratic farm leaders nursed bruises today from the worst drubbing they have ever taken on the House floor in a fight with Secretary of Agriculture Ezra T. Benson.

The cloakroom buzzed with speculation that some pro-labor Northern Democrats who sided with Benson did so in retaliation against votes cast by the Democratic farm leaders last week on labor reform legislation.

For whatever reason, the House Wednesday rejected by a 143-52 standing vote the recommendation of its Agriculture Committee that Benson be forced to barter \$350,000,000 worth of farm surpluses for foreign minerals.

The unsuccessful fight to expand bartering was led by committee chairman Harold D. Coolidge (D-Tex.) and Rep. W. R. Poage (D-Tex.), the committee's second-ranking Democrat.

Both Coolidge and Poage were Democrats who helped Republicans push through the House the Administration-backed labor reform bill denounced as "vicious" by the AFL-CIO.

Republicans voted solidly Wednesday against the mandatory step-up in bartering, arguing that it merely would replace cash sales without cutting surpluses. Voting with them were a few Southern Democrats and the vast majority of the pro-labor Northern Democrats who were on the floor.

Wednesday's action stripped the mandatory bartering provisions from a bill granting the administration's request for a one-year extension in the farm surplus disposal program under which surpluses are sold for foreign currencies, bartered, or given away to foreign countries.

PERILS OF SUBURBIA

TUCKAHOE, N.Y. (UPI) — The special dangers of suburban living caught up with a pair of skunks here Wednesday. They fell into swimming pools. One was pulled out by humane society agents—after it had been put asleep by chloroform. The other managed its escape unaided.

Wheat Bill Given Okay

WASHINGTON (UPI) — The Senate Wednesday passed and sent to the House a bill to exempt durum wheat grown in the Tulelake area of Modoc and Siskiyou counties from acreage allotments and marketing quotas.

Sens. Thomas H. Kuchel (R) and Clair Engle (D) introduced the measure.

The Senate also passed and sent to the White House House-approved bills to authorize changing the name of Petaluma Creek to Petaluma River and to designate the Coyote Valley Reservoir as Lake Mendocino.

German Actor Arrives For Play

NEW YORK (AP)—Horst Buchholz, 25-year-old German actor, arrived by plane from Paris Wednesday night for his American stage debut opposite Kim Stanley in "Cheri." The play goes into rehearsal next week.

Buchholz has achieved a reputation in Germany somewhat similar to that enjoyed in America by the late James Dean.

Buchholz said he also has commitments for two film roles in Hollywood. He was accompanied by his wife, French actress Miriam Bru.

Hormone Aids Plant Growth

DALLAS, Tex. (AP) — It'll be more like gathering fruit when Bill Hancock picks his cotton crop in the edge of downtown Dallas.

Hancock, owner of a chemical firm, planted a single stalk indoors and applied a hormone growth stimulant as an experiment. The stalk shot up and he had to transplant it into a tiny strip of soil back of his business place.

His one-stalk crop now is 10 feet tall and Hancock expects it to grow another couple of feet. He has counted 100 bolls on the single plant.

Filmland Pair Slate Wedding

SANTA MONICA, Calif. (AP)—Actress Gia Scala of the movies and actor Don Burnett of TV plan to apply for a wedding license today and marry Thursday.

It will be the first marriage for each. The couple said they will honeymoon in New York.

Miss Scala, an Irish-Italian beauty, has just finished the movie "Battle of the Coral Sea." Burnett appears in "Northwest Passage," a TV series.
