

CHICKEN BROTH, jellied, served with a sour cream topping is mighty fine eating on a hot summer day. The soup is made with a rich and nicely seasoned chicken broth, with California Rose wine added by subtle flavor. Topping is specially seasoned sour cream. Photo and recipe are courtesy of California Foods Research Institute.

COLD JELLIED SOUP

Cold soups are refreshing on hot days. Especially delicious is "Chicken Broth, Rose." Served in small bowls—set in crushed ice with fragrant sprigs of fresh herbs as a garnish—this jellied soup is most appealing. The topping for "Chicken Broth, Rose" is sour cream to which is added finely chopped green onion, grated lemon rind and seasoned salt. Serve with thin bread sticks or crisp salted crackers, either as a cool first course or as a light main course with a simple salad and dessert.

Rich chicken broth is the base for this soup. Use one of the excellent canned products, a concentrate or your own, if available. In any event, skim even the smallest particles of fat from the cold broth so it is completely fat free. Gelatin is added (just enough so the cold mixture will lightly jell) and some California Rose wine. Lemon juice, seasoned salt and a dash of nutmeg season the wine-broth nicely. Add a very small amount of red coloring to deepen the pink color of the soup before chilling. If you wish, Or, you may use part tomato juice as the liquid.

California Rose is a versatile wine. As a beverage it goes with almost any food. As an ingredient it lends itself to many recipes, such as this jellied soup. Use Rose as part of the liquid in gelatin salads, salad dressings, marinades and sauces. Its light, rich flavor does wonders for food.

CHICKEN BROTH, ROSE
2 cups rich chicken broth
1 envelope plain gelatin
1/2 cup California Rose wine
1 tablespoon fresh lemon juice
Dash nutmeg
1/2 teaspoon seasoned salt
Sour Cream Topping
SOUR CREAM TOPPING
1/2 pint commercial sour cream
2 tablespoons finely chopped green onion
1/4 teaspoon grated lemon rind
Seasoned salt
Skim any fat from cold broth so it is completely fat free. Combine 1 cup broth and gelatin; heat

until gelatin dissolves. Remove from heat and add wine, lemon juice, nutmeg and salt. Chill thoroughly until set. Just before serving beat lightly with a fork. Spoon into bouillon cups; serve with Sour Cream Topping. Note: For a deeper rosy color add just enough red food coloring to give desired depth. Or, use 1/4 cup tomato juice for part of broth.

CUTEX

History doesn't advise us on the condition of Cinderella's foot when the Prince's valet fitted that important glass slipper. No doubt it was soft and lovely. But without modern preparations Cinderella needed a fairy godmother. The Cinderella of today has Cutex as her fairy godmother. She knows that Cutex will look out for her well-being and her good looks and that she can rely on Cutex to give her products to make her feet look and feel fit for the Prince's Ball.

Royal feet feel best when they are scrubbed clean and any callous or dead skin rubbed away with pumice. Old polish should be removed with a ball of cotton and Cutex Only Polish Remover. Then, nails should be clipped or filed straight across and never down at the corners, for that encourages the scourge of the kingdom... ingrown toenails. Dead

come bright and gay with a royal pedicure; and Cutex can help your feet pass the Glass Slipper Test!

THE GLASS SLIPPER TEST

The Glass Slipper Test was designed to help you find out if your feet are receiving royal care. Can your feet pass the Glass Slipper test?

1. Do you let your feet soak in warm water once a day, during bath or shower, not only to remove dirt and odor, but to soak out the tiredness and freshen them?
2. Do you use pumice when you wash your feet to remove dead skin and callous?
3. Are you careful to dry thoroughly between the toes?
4. Do you use a deodorant on the soles of the feet and between the toes to check any perspiration?
5. Do you keep the nails clipped straight across, long enough to show pretty polish but

CORN ON THE COB

A spoonful of sugar in the boiling water in which you cook corn on the cob makes sweeter corn and does not turn the kernels as dark yellow as does salt added to the water. Let each member of the family salt his own corn. And don't overcook.
