This Is Time Of Year When Tax Selling Begins

NEW YORK (UPI)—This is the time of year when tax selling gets under way in the stock market.

Tax selling is the process of establishing gains or losses for income tax purposes. To register a gain or loss the security involved must be sold. The tax man doesn't take paper profits or losses into consideration.

In ordinary markets, traders begin this tax selling in late October and carry it into mid-December. If there is enough of it the market is apt to decline.

Selling of this type piles up investment funds which together with year-end dividend and interest payments rise to a sizable total. They often are reinvested in late December, producing the traditional year-end rally that often carries into the new year.

Here is where the capital gains tax functions. Those with long-term capital gains—gains from stock or other property transactions—only pay a tax that works out at 25 per cent instead of the surtax rates that run as high as 91 per cent.

The capital gains tax is one of the few ways one can amass some capital. It's mighty difficult to get together a pile of money on the usual income taxes.

To operate on the 25 per cent rate (actually 50 per cent of 50 per cent of the long-term gain) the property sold to establish this gain must have been held for more than six months. If it's one minute less than that the tax collector just doesn't accept it. The word "more" is the important one in this category—more than six months.

Of course, one can take losses too. And one can take short-term gains. Short term gains or short term losses are those on property held six months or less.

This year's tax selling is expected to run higher than last year but under 1957. Not a small amount of it may be in preferred stocks, and in bonds because these two have shown declines.

The object of registering losses is to use them to offset gains.

You can sell up to the last tick on the stock ticker on Dec. 31 to establish losses.

You must sell on or before Dec. 24 to establish gains for 1959 in the regular way. If you want to establish a gain after Dec. 24 the same must be for cash and immediate delivery.

Securities sold to establish a gain may be repurchased immediately. Securities sold to establish a loss may not be repurchased for 31 days or longer.

Standard & Poor's suggests reviewing one's portfolio now for tax purposes and at the same time considering some advantageous switches.

Fund Drive To Aid GS

TULELAKE—Ten Girl Scout troops of the Tulelake and Newell communities will be benefited by the contributions that will be given during the annual fund drive that opened October 21.

Mr. and Mrs. Gilbert Osborne, co-chairman for the drive, hope that enough cash can be collected before November 1 to meet the needs for another year's program. Tulelake and Newell are included in the Klamath Area Council and share cost of the council program on a pro-rated basis.

No definite fund goal has been set.

One hundred and twenty six girls are being served in the Tulelake-Newell area and 23 adults participate in the program.

Mr. and Mrs. Osborne, in announcing plans for the fund drive, stated that cooperation of the council administration makes it possible for the Tulelake-Newell troops to continue to benefit through membership in the council. Without this sharing it would be impossible for Girl Scout activities to continue here.

All homes and business houses in the community will be visited by volunteer workers.

THANKS, ANYWAY

OPELIKA, Ala. (U)—A fire on Charlie Plott's car went flat at night while he drove outside town. When he returned from seeking help he found the car stripped of tools, two fender skirts, air filter, floor mats, radio, four hub caps and four tires. The thief left the flat tire for Plott.
