

"DENNIS THE MENACE"

"I CAN'T REACH THE LIGHT!"

Requirement Eased By CG

The Coast Guard has relaxed its vision requirements for recruits a little. Guard Commandant Vice Adm. Alfred C. Richmond said iron with

20-30 vision correctable to 20-20 in each eye will be acceptable. Previously, uncorrected 20-20 vision was the standard.

Applicants must be high school seniors or graduates 17 year old or more who will not have reached his 22nd birthday by July 1 next year. They must have earned 15 high school units by June 30, including three in English, two in algebra and one in plane geometry.

Information is available from the U.S. Coast Guard, 618 Second Avenue, Seattle 4, Washington.

Officer Hit For Failure To Give Help

MIAMI, Fla. (AP)—A woman who delivered her own baby in the family car has complained that a Miami motorcycle policeman refused to escort her mad rush to the hospital.

Officials are investigating. Her husband, Rudy Blakey, said officer C. W. Smith "shrugged his shoulders and said 'I'm sorry. I can't escort you. I'll follow along behind.'"

"I was in worse shape than my wife," said Blakey. "I was crying and shouting and screaming and honking the horn as loud as it would honk."

"I was driving like crazy in the rush hour Wednesday and Pat had already had the baby. She was holding him in her hands."

Mrs. Blakey, 25, spotted the motorcycle policeman and recognized Smith as an old schoolmate. "I was biting on a handkerchief," she said, "and, I said, 'Please, Billy, help us.'"

"I told him we were having a baby and pleaded for an escort," said her husband. "When he said no, I was too excited to argue. He just followed two or three blocks and turned off."

Police Chief Walter Headley said the officer should have offered some help, but added: "We have a rule against escorting people to hospitals because these highly excited persons cause too many accidents."

Police Chief Walter Headley said the officer should have offered some help, but added: "We have a rule against escorting people to hospitals because these highly excited persons cause too many accidents."

'Guided Missile' Sought To Minimize Heart Attack

By FRANK CAREY Associated Press Science Writer PHILADELPHIA (AP)—Scientists are exploring possibilities of developing a kind of guided missile technique of preventing or minimizing a major form of heart attack, it was reported today.

The "missile" would be a chemical enzyme that can dissolve blood clots of the type that occur in "coronary thrombosis"—a condition wherein a clot plugs an artery feeding the heart, shutting off

Major Crime Decreases

SAN FRANCISCO (UPI)—The incidence of major crime in California has decreased 10.3 per cent during the first half of 1959, according to a report submitted today to Attorney General Stanley Mosk.

The report, by the Bureau of Criminal Statistics of the California Department of Justice, showed an actual decrease of more than 7 per cent from the major crime rate during the comparable months of 1958.

But, on a per capita basis, considering population growth, the decrease amounted to 19.5 per cent, the report said.

The only increase was noted in the assault category, up 1.8 per cent over last year. Decreases were reported in categories of willful homicide, 13.2 per cent; robbery, 23; burglary, 11.3; theft, except auto, 0.9; auto theft, 12.6; and forcible rape, 3.1.

There were 106,118 major crimes reported during the first half of 1958 and 98,488 during the first six months of 1959, the report said.

Los Angeles County, with a 1959 population of 5,299,000, accounted for more than 50 per cent of the major crimes, the report said.

Siam Twins Out Of Peril

PORTLAND (AP)—The Stubblefield Siamese twins, separated Oct. 6, no longer are in critical condition.

"Their conditions are now satisfactory and the outlook is favorable," said a spokesman at the University of Oregon Medical School Hospital, where a team of 17 surgeons, technicians and nurses separated the two girls, Jeannet and Denett, who now are 3 1/2 months old.

The girls had been joined from breastbone to navel before the operation.

For a week after the operation Jeannet's condition was precarious and her death was expected almost hourly. Finally she rallied, under constant care, and a week ago the hospital said without qualification that the operation was a success.

The threat of possible infection still hung over both however and they were too weak to offer much resistance should it strike.

Indians of northern Idaho once used buffalo hide boats in river crossings.

Thief Uses Ruse: Gets Jewelry Valued At \$450

YONKERS, N.Y. (AP)—Matthew Samperi found a stranger in his bathroom Tuesday.

"Who are you?" he asked. "Plumber," replied the man pressing his ear against the wall. "Is it still leaking, Joe?" the man shouted down the bath drain.

No answer. "Tell you what," the man said to Samperi. "You turn on the shower and I'll check the apartment below."

Samperi turned on the shower and listened quite a while to the running water.

When the man didn't come back, Samperi discovered that \$450 in jewelry was missing from his apartment.

Ex-Seaman Mishap Victim

SAN FRANCISCO (AP)—A Filipino ex-seaman, due to be deported with his family today, instead was recuperating from auto crash injuries.

Felix Montalban, 36, who served on U.S. Army transports in World War II and also as a guerrilla in his native Philippines crashed his auto into a bridge ramp Thursday. He told officers he had blacked out.

Hospital authorities said Montalban had no broken bones, but many bruises and lacerations.

His father, Erenco, a Stockton cannery worker, and uncle, Guellerno, 57, who were with him, suffered lacerations.

The accident suspended plans to deport Montalban and his wife, Remedios, 30.

Herbert Nice, San Francisco District director of immigration, said Montalban and his wife are in this country illegally and had ignored deportation orders.

Their three children, Vivian, 6, Susan Anne, 3, and Deborah Lee, 10 months, have U.S. citizenship by birth but were to have gone with their parents.

Texas has 56,000 miles of oil pipeline.

OTI Faculty Attends Meet

Administration and faculty members of Oregon Technical Institute attended a meeting at Southern Oregon College in Ashland, Monday evening, October 19, to get a briefing of the OTI role as a new member of the state System of Higher Education.

Until July, 1960, the school will have been under jurisdiction of the state System of Education.

Dr. Elmo N. Stevenson, SOC president, outlined functions and organization of a combination professional school and college of arts and science, stressing philosophy and purposes of the college as an

independent unit operating also as part of the state's higher education setup.

The evening ended with a tour of the SOC campus directed by Dr. Stevenson, for members of OTI general extension division classes taught by Dr. J. Kenneth Munford, Oregon State College director of publications.

Representing the extension division was Raymond E. Petty, regional director, with office headquarters on the SOC campus.

The Tommy gun was named for its inventor, Thompson.
