HONORARY DEGREE

HOLLYWOOD (UPI) — Loretta Moorehead has been awarded an honorary degree for dramatic art. The actress, currently co-starring with Vincent Price in "The Bad," received the degree at Moonmouth College in Illinois where she participated in the college's Liberal Arts Festival.

Power Mower Is Lethal

CHICAGO (UPI) — A Florida woman was killed when a steel blade sailed 50 feet through a window pane and struck her.

A little girl died when her jugular vein was severed by a flying piece of metal.

A veteran of three World War II invasions was hospitalized when he was wounded by a flying kitchen spoon in his own front yard.

These three people were victims of one of the most common of the new-fangled "home tools" — the power mower.

In 1958, an estimated 15 million power mowers were in use, according to the National Safety Council. While no national statistics are available, a study in Georgia turned up the following facts:

1. Three out of 10 persons injured in power mishaps were hurt by objects thrown by the mower.

2. One injury in seven resulted in some permanent disability.

3. Toes and feet were parts of the body most often injured.

4. More than nine-tenths of the accidents involved rotary type mowers. The Council believes this is due at least in part to the great number of such mowers in use.

The power mower is no more dangerous than any other home tool, the Council said, if properly used and if a few basic rules are observed. For example:

Don't use an electric mower when the grass is wet and slippery.

Never allow youngsters or pets near a power mower. Never let a youngster operate one.

Make sure the area to be mowed is free of sticks, stones, wire and other obstacles.

Shut off the mower before moving from one level to another or when you're working on it. Never leave the mower unattended when it's running.

Don't refuel the mower while it's running or still hot from use. Always refuel out of doors.

When starting the engine, stand with your feet planted in a safe spot—away from the blades. Always be sure of your footing and balance—especially when mowing on an incline. On hills and banks, cut sideways, not up and down.

Know how to disengage the clutch and stop the engine quickly.

The Safety Council said features to look for in buying a mower should include good balance, wheels large enough for easy operation over rough and uneven terrain, and a handle long enough so that the operator cannot pull the mower back onto his feet.

All moving parts of the mower should be enclosed in order to prevent contact with humans.

Ships Go, Ships Come

OAKLAND, Calif. (UPI) — A graveyard of sunken ships here is being cleared out to make way for an ultra-modern recreational boating center.

Dredges cleaning up the harbor have scooped up a variety of moss-covered hulks that had been towed into the protected cove of the Alameda Estuary off San Francisco Bay.

Although none of the ships was identified, they were believed to be of the windjammer type that brought '49'ers around the Horn to the California gold fields.

The first unit of the \$2,500,000 boating center, known as the Pacific Marina, was opened early in May.
