

**A BAZAAR** and turkey dinner, traditional for 30 years with women of the Bly Church, is planned for Saturday night, November 14, at 6 o'clock. Place is the Bly School cafeteria. The dinner is sponsored by the Women's Society of Christian Service. Money is used for the church missionary program and support of the Bly Church. Left is Mrs. James Harter, vice president, and Mrs. James Dixon, president of the society.

### Postmen Face New Dangers In Animals

WASHINGTON (UPI) — Postmen who have learned to outrun and outwit the family dog today started considering some new dangers like bulls, goats, geese and other assorted farm animals.

These animals are owned by 500,000 rural families which will be seeing the mailman for the first time by the end of the winter. The families represent about one million persons who come under a new extension of rural delivery mail service.

Not only will the farm families be seeing the uniforms of the postal carrier, but so will their animals.

The Post Office said it hoped

mal in sight. man said, "is slips, trips and a larger problem in the Post Office Department," a spokesman said. He said they cause more than animal bites.

### Navy Doubts Nikita Claim Of Prowess

WASHINGTON (UPI) — The U. S. Navy is more than skeptical about Soviet Premier Nikita S. Khrushchev's reported claim that Russia has nuclear submarines twice as fast as the American models.

That, the Navy spokesman pointed out, would have been only a few weeks after Soviet First Deputy Premier Frol Kozlov told Vice Adm. H. G. Rickover that Russia was working on a nuclear sun — with no indication that the vessel had been completed.

A Navy spokesman said today Khrushchev may have been talking about subs that haven't been built, haven't been completed, or haven't yet gone to sea. He said America has no evidence that Russia is operating an atom-powered sub.

Khrushchev's reported remarks also would have been less than a month after Adm. Arleigh A. Burke, chief of naval operations, said America never has spotted evidence of an atom-driven Russian U-boat.

Khrushchev's claim was reported in an interview with Maj. Salah Salem, former Egyptian minister of defense, published in the Cairo newspaper Al Gomhouria.

"I think they are probably building atomic submarines," Burke added. "The Russians have said they are building nuclear subs and it is very seldom anything they say, outside of propaganda, is found to be wholly untrue."

The Soviet Premier, according to the account, said he told President Eisenhower in mid-September: "Eisenhower is not so bad but our atomic subs have double their speed."

The underwater speed of America's atomic submarines is secret, but is known to range from 20 to 25 knots (23 to 30 m.p.h.).

### Address Set By Guest

The Rev. George A. Moran of Southern California will be the guest speaker at the Pilgrim Holiness Church during a Bible conference, November 15 through November 22. Services will be nightly except Saturday at 7:30 p.m. Morning services will be held each Sunday of the conference.

Building undersea vessels that would double those speeds, according to the Navy, is not out of the question. In fact, there are certain technical reasons why underwater speeds greater than those of the fastest surface ships should be achieved eventually.

Rev. Moran will develop a study of the life of Abraham. His subjects and dates will be: November 15, morning, "On Display;" evening, "The Timing of the Soul."

However, the Navy expects it will be decades before America doubles the present speeds, and is unwilling to accept a suggestion

November 16, "Off Again, On Again;" November 17, "The Eyes Have It;" November 18, "Not Now But Afterwards;" November 19, "Seams of Grace;" November 20, "Off Dead Center;" November 21, morning, "Summit Meeting," evening, "In Orbit With God."

The Rev. Moran has served as district superintendent of the Pilgrim Holiness Church in California, has been chaplain for the Los Angeles County jails and has pastored for many years.

The song evangelist is Melvin Bundy.
