

THE GIANNATTASIOS

### Evangelists Appear Here

The Giannattasio Evangelistic Team appearing nightly at the Assembly of God Church has traveled extensively throughout the United States in gospel work.

Evangelist Giannattasio is a graduate of the New England Bible Institute, Frammingham, Massachusetts, and is affiliated with the Southern New England District of the Assemblies of God.

Mrs. Giannattasio assists her husband in the meetings and provides the musical program each night, using various musical instruments and singing sacred music.

The instruments used during the campaign are the vibratone, piano, accordion, organ, and the electro chord. (The electro chord is a new unique instrument.)

Evangelist and Mrs. Giannattasio in their presentation of music, song, and Bible preaching, may be heard nightly through November 29, 7:30 p.m. except Monday and Thursday, at the Assembly of God, Eighth and Oak streets.

Pastor Silas Jones extends a cordial invitation to everyone to hear the gospel workers.

#### AWARD SLATED

SEATTLE (AP) — Seattle University said Friday its 1960 "Award for Economic Statesmanship" would be presented next March to Walter F. Dillingham, a pioneer Hawaiian businessman.

Dillingham, a native of Honolulu, founded the Hawaiian Dredging and Construction Co. in 1902. Now 84, he is still chairman of the board of the firm and has active business connections with some 40 other island enterprises.

### ACE TV TIPS

- If your TV screen goes black during the TV show, even though the sound is good, TURN IT OFF. The chances are about 50-50 that if you let it keep running over 5 minutes after it blacks out, it will ruin an expensive output tube and burn a resistor or two, under the chassis.
- The October issue of CONSUMER REPORTS has a story on the PRINTED CIRCUIT all TV owners, or prospective buyers, should read carefully. It clearly tells how the TV manufacturers with PRINTED CIRCUITS have been using the public as Guinea Pigs for the past four years while trying to make something that might pay off for the consumer instead of the manufacturer.
- Don't let the words "Laminated Wiring" or "Sealed Circuitry" throw you off the track. Its their confusing way of saying PRINTED CIRCUIT. Few of them seem to be proud of the fact, oddly enough.
- At ACE-TV we chose ZENITH because ZENITH has never sacrificed HIGH QUALITY for HIGH PROFITS. That immediately eliminates the PRINTED CIRCUIT in Zenith handcrafted TV sets. And amazingly enough, the Zenith 17" Portables start at \$179.95, the new Thinlines at \$199.95. With all new ZENITH sets we give our own 90-day warranty — ABSOLUTELY FREE PARTS - AND - LABOR - AND - SERVICE CALLS.
- Our modern shop at 1140 Riverside Drive is run strictly for TV, Radio and associated equipment. You won't find fertilizers or freezers, jewelry or tweezers, just the finest in TV, Radio sales and service. Try us, we know you'll like us.

### Views Given On Papers

SEATTLE (AP) — "It is the editorial page that distinguishes the newspaper from the shopping guide," a group of newspapermen from the Pacific Northwest was told Thursday night.

Vincent S. Jones, executive editor of the Gannett Newspapers, addressed a banquet sponsored by the University of Washington School of Communications and the Pacific Northwest chapter of Sigma Delta Chi, national journalism fraternity.

"A good newspaper," he said, "can be the true conscience of the community."

Jones said most newspapers are becoming "semi-public utilities" because they have a monopoly in their areas.

"As in the case of any other important public service—and as the TV people seem to be just discovering—that role carries with it a responsibility," he added.

The annual "Green Derby" award of the School of Communications was presented at the banquet to Murlin B. Spencer, chief of the Seattle bureau of The Associated Press.

Dr. Henry Ladd Smith, director of the school, said Spencer has been active for many years in promoting and encouraging better journalism in the newspapers of the Pacific Northwest and Alaska.

Spencer was a war correspondent in the Pacific during World War II. Before joining the staff of The Associated Press in 1937, he worked on newspapers in Ft. Morgan, Colo., and Spokane. He is a 1931 graduate of the University of Nebraska. His father, R. B. Spencer, publishes the Evening Times in Ft. Morgan.

### Sheriff Fires Two Deputies

MEMPHIS, Tenn. (AP) — The sheriff fired two deputies today after his "pregnant prisoner" viewed a dramatic midnight lineup of officers at the county jail.

Sheriff M. A. Hinds said the deputies were intimate with Lela Fleck, 22, before she was transferred from the jail to the penal farm.

Mrs. Fleck, formerly of Long Beach, Calif., recently gave birth to a son. The lineup climaxed the investigation touched off by the pregnancy.

Hinds identified the men as Charlie Ellis, 39, who is divorced; and Fred Linton, 37, married and the father of three. No charge was filed.

The sheriff fired three other deputies from the 176-man force last week. He said they were intimate with two other women prisoners at the jail.

A grand jury which made a preliminary investigation said no charges could be filed because there was no violation of Tennessee law.

The two deputies turned in badges and pistols and walked out.

"I did not make a statement," said Ellis. "I am not going to. I can take care of myself."

Said Linton: "I did not make a statement."

### Oregon Weather

Western Oregon — Occasional rain tonight. Showers and partial clearing Saturday. Warmer in the southern interior tonight. Low tonight 40 in the south to 52 in the north; high Saturday 54-62. Small-craft warnings displayed south of Astoria to Cape Blanco for southerly to southwesterly winds of 12-25 miles an hour.

Eastern Oregon — Considerable cloudiness tonight and Saturday with a few showers, mostly in the north. Warmer in the eastern and southern portions tonight. Low tonight 20-40; high Saturday 45-55.

Northern Oregon Beaches — Showers and brief clearing Saturday. Temperature range 43-58. Southerly to southwesterly beach winds 15-30 miles an hour.

Grants Pass and vicinity — Partly cloudy tonight and a few showers Saturday. Low tonight 30-35; high Saturday 56-62.

### Pilot Blamed By Witness

SEATTLE (AP) — A mistake by a Braniff International Airways pilot sent a Boeing 707 jet airliner into a "horrendous yaw" just before it crashed north of here Oct. 19, a survivor testified Thursday.

Four men were killed and four survived when the big plane crashed and burned on a Stillaguamish River gravel bar. Three of its four engines had been ripped loose by a wild gyration in a training flight.

Albert C. Krause, Braniff flight engineer, was one of 14 witnesses at a one-day Civil Aeronautics Board hearing. He said Capt. Jack A. Berke "put in the wrong correction and we snapped over on our back." Berke was killed.

The 707 had been built for Braniff and was being put through "Dutch rolls" to demonstrate its handling characteristics to two pilots and two flight engineers from Braniff.

A Dutch roll is a maneuver in which a plane rolls and yaws rather like a skater.

A Boeing crew had been making Dutch rolls to the left and Berke had been handling the recovery. Krause said. All survivors said he did a good job until the final roll when he applied the corrective control in the wrong direction.

### Young Felon Gets 10 Years

EVERETT, Wash. (AP) — David K. Owens, one of four State Reformatory inmates who held 40 persons hostage in an escape attempt last July, was sentenced to a maximum of 10 years in prison Thursday. Similar terms were given the other three earlier.

Superior Court Judge Edward Nollmeyer said he would recommend a minimum term of seven years. The judge said in sentencing the other three Tuesday that he would recommend they serve the full term.

He said Thursday it did not appear Owens was a leader in the incident. He said he would recommend he be transferred back to the reformatory if the State Parole Board agrees.

The other inmates involved were Robert Jasin, 22, San Diego, Calif.; Walter R. Murray, 29, Vancouver, Wash.; and Donald D. DeCourcy, 22, Everett.

All four pleaded guilty to attempted escape and holding hostages. A third charge, assault, was dismissed.

### Group Denies Zone Changes

PORTLAND (AP) — The Multnomah County Board of Commissioners Thursday voted unanimously to deny a zoning change. It would have permitted construction of a trailer court in a southwest Portland residential district.

One of the backers of the proposed luxury trailer park was Al Winter, a Las Vegas, Nev., resort operator.

Residents of the neighborhood protested that locating the court there would change the residential character of the neighborhood.

Earlier the county planning commission had voted to change the zoning to permit construction of the trailer court.

### "DENNIS THE MENACE"

### Exec's Death Probe Muddled

WALLACEBURG, Ont. (AP) — An inquest probably will be held in the accidental shooting of retired General Motors vice president Harry W. Anderson, say Canadian authorities.

Lambton County officials did not indicate whether Harlow H. Curtice, retired GM president, would be summoned back to Canada if the inquest is held to repeat his account of the fatal hunting accident in the St. Clair River marshes Wednesday.

Curtice, 66, told provincial police that Anderson stood up in front of his (Curtice's) shotgun as he fired at a flight of ducks while the two were in a blind on Ste. Anne's Island on the Canadian side of the St. Clair River, 30 miles northeast of Detroit.

The charge struck Anderson, 67, in the head.

Dr. C. A. Henrich, Lambton County coroner, indicated that an inquest was likely "on account of the prominence of these people." He did not say when it might be held.

Provincial police had said they were satisfied that the shooting was accidental. Officers returned to the accident scene Thursday to take photographs.

Curtice was to attend Mormon funeral services for Anderson today at Ann Arbor, Mich., where Anderson lived. Anderson, who headed GM labor relations before his retirement, had been a long-time friend of Curtice's.

**RECORD CLAIM**  
BRIGHTON, England (AP) — Two sore-footed men limped into Brighton before dawn today and claimed to have set yet another long distance marching record.

Tom Rowley and Walter Latham claimed they had walked the 110 miles from Brighton to London and back in 32 hours 15 minutes—2 hours and 32 minutes under the record set by two British army engineers last Sunday.

Joel Chandler Harris worked 24 years for the Atlanta Constitution beginning in 1876. His Uncle Remus series was published in the Constitution during that time.

### Strong Quake Felt In Pacific

EUREKA, Calif. (AP) — A strong earthquake shook the Pacific Ocean floor for 17 minutes Thursday only 75 miles off this northern California coastal city—but it wasn't felt here.

The tremor was recorded by University of California seismographs at nearby Ferndale and at Berkeley, some 250 miles to the south.

### Rocket Fails Second Try

WASHINGTON (AP) — For the second day in a row rocket scientists failed to release a cloud of sodium vapor 150 miles above Wallops Island, Va. The rocket worked fine, but again the sodium did not eject as planned.

The same thing happened Thursday at dawn when civilian space scientists lofted a two-stage Nike-Asp rocket to 160 miles, but got no spectacular cloud of vapor.

Only the first of the series of three sodium cloud experiments — at dusk Wednesday — worked correctly. That cloud caught the sunlight above the earth's shadow and the flare was visible as far north as Worcester, Mass.

No more sodium rockets are scheduled at this time at the National Aeronautics and Space Administration installation at Wallops Island.

Today's rocket reached a height of 147 miles, NASA said, "but sodium ejection was not observed. Cause of the failure was not determined."

The sodium experiments are aimed at learning more about wind currents at high altitudes.

The launchings were among 10 rocket experiments scheduled this week here and at Cape Canaveral, Fla., White Sands, N.M., and Ft. Churchill, Manitoba.

**NOSE CONE CONTRACT**  
CAPE CANAVERAL, Fla. (UPI) — The General Electric Co. Wednesday said a large part of its new 10 million contract awarded by the Air Force will go towards a new nose cone for the Atlas intercontinental missile.

### Commie Note Rejected By India Boss

NEW DELHI (UPI) — Prime Minister Jawaharlal Nehru today rejected Chinese Communist Premier Chou En-Lai's Nov. 8 note demanding a buffer zone along the Indo-Chinese frontier and an immediate meeting with Nehru to settle their border dispute.

Nehru said no meeting could be held until the Delhi and Peiping governments had reached some "interim understanding" — including the withdrawal of Red Chinese troops from Indian border towns and villages.

Nehru's stiffly worded note followed his statements to the Parliamentary Consultative Committee in New Delhi Thursday that any Chinese Communist violations of the borders of Sikkim and Bhutan will be tantamount to war against India. India is charged with protecting those two Himalayan kingdoms.

Nehru said today he shared Chou's sentiments for friendship between the two countries but warned, "We have to face the realities of the situation and the present situation is such that unless active efforts are made by the governments of India and China, relations between our two countries are likely to grow worse."

In rejecting Chou's call for demilitarizing the McMahon Line — regarded by India as the legal border between China and India — Nehru suggested instead that border clashes could be eliminated if neither side sent out forward patrols, and said he was instructing the Indian army to stop patrolling there.

Between the end of 1952 and the end of 1958, automobile repair charges rose 21.4 per cent in the United States.

### Agents Arrest Wanted Man

PORTLAND (AP) — Agents of the Federal Bureau of Investigation picked up a man wanted at Akron, Ohio, in a bowling alley on S.W. Barbur Blvd. here Thursday.

He is Andrew Martin Hoza, 41, who was picked up on a two-year-old indictment charging attempted rape.

The FBI said Hoza fled from Ohio to the San Francisco area, where he lived until coming here in August.

### Fund Lack Slows Work

PORTLAND (AP) — An official of the Bureau of Public Roads told the Oregon Assn. of Counties Thursday that the interstate highway construction program may be slowed because of a lack of funds.

But, said Baird French, regional director of the federal agency, construction of the state's non-interstate highways will continue at a high level.

Baird said Oregon's interstate program for construction work on Highways 30 and 99 will total 55 million dollars in the next fiscal year. That is down 15 million from the 70 million expected earlier.

The association will close its 54th annual convention later today with action on resolutions and election of officers.

#### SPENDING PLANS

PORTLAND (AP) — Portland General Electric Co. Thursday announced plans to spend \$11,608,000 next year on its electricity distribution system.

More than 1 1/2 million will be spent in Portland. Work on expanding substations will take 2 1/4 million.
