

Brazil Troops Chasing Trio

RIO DE JANEIRO, Brazil (AP) — Government troops pushed through jungles of northern Brazil today in an attempt to cut off three leaders of last week's abortive revolt.

The trio took to the jungle after a light plane they seized ran out of gas, forcing them to land in the southern part of the state of Para.

Russia-China Clash Warned

WASHINGTON (UPI) — Sen. Alexander Wiley (R-Wis.) says the Red Chinese "are breeding like rats" and, as a result, may someday end up at Russia's throat.

Wiley, ranking Republican on the Senate Foreign Relations Committee, said he felt this was a major reason why the Russians apparently have softened towards the West.

"There's no place for the Chinese to go except north and they are breeding like rats," Wiley said. "Six hundred and fifty million (Chinese) will soon be a billion. Where can they go?"

He said the evidence was "very clear" the Kremlin was aware of the threat and had strengthened its defenses near the Red China border.

Wiley said the change in the Soviet Union's relations with the West also could be attributed to conditions inside Russia, namely "that the common people have begun reaching for the light."

Wiley made his comments in a radio interview Sunday.

TO HOLD HEARINGS
WASHINGTON (UPI)—A House post office subcommittee plans to hold hearings next year on sexy movies, books and magazines.

Chairman Kathryn E. Granahan (D-Pa.) said Sunday one purpose would be to determine whether the publishing industry should adopt a purity code patterned after that of the motion picture industry.

Doctor Completes Study, Tells Facts About Killers

PHILADELPHIA (AP) — Who are the killers, and who are the people they kill?

Some answers are provided by Dr. Marvin E. Wolfgang, a University of Pennsylvania sociologist who has just completed an exhaustive study of every criminal homicide in Philadelphia from 1940 through 1952—588 in all.

Dr. Wolfgang sought to find out when and where the killings took place, the weapons used, the motives involved and the relationship between killer and victim.

From his study, he concludes: "Homicide is the apex crime, a crescendo built upon previous assault crimes."

The Wolfgang study shows 64 per cent of the killers had previous police records. Of those with police records, 73 per cent had been arrested for aggravated assault and battery.

Those killed were not much different than the killers themselves.

BAD FEET NO HANDICAP

GRANTHAM, England (UPI) — Albert Johnson, who flunked his military physical 10 years ago because of bad feet, Sunday claimed a new record among Britain's hiking enthusiasts. He said he logged 110 miles in 22 hours, 39 minutes.

In 1950, the midpoint of the study, 13 per cent of Philadelphia's population was Negro. Men greatly outnumber women as killers and victims, the study showed. Of victims, 93 per cent are males and of the killers, 82 per cent.

Wolfgang said 39 per cent of the killings were caused by stabbing; 33 per cent by shooting; 22 per cent by beatings, and 6 per cent in other ways.

Women, he found, were more apt to kill by stabbing and to be killed by beatings.

The most dangerous day for homicides was Saturday, and the most dangerous hours from 8 p.m. to 2 a.m., the study showed. In
