Stocks WALL STREET NEW YORK (AP) — The stock market closed irregular Friday as it backed away from a moderate early advance. Trading was fairly active. Volume for the day was estimated at 3,400,000 shares compared with 3,560,000 Thursday. Gains of fractions to a point or more among pivotal stocks out-weighted losers in the same range. Motors were mostly higher but steels erased an early edge and drifted off. Selected chemicals, utilities, rails and electrical equipments gave the averages a small boost. Nonferrous metals and rubbers declined. Lower-priced stocks continued in brisk demand. Hupp, Graham-Paige, Fairbanks Whitney and Chadbourne Gotham were active gainers. A. J. Industries, formerly Alaska Juneau, and U.S. Industries were active but inclined to ease.

Man Jailed For Theft

Linton E. Opegaard, 23-year-old former employe of Klamath Disposal Company who admitted stealing \$781 from his employers' safe, was sentenced today to three years in the state penitentiary. Sentence was passed by Circuit Judge David R. Vandenberg without comment. Attorney Richard C. Beesley asked the court "to show what leniency it can in view of the fact that this is a second offense." Beesley reviewed Opegaard's record, which began as a juvenile when he was sent to McLaren School for Boys for six months. As an adult, Opegaard served 18 months of a penitentiary sentence for burglary several years ago. It was late in July that Opegaard pried open a safe in the Klamath Disposal Company office with a wrecking bar. Police in San Pablo, California, who had stopped Opegaard on a traffic violation, noticed the wrecking bar and began an investigation leading to the safe robbery. Opegaard waived extradition here and had served approximately five months in the county jail pending disposition of his case.

Dial service for 28 Rocky Point telephone subscribers will go into service at 11:01 p.m. Saturday, a spokesman from Beaver State Telephone Company said today. The conversion will be the first telephone service available for 20 of the 28 subscribers. It will provide local service for eight subscribers who previously could make toll calls only. Cost of the installation totals about \$44,000, Beaver State said. This included \$10,000 spent last year for land and buildings, \$19,000 for plant equipment, and \$15,000 for installation and other costs. The company issued a one-page supplement to its directory to add the new dial numbers. Rocky Point numbers may be added to the next Klamath Falls directory. Beaver State's manager in this area is William Castle of Lakeview. The company added that it had conducted a post card poll of its subscribers to determine which name was preferred—Rocky Point or Harriman, as the area on the west side of Upper Klamath Lake uses both names. Rocky Point won by a slight edge in the poll.
