### Love Triangle Issue Eyed In Biology Prof Murder

BATON ROUGE, La. (AP)—The possibility of a love triangle was raised today in the slaying of Dr. Margaret McMillan.

The other professor is Dr. George H. Mickey, 49, suspended dean of the Louisiana State University Graduate School. Dr. Mickey, married and the father of two children, has been charged with the slaying of Dr. McMillan, his friend for several years, who taught at LSU's New Orleans branch.

### Heiress Sees Brother Doug

PARIS (AP)—Douglas Benedict, 21, brother of runaway American heiress Gamble Benedict, 19, flew into Paris today in an effort to get his sister to come home to New York.

Defense lawyer Robert Klempner said there was no possibility of a love affair between the two. "It was a close relationship between two scientists," he said. "Favrot is talking through his hat."

A few hours before Dr. McMillan died of 13 blows on the head, she drove into a service station with a man to buy gas, according to James S. Versen, manager of a station near the front gate of the LSU campus.

Also, Favrot said, "spots of fresh human blood of the same type as that of the deceased" were found on Mickey's car.

was driving her foreign car and recognized her by "her smile and her glasses."

Dr. McMillan, a native of Evanston, Ill., met Mickey when he was a professor at Northwestern University about 10 years ago.

### Agency Talks Increased Cut

PORTLAND (AP)—A cut of one billion board feet of timber from Oregon O&C lands in the fiscal year ending June 30 was forecast Saturday by the Bureau of Land Management.

Benedict was met at the airport by Robert Hoffman, the family lawyer who flew to Paris from New York last week to investigate legal possibilities on forcing Gamble to return to the United States. The girl has refused to see Hoffman.

Versen is the last person known to have seen her alive. He said she and a man drove into his station between 6:45 and 8 p.m. Jan. 9. Her death was placed at 12:45 the next morning.

The day after Mickey's arrest, Favrot said the dean was arrested when the state found his alibi for the night of Jan. 9 was without foundation.

Dr. McMillan owned a foreign car. Her body was found beside the auto near the Baton Rouge campus.

Versen said Dr. McMillan was driving an American car when she came into his station. He said she paid for the gas with her credit card and signed the bill.

He said he had waited on Dr. McMillan twice before when she
