

U.S. Hecklers Preparing For Chief

WASHINGTON (AP) — Anti-American agitators operating out of Cuba were reported today to be plotting demonstrations against President Eisenhower when he visits South America next month. These reports, picked up by U. S. government security agencies, are being studied carefully by top aides planning the President's goodwill tour of Brazil, Argentina, Chile and Uruguay. As a precaution, the Secret Service, in cooperation with local governments, is planning the closest step-by-step security watch over the President. One report is that some fanatic

supporters of Cuban Prime Minister Fidel Castro have flown from Havana to countries Eisenhower will visit to help organize demonstrations. There was no proof that Castro knows of or approves such activities, but some security authorities expressed doubt the demon-

strations could be planned without Castro's knowledge. The agitators, it is reported, hope to embarrass the President during this stay, by picturing him as a reactionary foe of efforts by the Latin American people to improve their living standards. Only the women of Norway have a lower mortality rate than the women of the United States.
